**Wrong Turns, Right Moves in Education** Deborah Rhea Ed.D.,2019-03-22 As an American educator with decades of experience, Dr. Deborah J. Rhea had a burning desire to know why Finland's educational system was top ranked in the world, while the United States fell in the middle of the pack. She made it her mission to learn what she could. Rhea took a six-week trip to Finland, where she lived and learned from the best in their schools and government. During that period, her observations revealed that her generation experienced life and education very differently from children today. The philosophies and principles she saw reflected in the Finnish educational system helped open her eyes to the many wrong turns that the United States has made in education over the last thirty years. What's more, Rhea presents the right moves needed to get the country back on track for a healthier, happier method of educating children. In this study, an experienced educator compares the educational approaches of Finland and the United States, considering ways that the latter might be adjusted and improved.

Diversity and Society Joseph F. Healey,Andi Stepnick,2019-07-04 Adapted from the bestselling Race, Ethnicity, Gender, and Class by Joseph F. Healey and Andi Stepnick, Diversity and Society provides a brief overview of inter-group relations in the U.S. In ten succinct chapters, Healey and Stepnick explain concepts and theories about dominant-minority relations; examine historical and contemporary immigration to the U.S.; and narrate the experiences of the largest racial and ethnic minorities. The Sixth Edition of this bestseller explores a variety of experiences within groups, paying particular attention to the intersection of gender with race and ethnicity. While the focus is on minority groups in the U.S., the text also includes comparative, cross-national coverage of group relations in other societies. Updated with the most current trends and patterns in inter-group relations, this text presents empirical data in an accessible format to show you how minorities are inseparable from the larger American experience.

**The Migration Question** Leila Simona Talani,Matilde Rosina,2025-07-01 This authoritative book proposes a fresh perspective on international migration, offering decisive answers to the big questions, and dismantling the main myths surrounding one of the most salient issues of today's global politics. Who are these migrants? Do they steal our jobs? Can we help them in their home countries? Do border controls improve security? Are open borders desirable? Leila Simona Talani and Matilde Rosina address these issues and more in their deeply researched study of migration into both Europe and the

United States. Assessing globalisation's impact on international migration, the authors find that it is virtually impossible to stop contemporary flows from the Global South to North. In this context, policies designed to control, limit or deter immigration simply transform some or all regular migrants into irregular ones--exacerbating insecurity for citizens of the receiving state, and criminalising the migrants. Through empirical research including original surveys and interviews, Talani and Rosina demonstrate conclusively that the only solution to this short-circuit world of securitisation and criminalisation is for the Global North to open its doors to the migrants already, inevitably, coming through--particularly since the evidence shows that regularising migration is a positive-sum game, in economic, social and security terms.

*Sold Out* Alex Molnar, Faith Boninger, 2015-08-07 If you strip away the rosy language of “school-business partnership,” “win-win situation,” “giving back to the community,” and the like, what you see when you look at corporate marketing activities in the schools is example after example of the exploitation of children for financial gain. Over the long run the financial benefit marketing in schools delivers to corporations rests on the ability of advertising to “brand” students and thereby help insure that they will be customers for life. This process of “branding” involves inculcating the value of consumption as the primary mechanism for achieving happiness, demonstrating success, and finding fulfillment. Along the way, “branding” children – just like branding cattle – inflicts pain. Yet school districts, desperate for funding sources, often eagerly welcome marketers and seem not to recognize the threats that marketing brings to children’s well-being and to the integrity of the education they receive. Given that all ads in school pose some threat to children, it is past time for considering whether marketing activities belong in school. Schools should be ad-free zones.

*Disability* Romel W. Mackelprang, Richard O. Salsgiver, 2016 Disability is a tool for human service practitioners to use in understanding disability from an empowerment/social model perspective. The book establishes the historical and societal context in which those with disabilities are marginalized, discusses the major groupings of disabilities, and offers a model for assessment and practice.

