Global Maritime Geopolitics Hasret ÇOMAK,,Burak Şakir ŞEKER,Mehlika Özlem ULTAN,2022-01-16 States must develop new approaches, maritime policies, strategies and tactics to cruise through the contemporary maritime politics. Soft power, as well as economic, commercial, and logistics factors are of critical importance in establishing marine power. It is critical to promote maritime-related products such as films, serials, literature and art, maritime journalism, and maritime photography as part of governmental policies. Marine and maritime security challenges are becoming more important in today's world. As a result of all these developments, the preparation of a multidimensional and comprehensive work on the oceans and seas at the global level has been brought to the agenda. Our book has been written to elucidate these concerns and contribute to this important scholarly and policy field. This book can also be useful for wider audiences as a comprehensive volume on maritime geopolitics covering many cases from around the world and discussions from Turkish perspectives. Enterprise Information Systems Joaquim Filipe,José Cordeiro,2009-04-03 This book contains the best papers of the 10th
 International Conference on Enterprise Information Systems (ICEIS 2008), held in the city of Barcelona (Spain), organized by
 the Institute for Systems and Technologies of Information, Control and Com- nication (INSTICC) in cooperation with AAI
 and co-sponsored by WfMC. ICEIS has become a major point of contact between research scientists, engineers and
 practitioners in the area of business applications of information systems. This year, five simultaneous tracks were held,
 covering different aspects related to enterprise computing, including: "Databases and Information Systems Integration,"
 "Artificial Intelligence and Decision Support Systems," "Information Systems Analysis and Specification," "Software Agents
 and Internet Computing" and "Human-Computer Interaction." All tracks focused on real-world applications and highlighted
 the benefits of information systems and technology for industry and services, thus making a bridge between academia and
 enterprise. Following the success of 2007, ICEIS 2008 received 665 paper submissions from more than 40 countries. In all,

62 papers were published and presented as full papers, i.e., completed work (8 pages in proceedings / 30-min oral presentations), and 183 papers, reflecting work-in-progress or position papers, were accepted for short presentation and another 161 for poster presentation.

Who Was Who in Egyptology Morris L. Bierbrier, 2021-12-31 The civilization of ancient Egypt has been a source of fascination for explorers and scholars for centuries, and has occupied a special place in the imagination of the public ever since early travellers' descriptions and illustrations of the strange culture of temples, tombs and hieroglyphs began to circulate around the world. The story of Egyptology from a hobby for the educated and wealthy to a highly formalized academic discipline provides the key to understanding how and why we know what we know about ancient Egypt. This biographical dictionary tells the stories of the most important contributors and will be an indispensable reference tool for scholars and enthusiasts alike. Who Was Who in Egyptology remains one of the most important reference works for understanding the characters that contributed to the field of Egyptology and Egyptian archaeology from the Napoleonic invasion of Egypt through to the present day. The fifth edition brings entries up to 2019 and is expected to be the last volume produced in print.
