Ecuadorians in Madrid Araceli Masterson-Algar,2016-04-08 In the decade between 1998-2008, Spain became the main destination for Ecuadorian migrants, and Madrid, Spain's capital, became the city with the largest Ecuadorian population

outside of Ecuador. Through a combination of ethnographic research and cultural analysis, this book addresses the interconnections between spatial practices, cultural production, and definitions of citizenship in migration dynamics between Ecuador and Spain, showing how Ecuadorians are key actors in Madrid's recent urban history. Looking at the city as form and content, constitutive and constituting of ideological processes, each chapter analyzes the spatial practices of Madrid's Ecuadorian residents through various forms: the body, the home, public and leisure spaces, the city, the nation, and transnational circuits. Rather than addressing migrants as a general human type marked by (dis)placement, each chapter offers an illustration of how Ecuadorian migrants forge transnational processes through their everyday lives in specific time and place, and how these processes manifest culturally on both sides of the Atlantic.

The Origin of Sin Prudentius, 2012-02-17 Aurelius Prudentius Clemens (348-ca. 406) is one of the great Christian Latin writers of late antiquity. Born in northeastern Spain during an era of momentous change for both the Empire and the Christian religion, he was well educated, well connected, and a successful member of the late Roman elite, a man fully engaged with the politics and culture of his times. Prudentius wrote poetry that was deeply influenced by classical writers and in the process he revived the ethical, historical, and political functions of poetry. This aspect of his work was especially valued in the Middle Ages by Christian writers who found themselves similarly drawn to the Classical tradition. Prudentius's *Hamartigenia*, consisting of a 63-line preface followed by 966 lines of dactylic hexameter verse, considers the origin of sin in the universe and its consequences, culminating with a vision of judgment day: the damned are condemned to torture, worms, and flames, while the saved return to a heaven filled with delights, one of which is the pleasure of watching the torments of the damned. As Martha A. Malamud shows in the interpretive essay that accompanies her lapidary translation, the first new English translation in more than forty years, *Hamartigenia* is critical for understanding late antique ideas about sin, justice, gender, violence, and the afterlife. Its radical exploration of and experimentation with language have inspired generations of thinkers and poets since-most notably John Milton, whose *Paradise Lost* owes much of its conception of language and its strikingly visual imagery to Prudentius's poem.
