Teaching, Learning and Investigating Pragmatics Sara Gesuato,Winnie Cheng,2015-09-18 This volume presents a collection of research papers investigating how to foster the learning and teaching of pragmatic phenomena, as well as how to administer tests that assess pragmatic competence in second/foreign language education with regards to several target languages. The topics investigated include: speech acts; computer-mediated communication; conversation analysis; pragmatic, intercultural, and emotional competence; native and non-native performance; data collection and instructional methods; needs analysis; and syllabus design and materials development. The contributions will be of particular interest to linguists, language learners and teachers, teacher trainers, and communication experts.

Second Language Pronunciation Assessment Talia Isaacs,Pavel Trofimovich,2016-12-22 This book is open access under a CC BY licence. It spans the areas of assessment, second language acquisition (SLA) and pronunciation and examines topical issues and challenges that relate to formal and informal assessments of second language (L2) speech in classroom, research and real-world contexts. It showcases insights from assessing other skills (e.g. listening and writing) and highlights perspectives from research in speech sciences, SLA, psycholinguistics and sociolinguistics, including lingua franca communication, with concrete implications for pronunciation assessment. This collection will help to establish commonalities across research areas and facilitate greater consensus about key issues, terminology and best practice in L2 pronunciation research and assessment. Due to its interdisciplinary nature, this book will appeal to a mixed audience of researchers, graduate students, teacher-educators and exam board staff with varying levels of expertise in pronunciation and assessment and wide-ranging interests in applied linguistics.

Teacher Involvement in High-Stakes Language Testing Daniel Xerri,Patricia Vella Briffa,2018-04-27 This book advocates that teachers should play an active role in high-stakes language testing and that more weight should be given to teacher judgement. This is likely to increase the formative potential of high-stakes tests and provide teachers with a sense of ownership. The implication is that the knowledge and skills they develop by being involved in these tests will feed into their own classroom practices. The book also considers the arguments against teacher involvement, e.g. the contention that teacher involvement might entrench the practice of teaching to the test, or that teachers should not be actively involved in high-stakes language testing because their judgement is insufficiently reliable. Using contributions from a wide range of international educational contexts, the book proposes that a lack of reliability in teacher judgement is best addressed by means of training and not by barring educators from participating in high-stakes language testing. It also argues that their involvement in testing helps teachers to bolster confidence in their own judgement and develop their assessment literacy. Moreover, teacher involvement empowers them to play a role in reforming high-stakes language testing so that it is more equitable and more likely to enhance classroom practices. High-stakes language tests that adopt such an inclusive approach facilitate more effective learning on the part of teachers, which ultimately benefits all their students.

FCE Practice Tests Plus 2 Diana L. Fried-Booth,2003

Improving Adult Literacy Instruction National Research Council,Division of Behavioral and Social Sciences and Education,Committee on Learning Sciences: Foundations and Applications to Adolescent and Adult Literacy,2012-04-26 A

high level of literacy in both print and digital media is required for negotiating most aspects of 21st-century life, including supporting a family, education, health, civic participation, and competitiveness in the global economy. Yet, more than 90 million U.S. adults lack adequate literacy. Furthermore, only 38 percent of U.S. 12th graders are at or above proficient in reading. *Improving Adult Literacy Instruction* synthesizes the research on literacy and learning to improve literacy instruction in the United States and to recommend a more systemic approach to research, practice, and policy. The book focuses on individuals ages 16 and older who are not in K-12 education. It identifies factors that affect literacy development in adolescence and adulthood in general, and examines their implications for strengthening literacy instruction for this population. It also discusses technologies for learning that can assist with multiple aspects of teaching, assessment, and accommodations for learning. There is inadequate knowledge about effective instructional practices and a need for better assessment and ongoing monitoring of adult students' proficiencies, weaknesses, instructional environments, and progress, which might guide instructional planning. *Improving Adult Literacy Instruction* recommends a program of research and innovation to validate, identify the boundaries of, and extend current knowledge to improve instruction for adults and adolescents outside school. The book is a valuable resource for curriculum developers, federal agencies such as the Department of Education, administrators, educators, and funding agencies.

Language Assessment Literacy Dina Tsagari, 2020-04-21 The field of language testing and assessment has recognized the importance and underlying theoretical and practical underpinnings of language assessment literacy (LAL), an area that is gradually coming to prominence. This book addresses issues that promote the concept of LAL for language research, teaching, and learning, covering a range of topics. It brings together 14 chapters based on high-stakes and classroom-based studies authored by academics, professionals and researchers in the field. The text examines diverse issues through a multifaceted approach, presenting high-quality contributions that fill a gap in a research area that has long been in need of theoretical and empirical attention.

Speaking First Luis Porras Wadley, 2019-07-14 This book contains 10 complete practice tests for the Cambridge English B2 First Speaking, previously known as First Certificate in English (FCE) These sample tests have been written to closely replicate the Cambridge FCE Speaking exam experience and so each Speaking test follows the same structure and wording as official B2 First Speaking papers. Because of this, candidates will become familiar with the topics, the structure, the timing and the level by the time they sit their B2 First exam. In addition to the 10 complete practice tests for B2 First Speaking, this book also contains B2 Speaking model answers with examiner comments, ready-to-use speaking mark sheets, as well as an in-depth description of the B2 First Speaking paper, thus providing a large bank of high-quality practice material both for students wishing to take the Cambridge B2 First and for teachers preparing students for the exam.

Classroom-based Assessment in L2 Contexts Dina Tsagari, 2016-06-22 This edited volume addresses issues that promote

the notion of Classroom-based Language Assessment (CBLA) for the academic community and beyond. The book explores recent thinking and research on CBLA within the fields of language testing, assessment and general education based on theoretical and research papers presented at the recent CBLA SIG – EALTA Symposia held in Cyprus and the pre-conference EALTA workshops in various countries around Europe. The volume contains 17 chapters which involve both high-stakes tests and classroom-based assessments conducted by academics, professionals and researchers in the field. It brings together high-quality submissions that cover a gap in a research area that has long been in need of theoretical and empirical attention. Overall, this edited collection, with its international scope, offers a ground-breaking resource, bringing together in balanced relationship the fields of education and second language testing and assessment.
