Handbook of Research on Fostering Social Justice Through Intercultural and Multilingual Communication Meletiadou, Eleni, 2022-09-01 Students taught with a social justice framework will ideally have a stronger sense of what is just and fair and choose careers and lifestyles that support their communities. Over time, students look at current and historical events—even their own actions—through the lens of social justice, promoting better decision-making. Building trust impacts the bottom line for global companies, and multilingual communication is a core pillar for effective growth. It is essential to promote this trust through social justice and educate learners on intercultural and multilingual communication. The Handbook of Research on Fostering Social Justice Through Intercultural and Multilingual Communication explores innovative teaching, learning, and assessment practices that foster social justice and enhance intercultural and multilingual communication in primary, secondary, post-secondary, and higher education. It demonstrates the value of adopting a social justice lens in education by broadening and strengthening the evidence base of the impact that this can make for students, educators, and society as a whole. Covering topics such as game-based assessment, social adaptation, and plurilingual classroom citizenship, this premier reference source is an excellent resource for educators and administrators of both K-12 and higher education, librarians, pre-service teachers, teacher educators, government officials, educational managers, linguists, researchers, and academicians.

Online Intercultural Exchange Robert O'Dowd, Tim Lewis, 2016-03-31 This volume provides a state of the art overview of Online Intercultural Exchange (OIE) in university education and demonstrates how educators can use OIE to address current challenges in university contexts such as internationalisation, virtual mobility and intercultural foreign language education. Since the 1990s, educators have been using virtual interaction to bring their classes into contact with geographically distant partner classes to create opportunities for authentic communication, meaningful collaboration and first-hand experience of working and learning with partners from other cultural backgrounds. Online exchange projects of

this nature can contribute to the development of learner autonomy, linguistic accuracy, intercultural awareness, intercultural skills and electronic literacies. Online Intercultural Exchange has now reached a stage where it is moving beyond individual classroom initiatives and is assuming a role as a major tool for internationalization, intercultural development and virtual mobility in universities around the globe. This volume reports qualitative and quantitative findings on the impact of OIE on universities in Europe and elsewhere and offers comprehensive guidance on using OIE at both pedagogical and technological levels. It provides theoretically-informed accounts of Online Intercultural Exchanges which will be relevant to researchers in Computer Assisted Language Learning, Computer-Mediated Communication, or Virtual Education. Finally, contributors offer a collection of practitioner-authored and practically-oriented case studies for the benefit of teachers of foreign languages or in other subject areas who wish to engage in developing the digital literacy and intercultural competences of their learners.

Intercultural Studies in Higher Education Ana Maria de Albuquerque Moreira, Jean-Jacques Paul, Nigel Bagnall, 2019-08-14 This book explores the study of policies and practices in Higher Education by comparing systems, institutions, programs, innovations, results and cultures. In a rapidly changing global and international marketplace, the growth of higher education has occurred within distinct cultural contexts, meaning that change is reflected within local, regional, national and global perspectives. Using a single data methodology across countries and continents, the editors and contributors explore higher education reforms between global and local dimensions, the expansion of access and democratisation, and relevant aspects in the organisation and management of higher education. In doing so, this book arrives at an understanding of higher education at a truly intercultural level, which can lead to a deeper and more holistic understanding of policies and practices in higher education. This innovative book will be of interest and value to students and scholars of higher education across the world as well as the study of interculturality.

Multilingual Brazil Marilda C. Cavalcanti, Terezinha M. Maher, 2017-09-22 This book brings together cutting edge work by Brazilian researchers on multilingualism in Brazil for an English-speaking readership in one comprehensive volume. Divided into five sections, each with its own introduction, tying together the themes of the book, the volume charts a course for a new sociolinguistics of multilingualism, challenging long-held perceptions about a monolingual Brazil by exploring the different policies, language resources, ideologies and social identities that have emerged in the country's contemporary multilingual landscape. The book elucidates the country's linguistic history to demonstrate its evolution to its present state, a country shaped by political, economic, and cultural forces both locally and globally, and explores different facets of today's multilingual Brazil, including youth on the margins and their cultural and linguistic practices; the educational challenges of socially marginalized groups; and minority groups' efforts to strengthen languages of identity and belonging. In addition to assembling linguistic research done in Brazil previously little known to an English-speaking readership, the book incorporates theoretical frameworks from other disciplines to provide a comprehensive picture of the social, political, and

cultural dynamics at play in multilingual Brazil. This volume is key reading for researchers in linguistic anthropology, sociolinguistics, applied linguistics, cultural studies, and Latin American studies.

Intercultural Approaches to Education Abdeljalil Akkari, Myriam Radhouane, 2022-02-28 This open access book provides an analysis of contemporary societies and schools shaped by cultural diversity, globalization and migration. This diversity is necessarily reflected in education systems and requires the promotion of intercultural approaches able to improve learning processes and the quality of education. From an international and comparative perspective, this book first presents theoretical and conceptual foundations for seriously considering cultural diversity. The book also compares intercultural approaches and debates generated in countries as diverse as the United States, Canada, Brazil, Switzerland and France. For each national context, the book addresses both the historical roots of intercultural approaches and the concrete initiatives driven by educational policies for their implementation in schools and classrooms. Finally, the book presents discussions surrounding the treatment of linguistic or religious diversity in schools, the emergence of global citizenship education and the key role of teachers in intercultural approaches. This is an open access book.

