The Gift of Story John Schu, 2023-10-10 With the rise of teacher stressors, new and changing state standards, and high-stakes testing, it is more important than ever to remind literacy teachers and teacher-librarians about the reason that brought them to this profession: the love of story. *The Gift of Story: Exploring the Affective Side of the Reading Life*, by John Schu (affectionately known as Mr. Schu all over reading communities), invites readers to consider literacy beyond its academic benefits and explore how universal truths found in stories can change us, inspire us, connect us to others, answer our deepest questions, and even help us heal along the way. Using his experience as a teacher, librarian, book lover, and story ambassador, Mr. Schu asks readers to reflect on what it means to share their hearts through stories and how it can connect us to individuals and learning communities. *The Gift of Story* is presented through a study of five affective elements: Healer, Inspiration, Clarifier, Compassion, and Connector. Along the way, readers will encounter insightful contributions from educators, children's writers, and illustrators, as well as recommendations for sharing the gift of story with learning communities including: treasured book suggestions that stir reflection, engaging tips for celebrating literacy, and heart-growing applications to lift classroom and library practices. Celebrate the way we define and imagine ourselves through literacy by using stories to connect to others, build and strengthen community, and honor the children we were called to teach.

Emergency Preparedness and Disaster Recovery in School Libraries Christie Kaaland, William Lokey, 2014-12-16 When disaster strikes, school librarians can play a key role in keeping kids safe. This is the only book written specifically to provide school librarians with emergency preparedness and recovery tools as well as curricular tie-ins. No school is immune to disaster, whether in the form of a natural event like a tornado or a tragedy like the violence that occurred at Sandy Hook Elementary School. The key to minimizing injury or death in an emergency is preparedness—something the school librarian is uniquely positioned to lead. This must-have book will show you how to be proactive in getting your school ready for the worst. It provides comprehensive preparedness and recovery plans, check lists, and curricular recommendations on

preparedness that can be tailored to your individual library and community. Covering natural disasters, human-made disasters, and school violence, the book shows you how to conduct drills, assess vulnerabilities and risk, communicate preparedness plans, and use bibliotherapy for disaster recovery. It also describes how your library can be a safe haven for students who feel disconnected, bullied, or otherwise disenfranchised. Although the book is primarily intended for school librarians, classroom teachers will also find many ideas here for helping students be better prepared for disasters, whatever their cause or severity.

Reading the World's Stories Annette Y. Goldsmith, Theo Heras, Susan Corapi, 2016-08-11 Reading the World's Stories is volume 5 in the Bridges to Understanding series of annotated international youth literature bibliographies sponsored by the United States Board on Books for Young People. USBBY is the United States chapter of the International Board on Books for Young People (IBBY), a Switzerland-based nonprofit whose mission is bring books and children together. The series promotes sharing international children's books as a way to facilitate intercultural understanding and meet new literary voices. This volume follows Children's Books from Other Countries (1998), The World through Children's Books (2002), Crossing Boundaries with Children's Books (2006), and Bridges to Understanding: Envisioning the World through Children's Books (2011) and acts as a companion book to the earlier titles. Centered around the theme of the importance of stories, the guide is a resource for discovering more recent global books that fit many reading tastes and educational needs for readers aged 0-18 years. Essays by storyteller Anne Pellowski, author Beverley Naidoo, and academic Marianne Martens offer a variety of perspectives on international youth literature. This latest installment in the series covers books published from 2010-2014 and includes English-language imports as well as translations of children's and young adult literature first published outside of the United States. These books are supplemented by a smaller number of culturally appropriate books from the US to help fill in gaps from underrepresented countries. The organization of the guide is geographic by region and country. All of the more than 800 entries are recommended, and many of the books have won awards or achieved other recognition in their

home countries. Forty children's book experts wrote the annotations. The entries are indexed by author, translator, illustrator, title, and subject. Back matter also includes international book awards, important organizations and research collections, and a selected directory of publishers known for publishing books from other countries.

Reading Power, Revised & Expanded Edition Adrienne Gear, 2015-10-06 Ten years ago, Reading Power was launched in an elementary school in Vancouver. It has since evolved into a recognized approach to comprehension instruction being implemented across Canada, in the United States, United Kingdom, Sweden, and China. This ground-breaking approach showed teachers how to help students think while they read — connect, question, visualize, infer, and transform. Since the publication of the first edition of Reading Power, Adrienne Gear has continued to reflect on and refine her ideas about metacognition, comprehension instruction, and the Reading Power strategies. This revised and expanded edition shares these new understandings, and offers teachers new ideas, new lessons, and, of course, new anchor books to support the Reading Power principles. An ideal resource for teachers familiar to this strategic approach to teaching reading, or for those looking

for new ways to connect thinking with reading.

School Crisis Response Jeffrey C. Roth, 2022-10-14 School Crisis Response introduces a unique educational approach that provides compelling scenarios for the development of school crisis responders. There are many books describing the how-to of school crisis response, but few describe the thoughts and emotions to help guide the application of skills learned. This book provides narratives about traumatic events to supplement concepts with lessons from actual crises. The author documents the perspective of a team leader, vividly illustrating real events to confront the challenges, decisions, and problem-solving demanded to effectively stabilize emotional reactions, ameliorate trauma, and support resilience and recovery. While encouraging reflection, educating, and strengthening new and experienced responders, this book celebrates the vital work of school psychologists, counselors, administrators, teachers, social workers, and nurses who provide extraordinary service under the most difficult circumstances. It combines an intellectual, evidence-based in the head understanding of how to do crisis response with an emotional, empathetic in the heart understanding of how it feels to do it.
