**American Indian Quotations** Howard J. Langer,1996-06-24 The first book of American Indian quotations, this volume offers 800 quotations covering more than four centuries of American life. The quotations include the words of warriors, poets, politicians, doctors, lawyers, athletes, and others. Arranged chronologically, they enable one to follow the history of American Indians since Columbus through the words of those who lived through centuries of despoilment, disease, and death. Putting real people into the tragedy that has been the story of Indian life, the book includes quotes not only about historic incidents, but also of Indian views on education, values, ecology, family, and religion. There is humor as well as quotations of defiance, war, and bloodshed. The language is rich and colorful, always moving. The book provides brief biographical information on those quoted, including both contemporary and historical figures. The material is cross-referenced with subject, key word, author, and tribal indexes. The work is a reference book, a history book, and a resource for speakers and educators.

**The Transatlantic Indian, 1776-1930** Kate Flint,2020-06-09 This book takes a fascinating look at the iconic figure of the Native American in the British cultural imagination from the Revolutionary War to the early twentieth century, and examining how Native Americans regarded the British, as well as how they challenged their own cultural image in Britain during this period. Kate Flint shows how the image of the Indian was used in English literature and culture for a host of ideological purposes, and she reveals its crucial role as symbol, cultural myth, and stereotype that helped to define British identity and its attitude toward the colonial world. Through close readings of writers such as Charles Dickens, Elizabeth Gaskell, and D. H. Lawrence, Flint traces how the figure of the Indian was received, represented, and transformed in British fiction and poetry, travelogues, sketches, and journalism, as well as theater, paintings, and cinema. She describes the

experiences of the Ojibwa and Ioway who toured Britain with George Catlin in the 1840s; the testimonies of the Indians in Buffalo Bill's Wild West Show; and the performances and polemics of the Iroquois poet Pauline Johnson in London. Flint explores transatlantic conceptions of race, the role of gender in writings by and about Indians, and the complex political and economic relationships between Britain and America. *The Transatlantic Indian, 1776-1930* argues that native perspectives are essential to our understanding of transatlantic relations in this period and the development of transnational modernity.

Missions of Interdependence, 2021-11-01 At the beginning of the twenty-first century it is necessary to combine into a productive programme the striving for individual emancipation and the social practice of humanism, in order to help the world survive both the ancient pitfalls of particularist terrorism and the levelling tendencies of cultural indifference engendered by the renewed imperialist arrogance of hegemonial global capital. In this book, thirty-five scholars address and negotiate, in a spirit of learning and understanding, an exemplary variety of intercultural splits and fissures that have opened up in the English-speaking world. Their methodology can be seen to constitute a seminal field of intellectual signposts. They point out ways and means of responsibly assessing colonial predicaments and postcolonial developments in six regions shaped in the past by the British Empire and still associated today through their allegiance to the idea of a Commonwealth of Nations. They show how a new ethic of literary self-assertion, interpretative mediation and critical responsiveness can remove the deeply ingrained prejudices, silences and taboos established by discrimination against race, class and gender.

**Engendering Transnational Transgressions** Eileen Boris, Sandra Trudgen Dawson, Barbara Molony, 2020-11-23 *Engendering Transnational Transgressions* reclaims the transgressive side of feminist history, challenging hegemonic norms and the power of patriarchies. Through the lenses of intersectionality, gender analysis, and transnational feminist theory, it addresses the political in public and intimate spaces. The book begins by highlighting the transgressive nature of feminist historiography. It then divides into two parts—Part I, *Intimate Transgressions: Marriage and Sexuality*, examines marriage and divorce as viewed through a transnational lens, and Part II, *Global Transgressions: Networking for Justice and Peace*, considers political and social violence as well as struggles for relief, redemption, and change by transnational networks of women. Chapters are archivally grounded and take a critical approach that underscores the local in the global and the significance of intersectional factors within the intimate. They bring into conversation literatures too often separated: history of feminisms and anti-war, anti-imperial/anti-fascist, and related movements, on the one hand, and studies of gender crossings, marriage reconstitution, and affect and subjectivities, on the other. In so doing, the book encourages the reader to rethink standard interpretations of rights, equality, and recognition. This is the ideal volume for students and scholars of Women's and Gender History and Women's and Gender Studies, as well as International, Transnational, and Global History, History of Social Movements, and related specialized topics.

