Jessica J Manson

**Motivos visuales del cine ,
Imágenes del silencio** Jordi Balló,2000

La pintura en el cine Áurea Ortiz,María Jesús Piqueras,2003 La pintura puede inspirar la escenografía, el cromatismo o la caracterización de los personajes de una película. También Picasso, Van Gogh, Las Meninas, Goya o la capilla Sixtina son susceptibles de convertirse en imágenes cinematográficas. Pero su presencia va más allá y actúa en niveles más profundos., como demuestran obras tan dispares como *Vértigo*, *Moulin Rouge*, *El gatopardo*, *La edad de la inocencia* o *Frida*. Y esto es así porque el cine es, en parte, heredero del arte pictórico. Este libro intenta descubrir los distintos caminos por los que la pintura llega al cine, estableciendo sus complejas relaciones, las semejanzas y las diferencias entre ambos tipos de representación visual, teniendo en cuenta que cualquier reflexión sobre el tema supone hablar siempre de puesta en escena, es decir, de cómo construir una imagen.

Ecologies of Global Risk Journalism Ingrid Volkmer,Bruce Mutsaers,Saba Bechawi,Ansgar Heinrich,Antonio Castillo,2024-12-30 This volume investigates the practice and challenges of journalism addressing globalized risk from various world regions. With chapters written by members of the Global Risk Journalism Hub, an international research network of leading scholars from the Global North and Global South, this collection brings together international journalism researchers from a wide range of theoretical and methodological backgrounds to uncover key issues of global risk journalism within their regional contexts. Using the climate crisis and the COVID-19 pandemic as a point of departure, this book explores the effect of digital platforms on news production, how the reporting of these transnational emergencies affects the misinformation ecosystem, the power relations between global and local news sources and the ethics of conducting research in the face of globalized crises. This truly international and comparative volume will interest researchers and students of global and local journalism, risk journalism, journalism practice, media and communication studies, intercultural communication, political science and sociology.

De la forma-ritual a la experiencia corporal. El cine de Chantal Akerman Ariadna Moreno Pellejero,2025-07-20 Si bien el trabajo de Chantal Akerman es cada vez más reconocido, todavía es necesario repensar los aportes estéticos de su cine. En este libro se abordan algunos motivos visuales y narrativos, además de procedimientos estilísticos y estructurales que se

reiteran en sus películas, materializándose en lo que la autora llama una forma-ritual. Una forma en la que se inscriben el modo de filmar y mostrar el espacio, lo ordinario, los cuerpos, los sonidos y los silencios, así como el tiempo que atraviesa sus filmes. Una forma profundamente vinculada a las búsquedas personales de Akerman, como mujer y como hija de supervivientes de Auschwitz, capaz de encarnarse en las personas al otro lado de la pantalla.

Breaking Down Joker Sean Redmond,2021-12-30 Breaking Down Joker offers a compelling, multi-disciplinary examination of a landmark film and media event that was simultaneously both celebrated and derided, and which arrived at a time of unprecedented social malaise. The collection breaks down Joker to explore its aesthetic and ideological representations within the social and cultural context in which it was released. An international team of authors explore Joker's sightlines and subtexts, the affective relationships, corrosive ideologies, and damning, if ambivalent, messages of this film. The chapters address such themes as white masculinity, identity and perversion, social class and mobility, urban loneliness, movement and music, and questions of reception and activism. With contributions from scholars from screen studies, theatre and performance studies, psychology and psychoanalysis, geography, cultural studies, and sociology, this fully interdisciplinary collection offers a uniquely multiple operational cross-examination of this pivotal film text and will be of great importance to scholars, students, and researchers in these areas.

Ophelia Through Time Carolina Sanabria,2025-01-22 For centuries, interest in Shakespeare's Hamlet has prioritised its brooding, melancholy prince. Yet, over time, the enigmatic Ophelia, his tragic love interest, has risen to prominence in painting, film, television, and beyond, focused especially on her madness and death – conspicuously off-stage in the drama itself. Analysing her rebirth, resurrection, and ghostly afterlives in 'straight' adaptations as well as narratives far removed from the Bard's play, this study offers an innovative cross-media analysis of Ophelia's evolving representation. Tracing her journey from marginal character to symbol of increasing yet ambivalent transcultural importance, it identifies a series of recurring tropes that re-write her female subjectivity in surprising and fascinating ways. From page to stage, and scene to screen, Ophelia's voice is by turns amplified, ventriloquised, mediated, and silenced, reshaped by the delicate dialogue between text and image. This book is a captivating exploration of one of Shakespeare's most evocative figures and her enduring impact on visual storytelling.

