Reflections on Pope Francis's Encyclical, Laudato si' John Arthur Orr, Harry Schnitker, Mary Mills SHCJ, 2020-05-15 This volume represents a collection of essays by emerging and well-established Catholic scholars on Laudato si', Pope Francis's encyclical on the environment. All contributors are connected with the Maryvale Institute in Birmingham, the only Vatican approved Higher Institute of Religious Sciences in the English-speaking world. When it appeared, Laudato si' was widely welcomed by many, and strongly criticised by others. All agreed that the encyclical was an important voice in the environmental debate. As this book suggests, however, Laudato si' is more than an encyclical on the environment: it is a thorough examination of the human condition in the early twenty-first century. Essays in this volume focus on the philosophical, textual, ecological, anthropological and theological aspects of Laudato si', place it in a specific history of ideas, and contemplate its meaning for the modern world. Laudato si' has been widely discussed in religious and secular circles alike, and this book will enhance the understanding of the text for both.

A Long Silence Sabina De Werth Neu, 2011-02-28 After more than sixty years, the nightmarish sufferings of so many victims of Germany's Nazi regime have been documented extensively. Rarely, however, does one hear about the experiences of German children during World War II. Coming of age amidst the chaos, brutality, and destruction of war in their homeland, they had no understanding of what was happening around them and often suffered severe trauma and physical abuse. This haunting memoir tells the riveting story of one such German child. Born in Berlin in 1941, Sabina de Werth Neu knew little during her earliest years except the hardships and fear of a war refugee. She and her two sisters and mother were often on the run and sometimes homeless in the bombed-out cities of wartime Germany. At times they lived in near-starvation conditions. And as the Allies stormed through the crumbling German defenses, the mother and children were raped and beaten by marauding Russian soldiers. After the war, like so many Germans, they wrapped themselves in a cloak of deafening silence about their recent national and personal history, determined to forget the past. The result was that Sabina spent much of her time wrestling with shame and bouts of crippling depression. Finally, after decades of silence, she could no longer suppress the memories and began reconstructing her young life by writing down what had previously seemed

unspeakable. Illustrated by vintage black-and-white family photographs, the book is filled with poignant scenes: her abused but courageous mother desperately trying to protect her children through the worst, the sickening horror of viewing Holocaust footage on newsreels shortly after the war, the welcome sight of American troops bringing hot meals to local schools, and the glimmer of hope finally offered by the Marshall Plan, which the author feels was crucial to her own survival and that of Germany as a whole. This book not only recalls the experiences of a now-distant war, but also brings to mind the disrupting realities of present-day refugee children. There is perhaps no more damning indictment of war than to read about its effects on children, its helpless victims.

Lieder Line by Line, and Word for Word Lois Phillips, 1996 German song in the nineteenth century offers some of the greatest pleasures available to the singer, pianist, and listener. The great German poets - Goethe, Schiller, Rückert, Eichendorff, Heine, Mörike, Hesse, and many lesser figures - inspired such perennial masterpieces as Schubert's song cycles *Die Schöne Müllerin* and *Winterreise*, Schumann's *Dichterliebe*, and Mahler's *Die Kindertotenlieder*. This book provides the German texts of the most frequently studied and performed songs, and gives literal, word-for-word translations under each line, plus clear English prose versions of each poem. Neither is a singing version, but each contributes to the understanding and appreciation of the song. The composers represented are Beethoven, Schubert, Schumann, Wagner, Brahms, Wolf, Mahler, and Richard Strauss. This new edition includes numerous corrections and improvements to the translations.

Word-by-word Translations of Songs and Arias Berton Coffin, Pierre Delattre, Werner Singer, 1966

Burgenland David Joseph, 2023-05-15 A dazzling multi-generational examination exploring Jewishness in Europe, the Holocaust and the dark spectres of anti-Semitism and populism.

Word-By-Word Translations of Songs and Arias, Part I Berton Coffin, Werner Singer, Pierre Delattre, 1994-03-01 This classic text first published in 1966 has withstood the test of time as a teaching aid for English-speaking singers, coaches, and accompanists, in order that their art may be more communicative to the public. This word-by-word translation allows the artist to properly interpret and express the feelings and emotions that the words require at the proper time.

The Book of Lieder Ian Bostridge, Richard Stokes, 2011-03-03 This unique volume contains, in parallel translation, a thousand of the most frequently performed Lieder, both piano-accompanied and orchestral. Composers are arranged alphabetically, with their songs appearing under poet in chronological order of composition - thus allowing the reader to engage in depth with a particular poet and at the same time to follow the composer's development. Richard Stokes, whose work in this field is already widely acclaimed, provides illuminating short essays on each of the fifty composers' approach to Lieder composition, as well as well as notes on all the poets who inspired the songs. The volume is notable for the accuracy

and elegance of its translations, and for its fidelity to the German verse: every care has been taken to print the words of the sung text, while adhering to the versification and punctuation of the original poem. Beethoven, Schubert and Schumann, Goethe, Heine and Schiller are among the highlights of a book which illuminates one of the great musical traditions and will be an indispensable handbook for every music lover.

The Song Index of the Enoch Pratt Free Library Ellen Luchinsky, 2020-12-23 The Song Index features over 150,000 citations that lead users to over 2,100 song books spanning more than a century, from the 1880s to the 1990s. Representing Scotland in Literature, Popular Culture and Iconography A. Riach, 2004-12-10 This fascinating new study is about cultural change and continuities. At the core of the book are discrete literary studies of Scotland and Shakespeare, Walter Scott, R.L. Stevenson, Arthur Conan Doyle, the modern Scottish Renaissance of the 1920s and more recent cultural and literary phenomena. The central theme of literature and popular 'representation' recontextualises literary analysis in a broader, multi-faceted picture involving all the arts and the changing sense of what 'the popular' might be in a modern nation. New technologies alter forms of cultural production and the book charts a way through these forms, from oral poetry and song to the novel, and includes studies of paintings, classical music, socialist drama, TV, film and comic books. The international context for mass media cultural production is examined as the story of the intrinsic curiosity of the imagination and the intensely local aspect of Scotland's cultural self-representation unfolds.

bestselling Song: A Guide to Art Song Style and Literature . Matter of North Brent Wetters, Anthony Cushing, 2025-07-01 Documents and illuminates Glenn Gould's groundbreaking radio composition, The Idea of North. Matter of North collects essays and source material related to Glenn Gould's landmark 1967 radio documentary The Idea of North. The most famous product (other than his studio piano recordings) of Gould's 1964 decision to abandon the concert stage for the recording studio, it combines Gould's interests in the contrapuntal (by the simultaneous layering of speaking voices) with philosophy and a life-long fascination with the Canadian Arctic. Because the documentary is a multivalent work, the contributors approach the documentary from unique perspectives (sociological, philosophical, music-theoretical, ethnomusicological), each illuminating a salient aspect of the work. The source-material section includes for the first time the complete interview responses by Gould's five participants, along with other important documentation.
