The Argentinian Dictatorship and its Legacy Juan Grigera, Luciana Zorzoli, 2019-06-01 This edited volume provides a comprehensive overview of the renewal of academic engagement in the Argentinian dictatorship in the context of the post-2001 crisis. Significant social and judicial changes and the opening of archives have led to major revisions of the research dedicated to this period. As such, the contributors offer a unique presentation to an English-speaking audience, mapping and critiquing these developments and widening the recent debates in Argentina about the legacy of the dictatorship in this long-term perspective.

La Máscara de Venecia (PDF) Javier Garrit Hernández, 2013-04-10 En la ciudad de Vinaròs es asesinado Eusebio Martín. Su amigo Carlos Beltrán, policía retirado, se ofrece al inspector Ramón Díaz, para ayudarlo a esclarecer el caso. En el transcurso de la investigación, aparece Sofía Barletta, una policía que llega a Vinaròs desde Italia en busca de un peligroso asesino. Los tres descubrirán que Eusebio Martín murió porque tenía en su poder un objeto. Un objeto que destapará una trama de corrupción y poder que desembocará en el atentado planeado contra una conocida personalidad del mundo político y religioso. La novela nos lleva de Vinaròs a Venecia y Roma; donde, paralelamente a la investigación de Carlos Beltrán, Ramón Díaz y Sofía Barletta, tiene lugar una lucha política entre los dos candidatos a la presidencia italiana.

The Economics of Women and Work in the Global Economy Reyna Elizabeth Rodríguez Pérez, David Castro Lugo, 2022-07-25 This book offers an analysis of the key issues faced by women in the labor market in the 21st century. It identifies the factors that inhibit women's participation in the labor market, studies occupational segregation by gender and analyzes labor transitions, questioning whether the experience for men and women differs. It also explores the effect of entrepreneurship support programs on women's economic and social positions, as well as the public policy implications of women's entry into the labor market. The book investigates working women in Mexico and also offers comparisons with countries such as Spain and developing countries within Eastern Europe. It explores a variety of topics, from a gender perspective, such as labor participation, the feminization of poverty, migration, wage gaps, changes in employment, informal work programs and public policy. Finally, the book offers a topical and timely analysis of the COVID-19 pandemic, tracking the gender inequalities among men and women in labor markets. The main market for the book is the global community of

academics, researchers and graduate students in the fields of economics and, specifically, in the study of the labor market from a gender perspective. It will also be beneficial to government institutions responsible for the creation of public programs and policies, as well as non-governmental and non-profit organizations.

The Psychoanalytic Vision of CARL GUSTAV JUNG: A Therapeutic Path Toward Transformation Sinuhe Ulises García Reynoso ,2025-01-02 Discover the fascinating life and work of Carl Gustav Jung, the Swiss visionary who from an early age displayed an insatiable curiosity about the darkest corners of the human psyche. His collaboration and break with Freud marked the birth of analytical psychology, a discipline that delves into universal symbols and the collective unconscious. But Jung was more than a theorist. His prophetic visions anticipated the tragedies of World War I and World War II with uncanny accuracy. As he explored the human soul, he warned of the danger of a spiritual disconnection that could bring modern man to the brink of extinction. In this book, we explore Jung's many facets: the mystic who explored the secrets of alchemy and astrology, the secret agent who collaborated with military intelligence, and the scientist who challenged the limits of the human psyche. Through contemporary examples and inspiring reflections, we discover how Jungian principles can illuminate our understanding of today's world. From the ecological crisis to social tensions to the search for personal meaning, Jung offers us tools for integrating the spiritual into our daily lives and provides a framework for understanding the complexities of our times. This book celebrates Jung's enduring influence as a beacon of wisdom in exploring the deeper facets of the human soul and the search for personal and collective wholeness. In a world desperate for answers, through Jung's legacy we invite readers to embrace our humanity and reconnect with the vast cosmos we inhabit. Integrating contemporary scientific approaches with the ancestral wisdom of indigenous peoples helps to conjure a sustainable and meaningful future for humanity.

The Edinburgh Companion to Women in Publishing, 1900-2020 Nicola Wilson, Claire Battershill, Sophie Heywood, Marrisa Joseph, Daniela La Penna, Helen Southworth, Alice Staveley and Elizabeth Willson Gordon,2024-02-29 Women's creative labour in publishing has often been overlooked. This book draws on dynamic new work in feminist book history and publishing studies to offer the first comparative collection exploring women's diverse, deeply embedded work in modern publishing. Highlighting the value of networks, collaboration, and archives, the companion sets out new ways of reading women's contributions to the production and circulation of global print cultures. With an international, intergenerational set of contributors using diverse methodologies, essays explore women working in publishing transatlantically, on the continent, and beyond the Anglosphere. The book combines new work on high-profile women publishers and editors alongside analysis of women's work as translators, illustrators, booksellers, advertisers, patrons, and publisher's readers; complemented by new oral histories and interviews with leading women in publishing today. The first collection of its kind, the companion helps establish and shape a thriving new research field.

