**A Modern Guide to Astrology** Mikesmith, 2019-12-27 ===Buy the Paperback Version of this Book and Get the Kindle eBook Version included for FREE=== Astrology is one of the most complex and exciting things in the world. After all, who does not want to know what their future holds for them? If you are interested in astrology, this book is sure to help you understand it and use it in your day-to-day life. Astrology can be defined as the study of the influence of heavenly objects on our lives. These celestial objects include the stars, planets, asteroids, satellites, etc. The positions of these elements at the time of an individual's birth (and not their conception) determines a lot of things about them and their lives. For instance, astrology can be used to understand a person's personality, his or her attitude and aptitude, their feelings, and their emotions as well. It can also show their romantic relationships and can predict certain things, including financial and professional life. Many people know of astrology thanks to the 'horoscope', which has become a fixture in many magazines and dailies. They also know their zodiac signs and the traits associated with them. This is sun sign astrology on which most of these newspaper horoscopes are based. It is the most straightforward and easy to understand any form of astrology, but it is also the most limited form. The results and predictions of this form of astrology are often confusing and may prove to be wrong, as well. Its simplistic nature has made popular, but due to its problems, many people now believe that astrology is

fake. This book will only focus on Western astrology, as it is the most widely practiced type. This book will try to answer all your queries regarding this subject. Now let us enter the world of astrology and zodiac! Kws: astrology books, zodiac book, astrology book, the astrology of you and me, the only astrology book you will ever need, horoscope book, numerology book, astrology for the soul, pisces book, zodiac sign book, zodiac books, aries book, birthday book astrology, astrology for beginners, astrology for dummies, astrology books best sellers, you will know me book, natal chart, natal chart astrology