The Cinema of Víctor Erice Linda C. Ehrlich,2007-02-01 To coincide with the recent DVD release of The Spirit of the Beehive, this paperback collection of essays focuses on the work of acclaimed Spanish director, Víctor Erice. Originally published in hardcover under the title An Open Window, this expanded edition draws on original essays, reprints, and new translations from an international group of writers. New to this edition are four essays from noted film scholars-including editor Linda C. Ehrlich-as well as three added essays from the filmmaker himself. Both the original and new material provide a deeper appreciation of Erice's three feature-length films-The Spirit of the Beehive [El espíritu de la colmena] (1973), El Sur

(1982), and *Dream of Light* [aka *The Quince Tree Sun*, *El sol del membrillo*] (1992), as well as his shorter works, including his most recent accomplishment, *La morte rouge* (2006). This anthology examines the aesthetic, historical, and sociological forces at work in Erice's films and includes an extensive interview with the director. This broad array of writings provides insight into not only three unforgettable films, but also into twentieth-century Spanish society, as well as world cinema. The *Cinema of Víctor Erice: An Open Window* will serve as an important resource to measure the career of this director who-along with Buñuel, Saura, and Almodóvar-has helped show the world the creative range of Spanish cinema. With additional essays, translations, and illustrations, this paperback edition explores new avenues of expression pursued by one of the most poetic of modern filmmakers.

My Name is Universe Toni Pou, 2024-06-12 *My Name is Universe* is a book of interviews with internationally renowned personalities through which some of the layers of knowledge included in the Periodic Table are revealed, recreated by Eugenia Balcells in the mural *Homage to the Elements*. Who would have thought that a work of art based on a scientific idea could explode like a veritable intellectual Big Bang and take us on a thrilling journey from atoms to galaxies through music, philosophy, art, cinema, chemistry, poetry, theater, dance, astrophysics, education, architecture, painting, quantum physics, religion or mathematics? *My Name is Universe* is a book in which science, the arts and the humanities are intertwined, appealing to the transversality and unity of knowledge. A text that cultivates an attitude of wonder at the world around us, the engine of artistic and scientific creation, and that stimulates the reader's curiosity and creativity.

Análisis fílmico y audiovisual Demetrio E. Brisset, Demetrio E. Brisset Martin, 2010 En el nuevo entorno digital del siglo XXI estamos rodeados por pantallas de todos los formatos, dotadas de irresistible fuerza como instrumento comunicativo que ilusoriamente nos presenta sus imágenes como duplicado de la realidad. Así, las historias que nos narran estas imágenes electrónicas se aceptan como reales, sin tener en cuenta lo que de mediación y operación social conllevan su producción y difusión. El desarrollo histórico del cine (entrelazado con el de la fotografía) y sus descendientes directos -la televisión, el vídeo y las imágenes virtuales-, ha ido modificando los medios de expresión. Para interpretar correctamente los mensajes icónicos que recibimos, es necesario conocer las técnicas formales de producción de sentido y dominar herramientas de análisis de los elementos culturales e ideológicos que incorporan. Aquí se aportan conceptos, teorías, métodos y modelos

analíticos que, elaborados inicialmente para el análisis fílmico, se pueden aplicar a todas las obras audiovisuales.

Manual de realización audiovisual de videoclips musicales Ana María Sedeño Valdellós, 2025-05-14 La realización audiovisual es un campo amplio y diverso de la comunicación audiovisual. A pesar de las publicaciones pioneras generalistas, aún existen lagunas en los formatos publicitarios, el videoclip musical y los géneros derivados, muy prolíficos en la red gracias a las estrategias digitales y transmedia. A la hora de afrontar la dirección de un proyecto de videoclip es necesario tener en cuenta su naturaleza de encargo de la industria musical, que lo emplea para promocionar, dar visibilidad e, incluso, mediar las canciones, los álbumes y los artistas musicales

Arc of Feeling Javier Moscoso, 2023-05-13 From beloved elements of children's playgrounds to leather tools of bondage, a sweeping study of the cultural significance of swings. In *Arc of Feeling* Javier Moscoso investigates the pleasure of oscillation and explores the surprising history of the swing through its meanings and metaphors, noting echoes and coincidences in remote times and places: from the witch's broom to aerial yoga and from the gallows to sexual mores. Taking in cultural history, science, art, anthropology, and philosophy, Moscoso explores the presence and role of this artifact in the West, such as in the works of Watteau, Fragonard, and Goya, as well as in other Eastern traditions, including those of India, Korea, Thailand, and China. Linked since ancient times with sex and death, used by gods and madmen, as well as an erotic and therapeutic instrument, the swing is revealed to be an essential but forgotten object in the history of human experience.