Las Cualidades que debe poseer un ciudadano, de acuerdo a la conceptualización Ontológica del Ser Humano y la Filosofía del Derecho Acacio Edmundo Macip Toral, 2014-02-05 El presente trabajo, es un tema que se ubica, dentro de uno mayor llamado Inteligencias múltiples. Mi propuesta es desarrollar siete inteligencias prioritarias, acordes con el ideal constitucional (...desarrollar armónicamente, todas las facultades del ser humano. Art. 3). Al desarrollar estas siete capacidades (meta-normas), desarrollaríamos una cultura jurídica tal, que estimularía una conducta acorde con la legalidad y esto evitaría un sinnúmero de acciones, fuera del orden.

Cultural and Creative Mural Spaces Virginia Santamarina-Campos, Eva-María Martínez-Carazo, María de Miguel Molina, 2021-02-15 This book puts into context the evolution of mural art in recent years, particularly the case of the contemporary muralism in Uruguay. While the focus of this volume, revolves around Uruguay, the editors demonstrate that circumstances found in Uruguay are also reflected widely in a large number of cases worldwide. Mural art has evolved from an elite audience to a more popular objective. At the same time, it does not lose the necessity of high value artists that, not only technically but also conceptually, will be able to connect to the audience and provide a sense of identity and necessity of preservation of this art. This leads to a down-top approach, where different actors take part in the process, from the conceptualization to the conservation. Moreover, mural art has been studied as a driver of local economic development, attracting visitors and tourists can access these open-air museums easily. This book is of interest to students and researchers working in fine art, heritage and museum studies.

Working with Young People Xavier Úcar, Pere Soler-Masó, Anna Planas-Lladó, 2020 It is common to refer to the dynamism and vitality of young people as a source of change, creation, and innovation, but they are often also considered a problem that we do not know how to respond to. Young people can make adults feel uncomfortable because they are neither children who can be told what to do nor adults to be treated as equals. From the perspective of adults, their status is socially and culturally ambiguous--

Latin America's Global Border System Beatriz Zepeda, Fernando Carrión Mena, Francisco Enríquez Bermeo, 2022-05-05 Latin America's Global Border System is the opening volume in the first collection of academic works devoted exclusively to borders and illegal markets in Latin America. This volume features expert discussions on border issues of Argentina, Brazil, Bolivia, Ecuador, Guatemala, Italy, Mexico and Peru, as well as studies on illegal markets, cities, and gender as a first step to understanding the intricacies of the global border system of illegal markets and Latin America's role in it. The book constitutes a valuable source of information on the geographic, economic, demographic, and social characteristics of the most important Latin American border regions, and their relation to global illegal markets, while also offering valuable insights into the ways illegal markets are organized in each country and how they connect across borders to create the global border system. This book will not only be a valuable resource for academics and students of international relations, security

studies, border studies and contemporary Latin America, but will also prove relevant to national and international policy-makers devoted to foreign, security and development policies.

Modern Spain Enrique Ávila López, 2015-12-07 Fulfilling the need for English-source material on contemporary Spain, this book supplies readers with an in-depth, interdisciplinary guide to the country of Spain and its intricate, diverse culture. Far from a usual reference book, *Modern Spain* takes the reader through the country's history, economy, and politics as well as topics that address Spain's popular culture, such as food, sports, and sexuality. Because of the interdisciplinary nature of its content, this book differs from the average typical English manuals that very rarely cover in depth the whole array of interesting issues that define Spain in the 21st century. The vast amount of information makes this book the perfect companion for any reader wishing to learn more about Spain. Packed with current facts and statistics, this book offers an unbiased view of a modern country, making it an ideal source for undergraduate students and scholars.

