Delicioso María José Sevilla,2025-07-13 Spanish cuisine is a melting-pot of cultures, flavors, and ingredients: Greek and Roman; Jewish, Moorish, and Middle Eastern. It has been enriched by Spanish climate, geology, and spectacular topography, which have encouraged a variety of regional food traditions and “Cocinas,” such as Basque, Galician, Castilian, Andalusian, and Catalan. It has been shaped by the country’s complex history, as foreign occupations brought religious and cultural influences that determined what people ate and still eat. And it has continually evolved with the arrival of new ideas and foodstuffs from Italy, France, and the Americas, including cocoa, potatoes, tomatoes, beans, and chili peppers. Having become a powerhouse of creativity and innovation in recent decades, Spanish cuisine has placed itself among the best in the world. This is the first book in English to trace the history of the food of Spain from antiquity to the present day. From the use of pork fat and olive oil to the Spanish passion for eggplants and pomegranates, María José Sevilla skillfully weaves together the history of Spanish cuisine, the circumstances affecting its development and characteristics, and the country’s changing relationship to food and cookery.

Celebraciones Mexicanas Andrea Lawson Gray,Adriana Almazan Lahl,2013-09-24 *Celebraciones Mexicanas: History, Traditions, and Recipes* is the first book to bring the richness and authenticity of the foods of Mexico’s main holidays and celebrations to the American home cook. This cultural cookbook offers insight into the traditional Mexican holidays that punctuate Mexican life and provides more than 200 original recipes to add to our Mexican food repertoire. The authors first discuss Mexican eating customs and then cover 25 holidays and festivals throughout the year, from the day of the Virgin of Guadalupe, Carnival, Cinco de Mayo, to the Day of the Revolution, with family celebrations for rites of passage, too. Each holiday/festival includes historical background and cultural and food information. The lavishly illustrated book is appropriate for those seeking basic knowledge of Mexican cooking and customs as well as aficionados of Mexican cuisine.

Obispado,Daniel Orizaga,2024-03-27 Sincronías barrocas offre prospettive decentrate sugli incontri tra Asia, Iberoamerica ed Europa, dal XVI al XVIII secolo. Si pone l'accento sulla prospettiva transpacifico e sugli agenti che ne sono stati i protagonisti. Questo volume collettivo in spagnolo e inglese comprende analisi sugli eventi che hanno rafforzato le connessioni e le loro propaggini (oggetti di uso quotidiano, cibo, testi letterari e testi) essenziali per comprendere la formazione delle storie globali durante questo periodo. Le opere contenute in questo libro gettano così nuova luce su molteplici aspetti della prima globalizzazione e delle sue conseguenze nel Pacifico verso i diversi nodi della monarchia spagnola. Vanilla Eric T. Jennings,2025-08-26 The fascinating and wide-ranging history of vanilla, from the sixteenth century to today Vanilla is one of the most expensive of flavorings—so valuable that it was smuggled or stolen by pirates in the early days—and yet it is everywhere. It is a key ingredient in dishes ranging from crème brûlée to Japanese purin. It is the quintessential ice cream flavor in the United States. Eric T. Jennings explains how the world's only edible orchid, originally endemic to Central America, became embedded in the international culinary and cultural landscape. In tracing vanilla's rise, Jennings describes how in the 1840s an enslaved boy named Edmond Albius discovered a way to pollinate vanilla orchids with a toothpick or needle—an ingenious process that is still in use. This method transformed the vanilla sector by enabling the plant to be grown outside of its natural range. Jennings also looks at how the vanilla craze led to the search for now-pervasive substitutes, and how a vanilla lobby has fought back. He further unravels how vanilla—the world's most expensive crop and once considered its most refined fragrance—came to mean “bland.” This tale of botany, production techniques, consumption habits, and colonial rivalry connects the Atlantic, Indian, and Pacific Oceans, revealing how vanilla has become a potent symbol of the modern global village.

El libro de Dominga de Guzmán María del Carmen León García,1997

Historia 2 Arce Arce Tena, María Cristina Marcela, Montoya Rivero, María Cristina,2019-07-15 El libro coincide con el enfoque y con los propósitos del programa de estudio de Historia, en cuanto a la certeza de que saber Historia no significa memorizar hechos, sino reconocer los cambios y las permanencias que ocurren a lo largo del tiempo; comprender que los hechos y procesos relevantes son resultado de múltiples causas y que el presente siempre tiene relación con el pasado y el futuro, entre otros elementos. Se busca presentar una historia formativa que desarrolla la conciencia histórica; de una historia en constante construcción, por lo que no tiene la verdad absoluta, y a la cual el estudiante se debe acercar con un pensamiento crítico. En el tratamiento de los temas, el libro informa a los estudiantes qué van a hacer y a aprender, así como los pasos a seguir para que lleguen a la construcción de conclusiones y a la presentación de su trabajo; de esta manera, se

buscó que sea congruente con el enfoque pedagógico de la asignatura en su guía hacia los aprendizajes esperados, es decir, que aprendan a aprender una historia formativa. En la planeación, diseño y elaboración de la obra se buscó que tanto el enfoque historiográfico como el pedagógico y didáctico estuvieran presentes en cada uno de sus apartados, incluyendo las actividades y la evaluación. La evaluación responde a la visión humanista y se le dio gran importancia para hacerla formativa y diversificada. El texto presenta situaciones para desarrollar estrategias de autorregulación y autoevaluación destinadas a que el alumno valore su desempeño al inicio, durante y al final de cada proceso de aprendizaje, a través de actividades que ayudan a identificar, reconocer y valorar el propio conocimiento.

Libro de cocina Convento de San Jerónimo, 1979

La cocina de los monjes Luis San Valentín Blanco, 2011-10 Tras recopilar ese excelente recetario que es «La cocina de las monjas» (BE 1636), LUIS SAN VALENTÍN continuó su peregrinar por una serie de conventos en los que los tradicionales recogimiento y contemplación que caracterizan la vida de los frailes le permitió constatar que también en las comunidades masculinas se daban las condiciones óptimas como el aprecio por las cosas sencillas y, sobre todo, un ritmo vital exento de prisas para acercarse a los fogones. LA COCINA DE LOS MONJES nos ofrece una serie de recetas provenientes de una

veintena de monasterios y conventos, en las que destaca la utilización de productos sencillos y sustanciosos y una rigurosa acomodación a los productos característicos del lugar y de la temporada. Una breve reseña histórica sobre las órdenes y conventos que han proporcionado estas recetas y un índice de fácil consulta completan el volumen.