English and Indian Literature R.W. Desai, Christel R. Devadawson, Rajiva Verma, 2025-05-01 Written in the memory of Professor G.K. Das and divided into three sections, this book takes on special significance as India reflects on the ever-changing prospects ahead of the first seventy-five years of independence. The subject matter in this book outlines the relationship between texts and the larger cultural context that they shape (and that, in turn, shapes them). It also presents a comparison of the relationship between events and the written word, or between lines of inquiry and the various kinds of writing that articulate them. The first section discusses British and Indian writers of the precolonial and colonial periods. The essays in the second section reflect on the question: Does the emergent nation-state seem at all like the visions that presaged it, or does it increasingly resemble the imperialistic nightmare that it seeks to replace? Finally, the last section explores the relationship between literature and human nature and also discusses the framing discourse on literature and the environment. The collection closes with a previously unpublished essay by Professor Das that brings to the forefront one of the most urgent global issues of today - the troubling relationship between humanity and an ecologically fragile environment within which it functions. Challenges Confronting American Indian Youth United States. Congress. Senate. Committee on Indian Affairs (1993-), 1995 The Senate Committee on Indian Affairs received testimony from American Indian youth about the problems confronting Indian young people on reservations and in urban areas and about their own personal experiences with such problems. Witnesses included college and high school students representing various youth councils and youth organizations at a conference of United National Indian Tribal Youth (UNITY). Statements were also received from senators and from representatives of philanthropic foundations that provide funding to Indian youth programs. Included in the testimony and written statements are the following topics: (1) the efforts of tribal youth councils to involve young people in educational and

cultural activities and activities helpful to their communities; (2) high rates of alcohol abuse and unemployment among Native Americans; (3) the need for Native American students attending public schools to be taught about their languages, cultures, and history; (4) the need for an American Indian university providing a full range of graduate degrees; (5) the importance of strong cultural identity and spirituality in preventing social problems and individual despair; (6) community programs to fight alcohol and drug abuse; (7) the involvement of urban Indian youth in gang violence; (8) the importance of positive role models for Indian youth; (9) water rights and traditional natural resources; (10) teen pregnancy; (11) the national youth agenda developed by UNITY; (12) youth leadership development programs, such as Running Strong for American Indian Youth; (13) programs for Native American children and youth funded by the W. K. Kellogg Foundation and the Carnegie Corporation; and (14) juvenile justice needs. (SV)

**21st Century Perspectives on Indian Writing in English** Debasish Lahiri, Pradipta Mukherjee, 2022-12-05 The essays gathered here alternately adjust the focal length of the critical lens brought to bear upon texts and contexts in the area of Indian writing in English. They bring into view both intense engagements with major voices in this literary scene and the wider socio-historical perspectives in which they have thrived. Three clearly defined sections on the genres of poetry, prose, and drama are augmented by three incisive interviews with the diasporic Indian English poet Bashabi Fraser, the renowned Indian English fiction writer Kunal Basu, and the premier Indian English playwright Mahesh Dattani. The volume will appeal to students and teachers of postcolonial and comparative literatures. It raises crucial and timely questions about the state of culture in India and the world, the crisis of intolerance, and the loss of memory and diversity. It hones a post-millennial perspective on literature written in the late 20th and early 21st centuries.

**Otherwise Worlds** Tiffany Lethabo King, Jenell Navarro, Andrea Smith, 2020-05-18 The contributors to *Otherwise Worlds* investigate the complex relationships between settler colonialism and anti-Blackness to explore the political possibilities that emerge from such inquiries. Pointing out that presumptions of solidarity, antagonism, or incommensurability between Black and Native communities are insufficient to understand the relationships between the groups, the volume's scholars, artists, and activists look to articulate new modes of living and organizing in the service of creating new futures. Among other topics, they examine the ontological status of Blackness and Indigeneity, possible forms of relationality between Black and Native communities, perspectives on Black and Indigenous sociality, and freeing the flesh from the constraints of violence and settler colonialism. Throughout the volume's essays, art, and interviews, the contributors carefully attend to alternative kinds of relationships between Black and Native communities that can lead toward liberation. In so doing, they critically point to the importance of Black and Indigenous conversations for formulating otherwise worlds. Contributors Maile Arvin, Marcus Briggs-Cloud, J. Kameron Carter, Ashon Crawley, Denise Ferreira da Silva, Chris Finley, Hotvlkuce Harjo, Sandra Harvey,

Development of Capitalistic Enterprise in India Daniel Houston Buchanan,2013-11-26 First Published in 1966. Any person who resides in any one of the principal oriental countries is bound to stimulate a western mind to consider the differences between his own and eastern civilizations, and the reasons for these differences. During a dozen years as an economist in Japan, India and China, a number of conclusions which the author first formed tentatively have gradually become convictions. One of these is that if economic forces play the important part in western countries which most thoughtful people attribute to them, they must be even more important in the Orient, because of the greater pressure of population upon the natural resources in those countries. A second is that many of the striking differences between occidental and oriental cultures are adaptations of the same human clay to differing economic conditions. Since the opening and settlement of the New World, the West has been pressed in a new mould, leaving the East of to-day in a medieval cast. A third is that detailed studies of the evolutionary movements now in process in several eastern countries would throw very useful light upon the origins and nature of the competitive system which has characterized the modern economic history of the West. This volume fills the need for fuller understanding of India's economic changes, especially those having to do with the growth of capitalistic enterprise, led the government of India to institute a remarkable series of investigations into several aspects of Indian life.