The Hotel Robert A. Davidson, 2018-11-05 *The Hotel: Occupied Space* explores the hotel as both symbol and space through the concept of "occupancy." By examining the various ways in which the hotel is manifested in art, photography, and film, this book offers a timely critique of a crucial modern space. As a site of occupancy, the hotel has provided continued creative inspiration for artists from Monet and Hopper, to genre filmmakers like Hitchcock and Sofia Coppola. While the rich symbolic importance of the hotel means that the visual arts and cinema are especially fruitful, the hotel's varied structural purposes, as well as its historical and political uses, also provide ample ground for new and timely discussion. In addition to inspiring painters, photographers, and filmmakers, the hotel has played an important role during wartime, and more recently as a site of accommodation for displaced people, whether they be detainees or refugees seeking sanctuary. Shedding light on the diverse ways that the hotel functions as a structure, Robert A. Davidson argues that the hotel is both a fundamental modern space and a constantly adaptable structure, dependent on the circumstances in which it appears and plays a part.

Neoliberalism's Fractured Showcase, 2011-01-11 This collection of works by prominent Chilean experts explores the long term effects of neoliberalism. It relentlessly questions Chile's status as a successful and exemplary democratic country. The first part deals with the circumstances that facilitated the establishment of the neoliberal experiment in Chile. This is followed by analysis of the economic, social, environmental, political and human rights impacts of 35 consecutive years of neoliberal policies. Implications for weathering the multi-dimensional global crisis are analyzed in view of Chile's loss of productive capacities, the shrinking role of the State and its asymmetrical integration into the world economy. The volume concludes by asserting that breaking the status quo is possible, urgent and necessary. *Critical Global Studies*, vol. 3

Food Studies in Latin American Literature Rocío del Aguila, Vanesa Miseres, 2021-12-10 Collection of essays analyzing a wide array of Latin American narratives through the lens of food studies--

The Christian Right in Europe Gionathan Lo Mascolo, 2023-11-02 Inspired by the success of the US Christian Right and

the rise of the global far-right, ultraconservative Christians in Europe are joining forces and seek to reshape Europe. By assembling in anti-gender movements and sharing anti-Muslim narratives, they actively influence the political landscape and shape government policies. The contributors offer new perspectives on the protagonists and the entangled networks that work to abolish liberal democracy in Europe behind the scenes. This anthology is the first to bring together case studies on the Christian Right in over 20 European countries, providing a transnational perspective and an accessible insight for clergy, politicians, and academics alike.

Las Colecciones de Arte de la Banca Pública (1960-1982) Julián Zarauza Massó, 2023-10-02 Las instituciones bancarias se cuentan hoy entre los coleccionistas de arte más significativos de nuestro tiempo. Este coleccionismo asume la coexistencia de varios gustos individuales y cambiantes. Estas colecciones se inician con los testimonios inmediatos de los que las fundaron y dirigieron a lo largo de su historia, que se une a la misma condición bancaria. Proceden de la voluntad de su consejo de administración con una intención decorativa para buscar una mayor dignidad y calidad de sus sedes. Durante la segunda mitad del siglo XX, algunas de estas instituciones iniciaron la labor pionera de comprar arte con intención de formar una colección. Estas iniciativas estuvieron ligadas a determinadas personalidades, como ocurrió con Manuel Arburúa de la Miyar en el Banco Exterior de España y Juan Lladó Sánchez-Blanco en el Banco Urquijo. Dotaron a sus sedes centrales y regionales de grandes obras de arte en un momento en que el estado, la sociedad y los medios de comunicación vivían al margen de la creación artística. Este mecenazgo se incrementó a partir de 1977, con motivo de la liberalización del sistema financiero español, al poder operar los bancos sin restricciones a lo largo y ancho de la geografía española. Entre 1973 y 1983 se triplicó el número de oficinas bancarias. Fue un momento en que urgía decorarlas. A lo largo de este trabajo apreciamos cómo las colecciones de arte de estas instituciones bancarias no sólo han contribuido a incrementar y preservar el patrimonio artístico de nuestro país, también actuaron en calidad de mecenas de muchos artistas.

Norberto Rivera Bernardo Barranco, 2017-07-14 Más que una obra anticlerical o anticatólica, éste es un esfuerzo colectivo por conformar una sólida imputación a una fallida aventura de la Iglesia que apostó por la disciplina y la regresión. Alberto Athié - Eugenia Jiménez Cáliz - Guadalupe Loaeza - Fátima Moneta - Marilú Rojas Salazar - Mónica Uribe - Rodrigo Vera - Jenaro Villamil El libro que tiene en sus manos es una colección de ensayos críticos sobre el desempeño del arzobispo Norberto Rivera. No se busca una falsa neutralidad, por el contrario, son textos de denuncia donde intelectuales, periodistas y activistas de derechos humanos sustentan con hechos los excesos y extravíos del cardenal. Los autores documentan la trayectoria de un personaje que en nombre de la ortodoxia moral ha condenado las causas de las mujeres, los homosexuales, los no creyentes y las minorías. Como se documenta a lo largo de estas páginas, Norberto Rivera es un claro ejemplo de que la impunidad y el fuero religioso es una regla no escrita de la política mexicana. El prelado es intocable no sólo por su condición de alto clero, sino por su hermandad con el poder. Más que como pastor o líder espiritual, dice Bernardo Barranco,

