Warren Hoffman

The Great White Way Warren Hoffman, 2014-02-18 Broadway musicals are one of America's most beloved art forms and play to millions of people each year. But what do these shows, which are often thought to be just frothy entertainment, really have to say about our country and who we are as a nation? *The Great White Way* is the first book to reveal the racial politics, content, and subtexts that have haunted musicals for almost one hundred years from *Show Boat* (1927) to *The Scottsboro Boys* (2011). Musical mirror their time periods and reflect the political and social issues of their day. Warren Hoffman investigates the thematic content of the Broadway musical and considers how musicals work on a structural level, allowing them to simultaneously present and hide their racial agendas in plain view of their audiences. While the musical is informed by the cultural contributions of African Americans and Jewish immigrants, Hoffman argues that ultimately the history of the American musical is the history of white identity in the United States. Presented chronologically, *The Great White Way* shows how perceptions of race altered over time and how musicals dealt with those changes. Hoffman focuses first on shows leading up to and comprising the Golden Age of Broadway (1927-1960s), then turns his attention to the revivals and nostalgic vehicles that defined the final quarter of the twentieth century. He offers entirely new and surprising takes on shows from the American musical canon—*Show Boat* (1927), *Oklahoma!* (1943), *Annie Get Your Gun* (1946), *The Music Man* (1957), *West Side Story* (1957), *A Chorus Line* (1975), and *42nd Street* (1980), among others. New archival research on the creators who produced and wrote these shows, including Leonard Bernstein, Jerome Robbins, Stephen Sondheim, and Edward Kleban, will have theater fans and scholars rethinking forever how they view this popular American entertainment.

WHY DO HUMANS WORSHIP GODS? Wilberforce Reid, 2024-02-12 According to United Nations statistics, 25,000 men, women, and innocent children worldwide die from starvation each day, yet the majority of us give praises and thanks to God every day for providing us with our daily bread. We do know (or should know) that millions of people were killed, including being burned at the stakes, because they did not conform to the official doctrine of the Christian Church. In spite of this, each day we sing about how loving and merciful God is to mankind. In the creation of our conscious mind, are we more susceptible to indoctrination than to logical and objective analysis of a subject? By exposing stories swept under the rug because of our unconscious bias, this book will uncover many uncomfortable truths.

Introduction to Mali Gilad James, PhD, Mali is a landlocked country in West Africa, bordered by Niger to the east,

Burkina Faso to the south-east, Côte d'Ivoire to the south, Guinea to the south-west, Senegal to the west, and Mauritania to the north and north-west. The country has a rich cultural history, with evidence of human settlement as far back as 10,000 BC. From the ancient Malian Empire of the 13th and 14th centuries to the present-day challenges of political instability, Mali has experienced significant changes over time. Today, Mali remains one of the least developed countries in the world, with high poverty rates, food insecurity, and limited access to education and healthcare. Despite these challenges, Mali is rich in natural resources, including gold, and has potential for economic growth and development. As a former French colony, French is the official language of Mali, but many people also speak the regional languages of Bambara, Songhai, and Tamashek. Islam is the dominant religion in Mali, though there are also significant Christian and traditional animist populations. Mali is home to several important cultural sites, including the ancient city of Timbuktu and the Dogon people, known for their unique architecture and spiritual practices. Mali also has a strong tradition of music and dance, with the griot tradition of oral storytelling and praise singing being an important part of the country's cultural heritage.

World Heritage Simon C. Woodward, Louise Cooke, 2022-11-09 World Heritage: Concepts, Management and Conservation presents an insight into discussions and debates surrounding the UNESCO World Heritage List, and the properties on it. Since its creation 50 years ago, the World Heritage Convention has been lauded as one of the most successful international expressions of cooperation, whilst at the same time being widely criticised as producing an overly commercialised and globalised sense of heritage. Offering an in-depth discussion of both sides of the debate, this book explores these issues by discussing the following topics: • How the World Heritage Convention was conceived and how it is operationalised; • How the World Heritage concept is currently being used and misused; • The benefits of inscription - perceived and actual existential threats faced by World Heritage Site managers including climate change, urban development, overtourism, military action and natural disaster; • The future of World Heritage as an instrument for conservation and economic development. Case studies from a global range of World Heritage Sites are included throughout, to showcase some of the successes and also misuses of World Heritage status. This book will be of pivotal interest to students and scholars in the fields of tourism, heritage, archaeology, natural resource management and development studies.

