Surveying the histories, peoples, and cultures of numerous Asian American ethnic and cultural groups, the work covers everything from ancient Asian folklore, folktales, and folk practices that have been transmitted and transformed in America to new expressions of Asian American folklore and folktales unique to the Asian American historical and contemporary experiences. The encyclopedia's three comprehensive volumes cover an extraordinarily wide range of Asian American cultural and ethnic groups, as well as mixed-race and mixed-heritage Asian Americans. Each group section is introduced by a historical overview essay followed by short entries on topics such as ghosts and spirits, clothes and jewelry, arts and crafts, home decorations, family and community, religious practices, rituals, holidays, music, foodways, literature, traditional healing and medicine, and much, much more. Topics and theories are examined from crosscultural and interdisciplinary perspectives to add to the value of the work.

Fashioning the Self: Identity and Style in British Culture Emily Priscott, 2023-06-06 'Fashioning the Self: Identity and Style in British Culture' offers an eclectic approach to contemporary fashion studies. Taking a broad definition of British culture, this collection of essays explores the significance of style to issues such as colonialism, race, gender and class, embracing topics as diverse as eighteenth-century portraiture, literary dress culture and Edwardian working-class glamour. Examining the emblematic power of garments themselves and the context in which they are styled, this work interrogates the ways that personal style can itself decontextualize garments to radically reframe their meanings. Using an intentionally eclectic range of subjects from an interdisciplinary perspective, this collection builds on the work of theorists such as Aileen Ribeiro, Vika Martina Plock, Cheryl Buckley and Hilary Fawcett, to examine the social significance of personal style, while also highlighting the diversity of British culture itself.

Devas, Demons and Buddhist Cosmology in Sri Lanka Achala Gunasekara-Rockwell, 2022-08-19 This book examines the worship of devas and demons in Sri Lanka, illustrating how diverse influences interacted to create the Sinhala Buddhist cosmology. The work explains the processes by which apotheosis plays an important role in revitalizing that cosmology. The author offers an examination of holy sites associated with the worship of Hūṇiyam. These sacred spaces each have a unique background historically, and the ritualists associated with these sites have divergent understandings concerning Hūṇiyam. Building upon the examination of the temples, the book delves into the iconography of Hūṇiyam, illustrating his transformation from demon to deity in the manner that he is depicted in imagery associated with his worship. The book moves to a discussion of Aritṭa Kivenḍu Perumāl, a South Indian adventurer, demonstrating the likelihood that he is the historical figure later apotheosized as Hūṇiyam. Sri Lankan society felt his impact so strongly that in death he became a

demon in the Sinhala Buddhist cosmology. Finally, the book demonstrates that the same apotheosis processes are at work today. This book will be of interest to researchers and students engaged in the study of religion, anthropology, folklore, and history, specifically in the South Asian context.

Building on Batik Michael Hitchcock, Wiendu Nuryanti, 2016-12-05 The word 'batik' is possibly of Malay origin from the word 'tik' meaning 'to drip' or 'to drop.' The term is applied to a resist dye technique invented independently in locations as diverse as Ancient Egypt, Japan and Turkestan. Batik is a remarkably flexible textile technique and is suited to small-scale methods of production, but demand from the fashion and tourism industries is increasing. This volume brings together the experiences and concerns of the international community of batik producers. It gives voice to their suggestions for ensuring that the producers of this traditional craft are integrated into its increasingly global production rather than excluded from it. Building on the work of batik designers and producers the book discusses the emergence of a global craft consciousness. Batik producers report on innovative measures taken both individually and collectively to hold their market position while commercial producers frequently annex and mass-produce traditional batik design. The book concludes with a discussion of marketing and production innovations and tourism which enable the producers of batik to maintain the integrity of their designs whilst harnessing the benefits of new commercial forms.