el cardenal encarna al obispo sinuoso, rodeado de lujos, protector de pederastas, centavero, solapador a conveniencia propia y de sus amigos: actores de doble moral dentro y fuera de la Iglesia. Otros autores han opinado: Tantas razones para la desilusión con la cúpula de la Iglesia católica y su representante en México, Norberto Rivera. Y este libro enuncia los motivos de este desencanto, persistente y dolorosamente. Marcial Maciel, pederasta. Juan Pablo II, encubridor. Legionarios de Cristo, cómplices. El personaje principal de esta obra, omiso. Difícil reconocerlo, entenderlo, admitirlo. Pero es la verdad que lleva años allí; que algunas víctimas valientes han denunciado; que algunos escritores comprometidos han investigado; que muchos mexicanos deberían saber. -Denise Dresser-

Trends in Latin American International Relations Peter Birle, Claudia Zilla, 2025-10-09 Since the beginning of US President Donald Trump's second term, the already volatile international order has faced increasingly disruptive developments and fundamental challenges. This volume outlines and analyses the role of Latin America as a whole, and of individual countries including Argentina, Brazil, Chile, Colombia and Mexico, in the new global (dis)order. The book is divided into three parts. The first contains contributions on regional dynamics in Latin America: What do global developments mean for Latin America's development options? What are the consequences for Latin American regionalism? Why have regional democracy clauses repeatedly proved ineffective? The second part examines the role of external actors in Latin America: the USA, China, the European Union and Russia. The third section analyses the foreign policies of single states and asks what role concepts such as 'active non-alliance' and 'feminist foreign policy' play for Latin America. In their concluding remarks, the editors analyse the potential consequences of Trump's policies for the topics covered in the volume after the first 100 days of his Administration. The volume provides an up-to-date, theory-based examination of key issues in Latin American international relations and is essential reading for scholars, students, policymakers and others interested in Latin American international relations.

The Rise of Euroskepticism Luis Martín-Estudillo, 2018-03-26 Electronic open-access edition funded by the National Endowment for the Humanities. Covering from 1915 to the present, this book deals with the role that artists and intellectuals have played regarding projects of European integration. Consciously or not, they partake of a tradition of Euroskepticism. Because Euroskepticism is often associated with the discourse of political elites, its literary and artistic expressions have gone largely unnoticed. This book addresses that gap. Taking Spain as a case study, author Luis Martín-Estudillo analyzes its conflict over its own Europeanness or exceptionalism, as well as the European view of Spain. He ranges from canonical writers like Unamuno, Ortega y Gasset, and Zambrano to new media artists like Valeriano López, Carlos Spottorno, and Santiago Sierra. Martín-Estudillo provides a new context for the current refugee crisis, the North-South divide among EU countries, and the generalized disaffection toward the project of European integration. The eclipsed critical tradition he discusses contributes to a deeper understanding of the notion of Europe and its institutional embodiments. It gives resonance

to the intellectual and cultural history of Europe's peripheries and re-evaluates Euroskeptic contributions as one of the few hopes left to imagine ways to renew the promise of a union of the European nations.

Encounters in Video Art in Latin America Elena Shtromberg, Glenn Phillips, 2023-02-14 With insightful essays and interviews, this volume examines how artists have experimented with the medium of video across different regions of Latin America since the 1960s. The emergence of video art in Latin America is marked by multiple points of development, across more than a dozen artistic centers, over a period of more than twenty-five years. When it was first introduced during the 1960s, video was seen as empowering: the portability of early equipment and the possibility of instant playback allowed artists to challenge and at times subvert the mainstream media. Video art in Latin America was—and still is—closely related to the desire for social change. Themes related to gender, ethnic, and racial identity as well as the consequences of social inequality and ecological disasters have been fundamental to many artists' practices. This compendium explores the history and current state of artistic experimentation with video throughout Latin America. Departing from the relatively small body of existing scholarship in English, much of which focuses on individual countries, this volume approaches the topic thematically, positioning video artworks from different periods and regions throughout Latin America in dialogue with each other. Organized in four broad sections—Encounters, Networks and Archives, Memory and Crisis, and Indigenous Perspectives—the book's essays and interviews encourage readers to examine the medium of video across varied chronologies and geographies.
