Christina Gieseler

Their Eyes Were Watching God Zora Neale Hurston, 1991 Janie Crawford, a Southern Black woman in the 1930's, journeys from being a free-spirited girl to a woman of independence and substance.

Zora Neale Hurston's Their Eyes Were Watching God Cheryl A. Wall, 2000 The rediscovery of Zora Neale Hurston's *Their Eyes Were Watching God*, first published in 1937 but subsequently out-of-print for decades, marks one of the most dramatic chapters in African-American literature and Women's Studies. Its popularity owes much to the lyricism of the prose, the pitch-perfect rendition of black vernacular English, and the memorable characters--most notably, Janie Crawford. Collecting the most widely cited and influential essays published on Hurston's classic novel over the last quarter century, this Casebook presents contesting viewpoints by Hazel Carby, Henry Louis Gates, Jr., Barbara Johnson, Carla Kaplan, Daphne Lamothe, Mary Helen Washington, and Sherley Anne Williams. The volume also includes a statement Hurston submitted to a reference book on twentieth-century authors in 1942. As it records the major debates the novel has sparked on issues of language and identity, feminism and racial politics, *A Casebook* affirms the classic status of the novel and charts new directions for future critics.

Zora Neale Hurston's Their Eyes Were Watching God Harold Bloom, 2008 Critics have suggested that Zora Neale Hurston's *Their Eyes Were Watching God* has helped revise a male-dominated literary canon. All-new critical essays touch on subjects such as sight and vision, speech and dialect, and the ways the novel subverts traditional power structures, and more.

New Essays on Their Eyes Were Watching God Michael Awkward, 1990 An analysis of the literary values of Hurston's novel, as well as its reception--from largely dismissive reviews in 1937, through a revival of interest in the 1960s and its recent establishment as a major American novel.

Analysis and Assessment, 1980-1994 Cary D. Wintz, 1996 Twenty-nine collected essays represent a critical history of Shakespeare's play as text and as theater, beginning with Samuel Johnson in 1765, and ending with a review of the Royal Shakespeare Company production in 1991. The criticism centers on three aspects of the play: the love/friendship debate.

No Man's Land Sandra M. Gilbert, Susan Gubar, 1996-02-21 How do writers and their readers imagine the future in a turbulent time of sex war and sex change? And how have transformations of gender and genre affected literary representations of woman, man, family, and society? This final volume in Gilbert and Gubar's landmark three-part *No Man's Land: The Place of the Woman Writer in the Twentieth Century* argues that throughout the twentieth century women of letters have found themselves on a confusing cultural front and that most, increasingly aware of the artifice of gender, have dispatched missives recording some form of the future shock associated with profound changes in the roles and rules governing sexuality. Divided into two parts, *Letters from the Front* is chronological in organization, with the first section focusing on such writers of the modernist period as Virginia Woolf, Zora Neale Hurston, Edna St. Vincent Millay, Marianne Moore, and H.D., and the second devoted to authors who came to prominence after the Second World War, including Gwendolyn Brooks, Sylvia Plath, Margaret Atwood, Toni Morrison, and A.S. Byatt. Embroiled in the sex antagonism that Gilbert and Gubar traced in *The War of the Words* and in the sexual experimentations that they studied in *Sexchanges*, all these artists struggled to envision the inscription of hitherto untold stories on what H.D. called the blank pages/of the unwritten volume of the new. Through the works of the first group, Gilbert and Gubar focus in particular on the demise of any single normative definition of the feminine and the rise of masquerades of femininity amounting to female impersonation. In the writings of the second group, the critics pay special attention to proliferating revisions of the family romance--revisions significantly inflected by differences in race, class, and ethnicity--and to the rise of masquerades of masculinity, or male impersonation. Throughout, Gilbert and Gubar discuss the impact on literature of such crucial historical events as the Harlem Renaissance, the Second World War, and the sexual revolution of the sixties. What kind of future might such a past engender? Their book concludes with a fantasia on *The Further Adventures of Snow White* in which

their bravura retellings of the Grimm fairy tale illustrate ways in which future writing about gender might develop.

Haunted Bodies Anne Goodwyn Jones,Susan Van D'Elden Donaldson,1997 In *Haunted Bodies*, Anne Goodwyn Jones and Susan V. Donaldson have brought together some of our most highly regarded southern historians and literary critics to consider race, gender, and texts through three centuries and from a wealth of vantage points. Works as diverse as eighteenth-century court petitions and lyrics of 1970s rock music demonstrate how definitions of southern masculinity and femininity have been subject to bewildering shifts and disabling contradictions for centuries.

Crossroads Modernism Edward Michael Pavlić,2002 *Crossroads Modernism* provides an in-depth look at how West African cultural legacies are brought to bear in the structure of a truly African American modernist creative process. Whereas much has been said about the (generally racist) use of blackness in constituting modernism, *Crossroads Modernism* is the first book to expose the key role that modernism has played in the constitution of blackness in African American aesthetics. --Publisher.

The Man who Adores the Negro Patrick B. Mullen, 2008 The challenges of interracial fieldwork

New Trends in Liberal and Social Sciences Andreea Stoian Karadeli, 2017-01-09 The specialist, as we know it in the modern age, is a creation of modernity. Up until the modern age, scholars were known for their expertise in multiple areas. From Avicenna (Ibn-i Sina) and Hezarfen Ahmet Celebi to Leonardo da Vinci and Galileo, many medieval, Renaissance, and Enlightenment scholars were polymaths, mastering knowledge from several fields. The needs of the modern age created specialists focusing deeply on one field. At the convergence of postmodernism and the age of the Internet, social, cultural, and economic realities of increasingly diverse societies have created a new need for the revival of the polymath. Emerging globalization post-Cold War triggered rapid social change that cannot be explained from the perspective of a single discipline. This reality has recently increased the interest in interdisciplinary studies but established academic work that is focused on single disciplines still dominates the academic world and it offers limited opportunities for the publication of interdisciplinary studies. One of the aims of this book is to become one example for interdisciplinary work. It also aims to prepare the ground for the cultivation of scholars that can specialize in more areas on the long term. This book is made out of sixteen articles that bring together different disciplines such as educational sciences, law, linguistics, economics, culture, and sports. All articles passed the referee process. Bearing in mind that the book is the result of a multidisciplinary work, the respect towards each discipline is shown by leaving the referencing and methodology according to the common usage of the relevant discipline. Therefore, some authors have used the Chicago Manual of Style within their articles while others have used the APA system.

A Comparison of the African-American Presence in an Earlier and Later American History Textbook Cora Lee Upshur-Ransome, 2000 A Comparison of the African-American Presence in an Earlier and Later American History Textbook

In the African-American Grain John F. Callahan, 2001 In the African-American Grain is a powerful exploration of the impact of African-American oral storytelling techniques on modern and contemporary fiction. Reading literature in the call-and-response tradition, John F. Callahan shows how African-American writers including Charles Chesnutt, Jean Toomer, Zora Neale Hurston, Ralph Ellison, Ernest Gaines, and Alice Walker have used the forms and forces of this uniquely participatory discourse to establish not only a potential relationship between storyteller and audience but also a potential for change. In a new preface Callahan comments on how the tradition of call-and-response has continued to develop among African-American writers as well as writers of other backgrounds.