Babel Unbound Lesley Cowling,Carolyn Hamilton,2020-05-01 In this timely, original and sophisticated collection, writers from the Global South demonstrate that forms of publicness are multiple, mobile and varied The notion that societies mediate issues through certain kinds of engagement is at the heart of imaginings of democracy and often centers on the ideal of the public sphere. But this imagined foundation of how we live collectively appears to have suffered a dramatic collapse across the world, with many democracies apparently unable to solve problems through talk - or even to agree on who speaks, in what ways and where. In the 10 essays in this timely, original and sophisticated collection, writers from southern Africa combine theoretical analysis with the examination of historical cases and contemporary developments to demonstrate that forms of publicness are multiple, mobile and varied. They propose new concepts and methodologies to analyse how public engagements work in society. *Babel Unbound* examines charged examples from the Global South, such as the centuries old Timbuktu archive, Nelson Mandela as a powerful absent presence in 1960s public life, and the challenges to the terms of contemporary debate around the student activism of #rhodesmustfall and #feesmustfall. These show how issues of public discussion span both archive and media, verbal debates in formal spaces and visual performances that circulate in unpredictable ways.

Cultural Sociology of the Middle East, Asia, and Africa Andrea L. Stanton,Edward Ramsamy,Peter J. Seybolt,Carolyn M. Elliott,2012-01-05 In our age of globalization and multiculturalism, it has never been more important for Americans to understand and appreciate foreign cultures and how people live, love, and learn in areas of the world unfamiliar to most U.S. students and the general public. The four volumes in our cultural sociology reference encyclopedia take a step forward in this endeavor by presenting concise information on those regions likely to be most foreign to U.S. students: the Middle East, Asia, and Africa. The intent is to convey what daily life is like for people in these selected regions. It is hoped entries within these volumes will aid readers in efforts to understand the importance of cultural sociology, to appreciate the effects of cultural forces around the world, and to learn the history of countries and cultures within these important regions.

Transformative Pastoral Leadership in the Black Church J. Tribble, 2005-07-04 Transformative Pastoral Leadership in the Black Church offers practical wisdom from comparative analysis of the experiences of a male pastor and a female

pastor in the Christian Methodist Episcopal Church. Church leaders must be transformed themselves as they are transforming their churches to serve their communities. From his research of the perspectives of laity, clergy, and scholars of the black church, Jeffery L. Tribble offers hopeful stories and helpful strategies for those who believe that the black church must continue its historic mission of being an instrument of survival, elevation, and liberation for its people. *Transformative Pastoral Leadership in the Black Church* is an important contribution to studies of black religion, womanist thought, and social justice.

Conceptualizing Copyright Exceptions in China and South Africa Jia Wang, 2018-03-01 This book critically evaluates the current copyright law system in a digital environment from a comparative perspective. Since many developing countries modelled their copyright laws on more advanced jurisdictions, they have not benefitted from such a law as much as intended due to their inherently embedded social economic conditions. Moreover, the copyright law system has been under constant challenges from rapidly developing digital technology and the Internet. All in all, there is a pressing need for developing countries to reevaluate their copyright law in light of their national needs, the developmental stage of their economy, their culture and tradition, and their legal system. The book poses the question of whether copyright law should be reformed to fulfill its fundamental purpose of serving education and research that are in the public interest in the digital era? It examines whether the legal frameworks adequately address developing countries' educational and research requirements in view of the opportunities and restrictions posed by electronic communication media. Further, it provides a comprehensive study that addresses the various critical issues relevant to the reform of the copyright law system and offers recommendations for developing countries to revamp their copyright law system to better serve their education and research sector.
