Quotes from a Wise Fool William Frasca, 2024-01-17 During my life, seldom did I accept things at face value, so I was always trying to understand why myself and others did the things we did. For the happy and enjoyable days of my life, that were few and far between. I didn't find the need to expand the search for what caused those events to transpire; on the days where I was challenged and found myself in over my head yet again, I dug deeper to help me find out why I acted poorly or

why my choices were not the most popular ones in the history of the world. The early part of my life left quite a bit to be desired and along with a poor beginning came many poor choices that made me unpopular, but they did create excitement for the viewing audience. Struggling to fit in and being misunderstood are kind of my thing, and those decisions that made others view me as hostile and sometimes unwanted were captured in a series of private thoughts that were both put to paper and others that needed no documentation because they ran on a constant loop through my cavernous mind and gave me a constant reminder of how unpopular one man can become with hardly any effort. How complete my examination on my past is not for me to decide. I will leave that to the reader, but I can 100 percent guarantee that this information is factual and, at times, for me, more than a little heartbreaking. This is not an attempt for sympathy, that dream was crushed in my first few years of life, waiting for a kind word or a much-needed hug as a child were things I saw in movies but not in my home. I hope that I have made my vision of these times interesting enough so that you have enjoyed the experience of reading this book enough for it to be worthy of your time. Each of these ideas of mine are shared as quotes and explained in very plain terms, and on occasion, the pain of spending a lifetime of being judged harshly by those who have helped craft this person who has fallen from grace.

2000 Titbits & Satires M.S.Choubey,1999-07 This book is a treasure-trove of 2,000 witty and humorous statements on different aspects of daily life. What makes this book the only one of its kind in the world, though, is the fact that each of these titbits begins with the word - IF. In the book the author has made amusing, amazing and significant comments on 351 different aspects of human life. As you read through the book, the author's comments will, in turns, make you grin, guffaw, smirk and laugh. With the witty statements arranged in alphabetical order, there will never be a dull moment as you breeze through these pages.

Ineptitude, Conformity, and Obfuscation Richard J. Giordano,2019-02-08 This book tells the story of teacher evaluation from the perspective of a high school principal, one who has been an active participant in the process. Teacher evaluation is a fraud and this book explains why and how it can be fixed. This book begins with a historical perspective, followed by a description of what is wrong with the currently applied process. It ends with suggestions for making the process workable and productive.