International Friendships Agnaldo Garcia, 2016-12-14 This volume discusses theoretical and empirical issues concerning international interpersonal friendships and the influence of society and culture in the different contexts in which these friendships may be found, particularly in international migration and international education. Advances in communication technology and new social and economic scenarios have enabled closer contact between people from different countries and cultures. According to the United Nations, the total number of international migrants worldwide in 2015 was about 244 million people. This increase in international human contacts raises questions about how people relate with people from other countries and cultures. In a growing international context, international friendships are relevant not only as a source of satisfaction and happiness, but also as the basis for a peaceful cohabitation and cooperation between people from different origins. Beyond theoretical issues, empirical data on international friendships involving Latin American countries or citizens are included here, in themes such as international migration and international education. The Latin America population is expected to reach 625 million inhabitants by 2016, according to the Economic Commission for Latin America and the Caribbean. Efforts to foster international friendships are discussed, as are perspectives of friendship as a factor for a better integration of human populations. The book will appeal to students and researchers in psychology and family studies, sociology, communication studies, Latin American studies, and anthropology.

Brazil and the Emergence of a Digital Lusosphere Valnora Leister, 2018-09-15 This book maps how Brazil and the network of Portuguese-speaking countries—the “Lusosphere”—are using digital technologies in new ways to expand opportunities at all levels of society. From a diverse range of perspectives across the Portuguese-speaking world, contributors to this volume explore such questions as the capability of information technologies to encourage social inclusion

in the face of economic inequality, the kinds of cultural values that may replace those of the scarcity-based industrial era, and the potential emergence of a virtual world order based on soft power, given the failures of hard power alternatives. This book explores how digital linkages between Brazil and physically-separated Portuguese-speaking communities are influencing the arts, creative industries, sports, learning, business, and cultural evolution for hundreds of millions of Portuguese-speaking people on five continents. At a time of escalating calls in Europe and North America to close borders and build walls, Brazil and the Emergence of a Digital Lusosphere charts alternatives that offer inspiration and practical paths toward a more inclusive world.

Cultural Heritage, Cultural Rights, Cultural Diversity Silvia Borelli, Federico Lenzerini, 2012-07-05 Cultural Heritage, Cultural Rights, Cultural Diversity: New Developments in International Law explores the recent evolution of cultural heritage law which has resulted in the emergence of a new international conscience, rooted in the awareness that cultural heritage represents a holistic notion strongly connected with the identity of peoples as well with individual and collective human rights. Leading international scholars examine the new challenges determined by that evolution, reaching beyond only tangible artistic and monumental expression and paying particular attention to the linkages between cultural heritage, cultural diversity and human rights. As such, Cultural Heritage, Cultural Rights, Cultural Diversity: New Developments in International Law offers a comprehensive and original overview of how the international approach to culture has evolved

from a sovereignty-based idea of cultural property to a perception which emphasises the human dimension of cultural heritage.

Uturunku Achachi Ismael Cáceres-Correa,Álvaro Guaymás,2014-10-19 Hace un tiempo nos propusimos fundar una revista en la cual se trabajasen temáticas relacionadas con los Pueblos Originarios. Este desafío no fue menor ya que dentro de una cantidad acérrima de opciones necesitábamos decir algo nuevo, o en su grado mínimo, algo con pretensión de nuevo. Es así como discutimos la creación de esta revista. Uturunku Achachi no es sólo una revista más en un océano de publicaciones que miran a nuestros pueblos como un objeto. Pretendemos decir en el espacio académico que ya basta de negarnos como pueblos. La revista llegó a la conclusión de que si vamos a trabajar acerca de nuestros Pueblos Originarios lo haríamos reconociéndonos como una realidad tangible, presente, que vivimos día a día. La occidentalización de nuestra América trajo consigo una idea errónea de universalidad. Esta tierra no puede ser universal, esta tierra se constituye de una infinidad de diálogos que transitan, que se reproducen, que se confrontan. Pretender unificar el pensamiento no es sino la prueba idónea de la Colonialidad que impera hasta nuestros días. Compartimos una tierra, hemos unificado luchas, hemos sido capaces de reencontrarnos como hermanos de una misma madre. En ese sinfín de diálogos es dónde consideramos que está lo importante: nuestra diversidad. Porque a diferencia de lo que propuso Occidente, somos unapatria pluricultural, y no nos podemos regir por un universo sino por un pluriverso que entiende la relevancia de nuestras cosmovisiones. Y lo repetimos: la relevancia de esa diversidad; porque en nuestra América no hemos llegado al fin de la historia y aún nuestras distinciones son algo a lo que le damos importancia.

Intercultural Business Negotiations Jean-Claude Usunier,2018-10-08 Negotiations occupy a prominent place in the world of business, especially when it comes to international deals. In an increasingly global business environment, understanding and managing cultural differences is key to successful negotiations. This book highlights two basic components of negotiations: the Deal and the Relationship. Countries and cultures place different value and priority on these components both in the negotiation process and in the outcome. Intercultural Business Negotiations provides a guiding framework that is both refined and contextualized and provides managers with the key skills necessary to navigate difficult negotiations where partners may differ in terms of culture, communication style, time orientation, as well as personal and professional backgrounds. The book systematically examines both dispositional and situational aspects of negotiations in interaction with cultural factors. Intercultural Business Negotiations is an accessible resource for managers, leaders, and those interested in or studying business negotiations globally. It is accompanied by an author run companion website containing negotiation simulations, instructions for players, and teaching notes for instructors.
