Flexibility in Modern Business Law Mark Fenwick, Stefan Wrba, 2016-01-08 This book brings together a number of contributions examining how changes associated with economic globalization have contributed to the creation of new pressures on, and expectations of, those fields of law connected to the regulation of cross-border commercial transactions. These new demands of law – in particular, that it be more agile or “flexible” in regulating the economy – have prompted lawmakers and regulators in multiple jurisdictions to adopt a range of new regulatory techniques and legal forms to respond to this challenge. In many cases, these adaptations in law have entailed compromising traditional legal principles, such as legal certainty, in favor of empowering regulators with greater discretion than has traditionally been permitted in modern law. This change raises important questions about the meaning of fairness (certainty or flexibility), as well as the relationship between the public and private good.

Longing, Belonging, and the Making of Jewish Consumer Culture Gideon Reuveni, Nils H. Roemer, 2010 The Institute of Jewish Studies, founded in 1954 by the late Alexander Altmann, is dedicated to the promotion of all aspects of scholarship in Jewish Studies and related fields. Its programmes include public lectures, seminars, and annual conferences. All lectures and conferences are open to the general public. Jewish history has been extensively studied from social, political, religious, and intellectual perspectives, but the history of Jewish consumption and leisure has largely been ignored. The hitherto neglect of scholarship on Jewish consumer culture arises from the tendency within Jewish studies to chronicle the production of high culture and entrepreneurship. Yet consumerism played a central role in Jewish life. This volume is the first of its kind to deal with the topic of Jewish consumer culture. It gives new insights on Jewish belongings and longings and provides multiple readings of Jewish consumer culture as a vehicle of integration and identity in modern times

German-Jewish Popular Culture before the Holocaust David A. Brenner, 2008-07-08 David A. Brenner examines how Jews in Central Europe developed one of the first ethnic or minority cultures in modernity. Not exclusively German or Jewish, the experiences of German-speaking Jewry in the decades prior to the Third Reich and the Holocaust were also negotiated in

encounters with popular culture, particularly the novel, the drama and mass media. Despite recent scholarship, the misconception persists that Jewish Germans were bent on assimilation. Although subject to compulsion, they did not become solely German, much less European. Yet their behavior and values were by no means exclusively Jewish, as the Nazis or other anti-Semites would have it. Rather, the German Jews achieved a peculiar synthesis between 1890 and 1933, developing a culture that was not only middle-class but also ethnic. In particular, they reinvented Judaic traditions by way of a hybridized culture. Based on research in German, Israeli and American archives, *German-Jewish Popular Culture before the Holocaust* addresses many of the genres in which a specifically German-Jewish identity was performed, from the Yiddish theatre and Zionist humour all the way to sensationalist memoirs and Kafka's own kitsch. This middle-class ethnic identity encompassed and went beyond religious confession and identity politics. In focusing principally on German-Jewish popular culture, this groundbreaking book introduces the beginnings of ethnicity as we know it and live it today.

Pioneering Minds Worldwide Giep Hagoort, Aukje Thomassen, Rene Kooyman, 2012 Even after the recent economic crisis, cultural and creative industries are still able to easily draw audience members and consumers, as well as new talent to enrich these fields. Exploring the topic from economic, artistic, and policymaking perspectives, *Pioneering Minds Worldwide* is an interdisciplinary approach to these trades on a global scale, while making an important distinction between the cultural

sector--products that are consumed on the spot, such as concerts or dance performances--and the creative sector, which generates artistic products that we have a protracted interaction with, i.e. design, architecture, and advertising. The authors of these highly informative essays offer new concepts and viewpoints on the entrepreneurial dimension of the cultural and creative industries in sixteen countries and explore how urban area development, new technological innovations, and education all influence these continually expanding industries.

Clientelism and Patronage in the Middle East and North Africa Laura Ruiz de Elvira, Christoph Schwarz, Irene Weipert-Fenner, 2018-07-17 One common demand in the 2011 uprisings in the MENA region was the call for 'freedom, dignity, and social justice.' Citizens rallied against corruption and clientelism, which for many protesters were deeply linked to political tyranny. This book takes the phenomenon of the 2011 uprisings as a point of departure for reassessing clientelism and patronage across the entire MENA region. Using case studies covering Morocco, Tunisia, Egypt, Jordan, Lebanon, Turkey and the Gulf monarchies, it looks at how the relationships within and between clientelist and patronage networks changed before 2011. The book assesses how these changes contributed to the destabilization of the established political and social order, and how they affected less visible political processes. It then turns to look at how the political transformations since 2011 have in turn reconfigured these networks in terms of strategies and dynamics, and concomitantly, what implications this has had for the inclusion or exclusion of new actors. Are specific networks expanding or shrinking in the post-2011 contexts? Do these networks reproduce established forms of patron-client relations or do they translate into new modes and mechanisms? As the first book to systematically discuss clientelism, patronage and corruption against the background of the 2011 uprisings, it will be a valuable resource for students and scholars of Middle Eastern Studies. The book also addresses major debates in comparative politics and political sociology by offering 'networks of dependency' as an interdisciplinary conceptual approach that can 'travel' across place and time.

The Dark Double Andrei P. Tsygankov, 2019-03-01 Although many observers argue that US-Russia relations are a simple reflection of elites' political and economic preferences in both countries, these preferences tend to arise from pre-existing belief systems that are deeply rooted in the public and accentuated by mass media. In *Dark Double*, Andrei P. Tsygankov focuses on the driving power of values and media, in addition to political and economic interests, in structuring US-Russia relations. By analyzing mainstream US newspapers and other media sources, Tsygankov identifies five media narratives involving Russia since the Cold War's end and studies them through a framework of three inter-related factors: historic and cultural differences between the two countries, inter-state competition, and polarizing domestic politics. He shows how Americans' negative views toward Russia draw from a deep wellspring of suspicion and are further enhanced by a biased media that regularly exploits such negativity, Russia's centralization of power and anti-American attitudes. Given the

intensity of our current impasse with Russia, Dark Double represents an important intervention that forces us to think about the sources of conflict in a new way.