Concrete Cities Rob Imrie, 2021-10-26 This accessible critique of urban construction reimagines city development and life in an era of unprecedented building. Exploring the proliferation of building and construction, Imrie sets out its many degrading impacts on both people and the environment. Using examples from around the world, he illustrates how construction is motivated by economic and political ideologies rather than actual need, and calls for a more sensitive, humane and nature-focused culture of construction. This compelling book calls for radical changes to city living and environments by building less, but better.

Historia & Cinema José María Caparrós Lera, 2009

La cultura de la espada. De honor, duelos y otros lances. Raquel Sánchez García, José Antonio Guillén Berrendero, 2019-05-31 Duelo, honor, nobleza y violencia han sido temas nucleares en la composición de las sociedades humanas. En este sentido, el significado del concepto del honor y su patrimonialización por parte de determinados grupos sociales ha tenido un papel muy relevante en el imaginario mental de las sociedades del pasado, surgiendo ante nosotros como un objeto de estudio que merece ser estudiado a fondo. Este libro quiere ofrecer, desde una perspectiva multifocal, diferentes acercamientos a un tema como este, sugestivo y conflictivo. Las razones por las cuales las personas recurrían al uso de la violencia como mecanismo para la resolución de conflictos, las respuestas en contra que desde el poder y la legislación se ofrecían, así como el peso que en la opinión pública tenían este tipo de prácticas, orienta buena parte de los

trabajos que aquí se reúnen. Profesores de diferentes universidades y áreas de conocimiento analizan el fenómeno del duelo desde el punto de vista de las formas de reproducción de la cultura de la espada y del honor entre los siglos XV Y XX.

Estudios filosóficos y culturales sobre la mitología en el cine Alfredo Esteve Martín, 2020-06-29 El libro que el lector tiene entre sus manos es una selección de ponencias expuestas en la ciudad de Valencia los días 13 y 14 de diciembre de 2018, en el marco de un primer Congreso académico que reflexiona filosóficamente sobre los medios audiovisuales, y que llevó por título: “La mitología en la narrativa audiovisual: Cine”. La Convención fue organizada -de manera conjunta- por la Universidad Católica de Valencia San Vicente Mártir y el Centro de Estudios Filosóficos, Políticos y Sociales “Vicente Lombardo Toledano” de México, y contó con la presencia de numerosos académicos de talla internacional. De entre los múltiples aspectos que cabe destacar, hay uno que resulta especialmente relevante: el rigor combinado con la sencillez a la hora de profundizar en el valor que se le concede al mito por parte del Cine desde los tiempos clásicos. No es un libro que se distraiga en divagaciones al uso ni que transite por caminos trillados de las discusiones convencionales. Surca de un modo reflexivo y, a la vez, pragmático, los linderos de una “nouvelle discipline”, por la que los grandes tópicos filosóficos procedentes de la Grecia clásica se hacen interaccionar con los contenidos más sustantivos de los guiones cinematográficos de los tiempos modernos.

En el espejo de la cultura: mujeres e íconos femeninos, 2004 Artículos sobre escritoras, escritura femenina y estereotipos culturales femeninos.

Innovación docente en el aula universitaria: nuevas soluciones para viejas problemáticas, 2024-12-20 La educación del siglo XXI se enfrenta a uno de los momentos más complejos y transformadores de su historia. Este libro, compuesto por investigaciones y estudios innovadores, propone respuestas a los desafíos que surgen en el ámbito educativo, mostrando el impacto de metodologías activas, tecnologías emergentes y estrategias inclusivas en la formación académica desde la educación primaria hasta la superior. A lo largo de sus páginas explora cómo los enfoques pedagógicos modernos pueden fortalecer el aprendizaje, fomentar la participación y contribuir al desarrollo integral de los estudiantes, reconociendo la diversidad y las necesidades individuales de cada contexto.

Serialidad narrativa. Tres propuestas analíticas en la ficción policial Fernando Vizcarra Héctor, 2023-03-07 La serialidad en los constructos narrativos se define a partir de un balance que dosifica la innovación y la repetición entre un episodio y otro, segmentos encadenados en un conjunto que, de manera potencial, resulta infinito y en expansión constante. Para ejemplificar el análisis de los pactos del formato serial, en este libro se presentan tres casos concretos de ficción policial contemporánea, los cuales se sostienen en distintos esquemas de articulación serial: el textual, el audiovisual y el modelo editorial.
