Recommendations for the use of biocarriers Bencivengo, Philippe,Verdet, Francois,Barreau, Cristina,2023-08-21

Available online: <https://pub.norden.org/temanord2023-523/> Over the 15 past years, leakages of millions of plastic biocarriers - supports for bacterial growth used in certain types of Wastewater Treatment Plants have been reported in riverine and marine environments. In most cases, the biocarriers are not recovered, contributing to the issue of global plastic pollution. The objective of this report is to develop guidelines for the safe management of biocarriers based on proven-effective existing technical solutions and management measures, with the overarching goal of preventing releases of biocarriers in the marine and riverine environments. A holistic approach, encompassing every step of the biocarriers' life cycle, helped to identify possible improvements in production, transportation, storage, engineering, facility operation, and biocarrier disposal.

Les 100 mots du management de projet Lange Elsebeth,2014-09-10 Ce livre se veut un manuel pratique pour tous les non-francophones qui, à travers le monde, ont besoin de communiquer en français du déroulement d'un projet. Il s'adresse en particulier à ceux qui se préparent à être expatriés en tant que chef ou membres d'une équipe de projet dans un pays

francophone, et qui, à cette fin, suivent des cours de français. Il sera également utile aux enseignants de FLE (français comme langue étrangère) donnant ce type de cours. Le livre présente le vocabulaire du management de projet par ordre thématique : les 100 mots les plus importants pour parler du déroulement d'un projet, de ses intervenants, enjeux et contraintes. Chaque mot est introduit par une définition et son équivalent anglais, et l'usage du mot est illustré par des expressions et phrases typiques. La didactique du livre est délibérément implicite pour ne pas dérouter les lecteurs non-initiés à la linguistique et pour qui la langue, et le français dans ce cas-ci, est avant tout un outil de travail. Il est, par contre, facilement repérable par les enseignants de FLE, qui y trouveront une structure claire et simple, axée sur les spécificités sémantiques, morphologiques, syntaxiques et les collocations typiques de chaque terme. Un index anglais-français se trouve à la fin de l'ouvrage. Table des matières : 1. Projet. 2. Management de projet. 3. Parties prenantes du projet. 4. Instances du projet. 5. Communication et documentation. 6. Buts du projet. 7. Déroulement du projet. 8. Tâches et délais. 9. Economie du projet. 10. Ressources. 11. Management de la qualité et des risques. 12. Management des ressources humaines. 13. Index anglais-français. Bibliographie.

OECD Urban Studies The Blue Economy in Cities and Regions A Territorial Approach OECD,2024-04-12 The blue economy is a major driver of urban and regional development, creating millions of local jobs in water-dependent sectors such as fisheries, tourism, and shipping. However, it can also contribute to carbon emissions and ecosystem degradation, while its reliance on freshwater, coastal and marine ecosystems exposes it to the impacts of climate change. As the places where the blue economy takes place, creates value and provides jobs, cities and regions play a key role in unlocking the potential of a resilient blue economy that preserves the ecosystems that sustain it. Building on a global survey of 80+ cities, regions and basins, this report highlights the costs and benefits of the blue economy at subnational level, shedding light on the link between the blue economy and water security. This analysis provides an overview of the multi-level governance of the blue economy and related gaps. It calls on cities and regions to develop resilient, inclusive, sustainable and circular (RISC-proof) blue economies by establishing the right governance conditions related to policy making, policy coherence and policy implementation. The report concludes with a RISC Assessment Framework that offers a self-evaluation tool for subnational governments.

Framed! Lucy Bolton, 2007 Broaching the notion of the 'frame' from a variety of analytic perspectives, and employing a range of approaches, this collection of articles engages with contemporary debates on text and image relations, literary reception and translation, narratology and cinematographic technique. The various contributions to this collection provide new readings in their respective fields, and share a common concern with exploring the productive and problematic notion of the 'frame' and of 'framing' in a wide variety of cultural media in French Studies. This interdisciplinary analysis of literary and theoretical texts, visual art and film allows for fruitful connections to be made at the level of analysis of themes and of methodology. It thus provides material that is of interest both to specialists in these fields, and also to those seeking a more general introduction to each area. This collection of articles is selected from the proceedings of the 'Framed! in French Studies' workshop, held at the Institut Français in London in February 2006.

Évaluons, évoluons Jean-François Marcel, 2013 Dans les systèmes de l'enseignement, l'évaluation a fait l'objet de multiples réflexions et constitue toujours un sujet qui fait débat. Dans l'enseignement agricole, l'évaluation, qui a généré de nombreuses innovations telles que les unités capitalisables, les contrôles en cours de formation, suscite de nombreux questionnements. Collectif, ce livre réunit des chercheurs, inspecteurs, enseignants, psychologues et rassemble ainsi des expertises, différentes mais complémentaires, pour tenter d'apporter des éléments de réponses. Applicable à tous les systèmes éducatifs, cet ouvrage dresse un large panorama, des dispositifs de certification jusqu'au champ des acteurs de l'évaluation. Il croise des points de vue variés et convoque des éclairages extérieurs et européens. Pourquoi et comment changer les pratiques d'évaluation ? Quel est l'apport de la recherche ? Quel est le lien avec les professionnels ? Quelle est la responsabilité des jurys ? Quelle fiabilité accordée aux évaluations scolaires ? Comment font nos voisins européens ? Dans un langage vivant, cet ouvrage propose, tantôt des témoignages, tantôt des analyses, réflexions, comptes rendus de recherche, et explore ce qui se fait ailleurs.