Logic Programming and Nonmonotonic Reasoning Esra Erdem,Fangzhen Lin,Torsten Schaub,2009-08-31 This volume contains the proceedings of the 10th International Conference on Logic Programming and Nonmonotonic Reasoning (LPNMR 2009), held during September 14-18, 2009 in Potsdam, Germany. LPNMR is a forum for exchanging ideas on declarative logic programming, nonmonotonic reasoning and knowledge representation. The aim of the conference is to facilitate interaction between researchers interested in the design and implementation of logic-based programming languages and database systems, and researchers who work in the areas of knowledge representation and nonmonotonic reasoning. LPNMR strives to encompass theoretical and experimental studies that have led or will lead to the construction of practical systems for declarative programming and knowledge representation. The special theme of LPNMR 2009 was "Applications of Logic Programming and Nonmonotonic Reasoning" in general and "Answer Set Programming (ASP)" in particular. LPNMR 2009 aimed at providing a comprehensive survey of the state of the art of ASP/LPNMR applications. The special theme was reflected by dedicating an entire day of the conference to applications. Apart from special sessions devoted to original and significant ASP/LPNMR applications, we solicited contributions providing an overview of existing successful applications of ASP/LPNMR systems. The presentations on applications were accompanied by two panels, one on existing and another on future applications of ASP/LPNMR.

Current Debates in Education Şenel Gerçek,2018 We live in an era in which knowledge generation alone can no longer work if it does not connect with the scientific developments in brain and cognitive domains. In our age, significant improvements in information and computer technologies are encouraged factors for scientists, researchers and instructors to re-build and re-design the knowledge. Nowadays an educational project as a scientific activity is considered to be more meaningful as long as it serves cognitive purposes. The scholars who are expected to be aware of the fact that they are living in the age of cognition, communication and computer, do not only deal with current educational problems but also have to try reconstructing and improving the quality of education according to the day. If we take account of all these, the book *Current Debates in Education*, a collection of the papers about various studies in the fields of Education, presented in The VII. International Congress on CUDES 2018 serves precisely this purpose. Muslims in the West after 9/11 Jocelyne Cesari,2009-12-04 This book is the first systematic attempt to study the situation of European and American Muslims after 9/11, and to present a comprehensive analysis of their religious, political, and legal situations. Since 9/11, and particularly since the Madrid and London bombings of 2004 and 2005, the Muslim presence in Europe and the United States has become a major political concern. Many have raised questions regarding potential links between Western Muslims, radical Islam, and terrorism. Whatever the justification of such concerns, it is insufficient to address the subject of Muslims in the West from an exclusively counter-terrorist perspective. Based on empirical studies of Muslims in the US and Western Europe, this edited volume posits the situation of Muslim minorities in a broader reflection on the status of liberalism in Western foreign policies. It also explores the changes in immigration policies, multiculturalism and secularism that have been shaped by the new international context of the 'war on terror'. This book will be of great interest to students of Critical Security Studies, Islamic Studies, Sociology and Political Science in general. Jocelyne Cesari is an Associate at Harvard's Center for Middle Eastern Studies and the Center for European Studies, teaching at Harvard Divinity School and the Government Department, specializing in Islam and the Middle East.

National Elections in Turkey F. Michael Wuthrich,2015-07-28 What determines voting behavior in Turkey? At a time when the center-right, religious-conservative leadership of the Justice and Development Party has dominated government and the political scene in Turkey—so much so that the democratic credentials of the regime have come into question—many have sought to understand what undergirds this party's success at the polls. While many scholars have argued that elections in Turkey over time can be effectively and simply explained by static social or cultural cleavages, Wuthrich challenges these assertions with a framework that carefully attends to patterns of strategic vote-getting behavior in elections by political parties and their leaders. Using the campaign speeches of the political elite, election data at national and provincial levels, and careful observations of voter mobilization strategies across time, Wuthrich traces four distinct patterns that explain important shifts in electoral behavior. He covers the first free and fair multiparty election in 1950 and follows campaign strategies through 2011, highlighting and explaining the potential development of a new and more problematic paradigm emerging in the post-2007 environment.

Turkey's Relations With Israel Ekavi Athanassopoulou,2024-12-03 This book offers the first comprehensive history and analysis of Turkey's relations with Israel since 1948, when the state of Israel was established, up until 2010 and places them within the wider framework of Turkey's foreign policy. It highlights the remarkable lack of consistency in Turkey's foreign policy towards Israel, under different Turkish governments, which has given the relationship a pervasive sense of unpredictability. Combining empirical-analytical evidence with role theory insights, as developed in Foreign Policy Analysis (FPA), it explores Turkish foreign policy makers' perceptions regarding the proper role and function of the country in the

international system and the sub-system of the Middle East and how they affected the policy towards Israel. The author argues that Ankara's ambivalent policy towards Israel for over sixty years can be explained by Turkey's multiple and often contradictory national role conceptions. The study, which draws from archival material and over fifty interviews with Turkish, Israeli, American and Arab officials and experts, places Ankara's policy into a larger analytical framework, which helps link the past to the present and future. The book is essential reading for students and scholars interested in understanding Turkey's foreign policy in general and towards the Middle East in particular.
