I Am My Own Home Isyana Artharini,2017-12-18 What is it about male aloneness that makes it so desirable while female aloneness is seen as less so? What is it about male aloneness that is often seen as a heroic and poetic choice, while female aloneness is generally seen to have come from a lack of options? I am My Own Home is a documentation of what it means to be a 30-something Indonesian woman who lives alone, along with the contentment and loneliness that goes with it. Through wandering, literature, and pop culture, the essays collected here are a way to recreate the idea of 'building a home', a manifesto (of sort) of living life as one person. These stories, on flaws and trying too hard, on intensity and overthinking, and on unrequited love and unfiltered emotions, are also one woman's way to make sense of her existence.

Both wonder if they can free themselves of the men who made them the abominations everyone considers them to be, and of the despair creeping in around them.

Outdoors in the Southwest Andrew Gulliford, 2014-04-18 More college students than ever are majoring in Outdoor Recreation, Outdoor Education, or Adventure Education, but fewer and fewer Americans spend any time in thoughtful, respectful engagement with wilderness. While many young people may think of adrenaline-laced extreme sports as prime outdoor activities, with Outdoors in the Southwest, Andrew Gulliford seeks to promote appreciation for and discussion of the wild landscapes where those sports are played. Advocating an outdoor ethic based on curiosity, cooperation, humility, and ecological literacy, this essay collection features selections by renowned southwestern writers including Terry Tempest Williams, Edward Abbey, Craig Childs, and Barbara Kingsolver, as well as scholars, experienced guides, and river rats.

Essays explain the necessity of nature in the digital age, recount rafting adventures, and reflect on the psychological effects of expeditions. True-life cautionary tales tell of encounters with nearly disastrous flash floods, 900-foot falls, and lightning strikes. The final chapter describes the work of Great Old Broads for Wilderness, the Colorado Fourteeners Initiative, and other exemplars of “wilderness tithing”—giving back to public lands through volunteering, stewardship, and eco-advocacy. Addressing the evolution of public land policy, the meaning of wilderness, and the importance of environmental protection, this collection serves as an intellectual guidebook not just for students but for travelers and anyone curious about the changing landscape of the West.

„Trust me – it’s paradise“ The escapist motif in Into the Wild, The Beach and Are You Experienced? Hannes Krehan, 2014-02-01 The author analyzes three books on escapism and the various ways in which it is represented in them. He focuses on Alex Garland’s backpacker cult novel 'The Beach' and William Sutcliffe’s satire of the gap-year traveler 'Are You Experienced?' as well as Jon Krakauer’s non-fiction book 'Into the Wild'. The first part of the analysis deals with the influence of literary genres like the Bildungsroman and travel literature. Unreliable narration as a narrative strategy is taken into consideration, as well as the colonial subtext of 'The Beach' and 'Are You Experienced?'. In 'Into the Wild' nature writing and road narratives are an integral part of the narrative. The second part deals with cultural aspects such as questions of authenticity that are raised during the narratives, the role of drugs as a means of escape, and also the problematic relationship between travelers and tourists. Finally, the author compares two film adaptations, Danny Boyle’s 'The Beach' (2000) and Sean Penn’s 'Into the Wild' (2007), with their corresponding literary source texts.

East Hampton Blue Shelby Raebeck, 2024-04-17 A local builder on Long Island’s fast-developing East End, Michael Dorian is forced to reckon: with a failing marriage and teenage daughter riddled with anxiety; with his tirelessly ambitious brother/business partner who leads them deeper into the maw of ruthless development; with the nature of a hauntingly beautiful place that offers opportunity but no longer feels like home. *East Hampton Blue* is about the dark cloud of excess that threatens to consume Long Island’s East End, and about the patchwork of characters who live beneath it, those who adapt, finding new paths amidst the changing landscape, and those who refuse to.

Attached Amir Levine, M.D., Rachel Heller, 2012-01-05 Discover how an understanding of adult attachment—the most advanced relationship science in existence today—can help us find and sustain love “Over a decade after its publication, one book on dating has people firmly in its grip.” —The New York Times We already rely on science to tell us what to eat, when to exercise, and how long to sleep. Why not use science to help us improve our relationships? In this revolutionary book, psychiatrist and neuroscientist Dr. Amir Levine and psychologist Rachel Heller scientifically explain why some people seem to navigate relationships effortlessly, while others struggle through adult attachment. Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that everyone behaves in one of three distinct ways while in a relationship: •

Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back • Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness • Secure people feel comfortable with intimacy and are usually warm and loving Attached guides readers in determining what attachment style they and their mate (or potential mate) follow, offering a road map for building stronger, more fulfilling connections with the people they love.

Practical Guide to RF-MEMS Jacopo Iannacci, 2013-08-12 Closes the gap between hardcore-theoretical and purely experimental RF-MEMS books. The book covers, from a practical viewpoint, the most critical steps that have to be taken in order to develop novel RF-MEMS device concepts. Prototypical RF-MEMS devices, both including lumped components and complex networks, are presented at the beginning of the book as reference examples, and these are then discussed from different perspectives with regard to design, simulation, packaging, testing, and post-fabrication modeling. Theoretical concepts are introduced when necessary to complement the practical hints given for all RF-MEMS development stages. Provides researchers and engineers with invaluable practical hints on how to develop novel RF-MEMS device concepts Covers all critical steps, dealing with design, simulation, optimization, characterization and fabrication of MEMS for radio-frequency applications Addresses frequently disregarded issues, explicitly treating the hard to predict interplay between the three-dimensional device structure and its electromagnetic functionality Bridges theory and experiment, fundamental concepts are introduced with the application in mind, and simulation results are validated against experimental results Appeals to the practice-oriented R&D reader: design and simulation examples are based on widely known software packages such as ANSYS and the hardware description language Verilog.

Water Borne Dan Rubinstein, 2025-06-10 An unconventional SUP journey to discover how embracing blue space could improve our lives and our world. In June 2023, writer Dan Rubinstein lashed camping gear to his stand-up paddleboard and embarked on an improbable solo voyage from Ottawa to Montreal, New York City, Toronto, and back to Ottawa along the rivers, lakes, and canals of a landlocked region. Over 1,200 miles and 10 weeks, he explored the healing potential of “blue space” — the aquatic equivalent of green space — and sought out others drawn to their local waters. But the farther Rubinstein paddled, the more he realized that being in, on, or around water does more than boost our mental and physical health and prompt stewardship toward the natural world. He discovered that blue spaces are also a way to connect with the kaleidoscopic cross-section of people he met and the diverse geographies and communities he passed through. Weaving together research, interviews, and an unmacho, malodorous, anticolonial adventure tale, *Water Borne* shows us that we don’t need an epic journey to find solutions to so many modern challenges. Repair and renewal may be close at hand: just add water.