**The Weatherwomen** Mona Rocha, 2020-03-04 Assertive, tough, and idealistic, the Weatherwomen--members of the Weather Underground Organization (WUO) from the late 1960s--were determined to stamp out sexism and social injustice. They asserted that militancy was necessary in the pursuit of a socialist revolution that would produce gender, racial, and class equality. This book excavates their long buried history and reclaims the voices of the Weatherwomen. The Weatherwomen's militant feminism had many facets. It criticized the role of women in the home, was concerned with the subordination of women to men, attacked the gender pay gap, and supported female bodily integrity. The Weatherwomen

also refined their own feminist ideology into an intersectional one that would incorporate multiple identity perspectives beyond the white, American, middle-class perspective. In shaping a feminist vision for the WUO, the Weatherwomen dealt with sexism within their own organization and were dismissed by some feminist groups of the time as inauthentic. This work strives to recognize the WUO's militant feminist efforts, and the agency, autonomy, and empowerment of its female members, by concentrating on their actions and writings.

**The Organization of Islamic Cooperation and Human Rights** Marie Juul Petersen, Turan Kayaoglu, 2019-04-30  
Established in 1969, the Organization of Islamic Cooperation (OIC) is an intergovernmental organization the purpose of which is the strengthening of solidarity among Muslims. Headquartered in Jeddah, the OIC today consists of fifty seven states from the Middle East, Asia, Africa, and Latin America. The OIC's longevity and geographic reach, combined with its self-proclaimed role as the United Nations of the Muslim world, raise certain expectations as to its role in global human rights politics. However, to date, these hopes have been unfulfilled. The Organization of Islamic Cooperation and Human Rights sets out to demonstrate the potential and shortcomings of the OIC and the obstacles on the paths it has navigated. Historically, the OIC has had a complicated relationship with the international human rights regime. Palestinian self-determination was an important catalyst for the founding of the OIC, but the OIC did not develop a comprehensive human rights approach in its first decades. In fact, human rights issues were rarely, if at all, mentioned at the organization's summits or annual conferences of foreign ministers. Instead, the OIC tended to focus on protecting Islamic holy sites and strengthening economic cooperation among member states. As other international and regional organizations expanded the international human rights system in the 1990s, the OIC began to pay greater attention to human rights, although not always in a manner that aligned with Western conceptions. This volume provides essential empirical and theoretical insights into OIC practices, contemporary challenges to human rights, intergovernmental organizations, and global Islam. Essays by some of the world's leading scholars examine the OIC's human rights activities at different levels—in the UN, the organization's own institutions, and at the member-state level—and assess different aspects of the OIC's approach, identifying priority areas of involvement and underlying conceptions of human rights. **The Myth of Left and Right** Hyrum Smith Lewis, Verlan Lewis, 2023 A groundbreaking argument that the political spectrum today is inadequate to twenty-first century America and a major source of the confusion and hostility that characterize contemporary political discourse. As American politics descends into a battle of anger and hostility between two groups called left and right, people increasingly ask: What is the essential difference between these two ideological groups? In *The Myth of Left and Right*, Hyrum Lewis and Verlan Lewis provide the surprising answer: nothing. As the authors argue, there is no enduring philosophy, disposition, or essence uniting the various positions associated with the liberal and conservative ideologies of today. Far from being an eternal dividing line of American politics, the political spectrum came to the United States in the 1920s and, since then, left and right have evolved in so many unpredictable and even contradictory ways that there is currently nothing other than tribal loyalty holding together the many disparate positions that fly under the banners of liberal and conservative. Powerfully argued and cutting against the grain of most scholarship on polarization in America, this book shows why the idea that the political spectrum measures deeply held worldviews is the central political myth of our time and a major cause of the confusion and vitriol that characterize public discourse.

The Bates Method - Perfect Sight Without Glasses William H. Bates, Emily A. Bates, 2017-06-29 See our YouTube Channel for VIDEOS of the book with color pictures, animations, (video in video) Natural Eyesight Improvement training by Bates Method author-teacher Clark Night; [https://www.youtube.com/watch?v=GhEy4Ys\\_pKU](https://www.youtube.com/watch?v=GhEy4Ys_pKU) This book is the Google Play text version of *Perfect Sight Without Glasses*. Contains only Ophthalmologist Bates' book, *Better Eyesight Magazine*, extra training, pictures to learn the method quickly and eyecharts. Dr. W. H. Bates started his career as an orthodox ophthalmologist following the old, long time rules of the practice; prescribing eyeglasses... During his practice, working with different patients, eye conditions, he realized that unclear close, distant vision, astigmatism and other conditions often cured itself, reversed back to clear vision, especially when his patients stopped wearing their eyeglasses and relaxed. He noticed that wearing glasses 'tensed' the eyes, eye muscles, lowered the vision and resulted in stronger and stronger eyeglass lens prescriptions being needed in order to see clear through the glasses. He began his own studies on the eye and its function. This led him to discover that many of the old ophthalmology, optometry 'supposed facts' about the eye, lens and its function and cause of unclear vision... are incorrect. Dr. Bates began teaching his patients to stop wearing their glasses. He taught them natural methods, including relaxation, correct use of the eyes/vision (shifting...) to produce clear vision. Dr. Bates cured his own eyesight, close vision, presbyopia. Distant vision also clear. He wrote an article in his book, magazine describing how he did it with Memory, Imagination, Relaxation. 'He controlled, changed the focus of light rays in his eyes with his mind.' Dr. Bates performed experiments on the eyes of animals, and observed the function of animal, patient's eyes under different conditions. He used the retinoscope to see the refraction of light rays in the eye under various conditions. He proved that the refraction, clarity of vision changes often. And when the eyes are left alone, eyeglasses avoided; the refraction, clarity returns

to normal-clear vision. He proved that the state of the mind, thoughts, emotions, body change the refraction of the eye, clarity of vision. Example: when the mind, body is relaxed, positive, happy thoughts, emotions; the refraction is normal and vision is clear. When the mind, body is under stress, strain; the refraction is abnormal and vision is unclear. Dr. Bates discovered that the main cause of unclear vision and other eye problems is; Wearing Eyeglasses, Mental Strain, Mental, Visual Effort to See, Poor Vision Habits-incorrect use of the eyes/vision; squinting, staring, not shifting-lack of normal, relaxed eye movements, lack of central-fixation, poor memory and imagination... Perfect Sight occurs with Perfect Relaxation (deep or active/dynamic relaxation). Relaxation occurs first, and then the eyesight becomes clear. Practicing normal, relaxed eye/vision function induces relaxation of the mind, eyes and perfect clarity. Dr. Bates' experiments on the outer eye muscles proved that tension in these muscles (mainly caused by eyeglasses, strain in the mind, incorrect vision habits) disrupts their function, the eyes movement, accommodation, convergence, un-accommodation, divergence, causes pressure, tension, pulling on/in the eye, alters the eyes' shape, (and lens, retina...), disrupts refraction, focus of light rays in the eye, on the retina and the clarity of vision. When the mind is strained, tense, the brain and retina do not communicate/function together at optimum level. Function of the retina is lowered. Relaxing the mind, returning normal eye movement relaxes the outer, inner eye muscles, returns the eyes, lens, retina... to normal shape with clear vision. Website;

**The Struggle Is Eternal** Joseph R. Fitzgerald, 2018-12-14 Many prominent and well-known figures greatly impacted the civil rights movement, but one of the most influential and unsung leaders of that period was Gloria Richardson. As the leader of the Cambridge Nonviolent Action Committee (CNAC), a multifaceted liberation campaign formed to target segregation and racial inequality in Cambridge, Maryland, Richardson advocated for economic justice and tactics beyond nonviolent demonstrations. Her philosophies and strategies—including her belief that black people had a right to self-defense—were adopted, often without credit, by a number of civil rights and black power leaders and activists. *The Struggle Is Eternal: Gloria Richardson and Black Liberation* explores the largely forgotten but deeply significant life of this central figure and her determination to improve the lives of black people. Using a wide range of source materials, including interviews with Richardson and her personal papers, as well as interviews with dozens of her friends, relatives, and civil rights colleagues, Joseph R. Fitzgerald presents an all-encompassing narrative. From Richardson's childhood, when her parents taught her the importance of racial pride, through the next eight decades, Fitzgerald relates a detailed and compelling story of her life. He reveals how Richardson's human rights activism extended far beyond Cambridge and how her leadership style and vision for liberation were embraced by the younger activists of the black power movement, who would carry the struggle on throughout the late 1960s and into the 1970s.
