Popular Political Participation and the Democratic Imagination in Spain Pablo Sánchez León, 2020-11-27 This book addresses the changing relationships among political participation, political representation, and popular mobilization in Spain from the 1766 protest in Madrid against the early Bourbon reforms until the citizen revolution of 1868 that first introduced universal suffrage and led to the ousting of the monarchy. *Popular Participation and the Democratic Imagination* in Spain shows that a notion of the “crowd” internally dividing the concept of “people” existed before the advent of Liberalism, allowing for the enduring subordination of popular participation to representation in politics. In its wider European and colonial American context, the study analyzes semantic changes in a range of cultural spheres, from parliamentary debate to historical narrative and aesthetics. It shows how Liberalism had trouble reproducing the legitimacy of limited suffrage and traces the evolution of an imagination on democracy that would allow for the reconfiguration of an all-encompassing image of the people eventually overcoming representative government. “Focused on the nation and identities, Spanish historiography had a pending debt with that other historical subject of modernity, the people. With this book, Pablo Sánchez León starts cancelling the debt with an innovative methodology combining conceptual history with social and political history. Brilliantly, this book also proposes a novel chronology for modern history and renewed categories of analysis. In many senses, this is an extraordinarily renovating senior work.” —José María Portillo Valdés, University of the Basque Country, Spain “This book by Pablo Sánchez León is an original and detailed study of one of the essential components of modernity, the relation between the concepts of plebe and pueblo. The author shows that plebe and people were shaped in a process of mutual differentiation and how the enduring tension between them deeply marked out the evolution of Spanish politics from the end of the Old Regime and throughout the 19th century. As the author brilliantly argues, such tension is tightly imbricated with the enduring dilemma between representation and participation underlying modern political systems. Through a historical analysis of the influence of people and plebe over Spanish, the book makes clear the degree to which the power of language contributes to shape political actors and institutional frames.” —Miguel Ángel Cabrera — Professor,

University of La Laguna, Tenerife, Spain “Most accounts of Spain’s transition to modern democracy begin with the popular uprising against the French invasion in 1808, the creation of a national parliament and the promulgation of an advanced Liberal constitution in 1812. Pablo Sánchez León begins the story half a century earlier in the mass street protests in Madrid and other cities in 1766 sparked by Charles III’s sweeping reform programme. Sánchez León focuses unrepentantly on plebeian groups and crowd action – how they are described and conceived by contemporaries – as a key to understanding Spain’s precocious and troubled passage from absolutism to the promulgation of universal male suffrage in September 1868. This audacious and highly original interpretation will surely strike a chord with students of modern Spain.” —Guy Thomson, University of Warwick, UK “This is a book for exploring (from current needs) the history of political participation in Spanish society in order to rethink the very notion of modern citizenship.” —María Sierra, University of Seville, Spain “Motivated by the current crisis in political representation in parliamentary democracies, this work by Pablo Sánchez León departs from the process of construction of modern citizenship. Representation, participation and mobilization are put into play as an interactive triad whose dynamics and changing conceptualization have the key to the social, political and cultural changes between the Old Regime and the early establishment of democracy in 1868. The “They do not represent us!” and other current claims for deliberative democracy provide the guiding thread for a demanding research on the tension between representation and participation shaping the period 1766-1868. The work reflects on the relevance of popular participation and, in presenting the modern history of Spain as singular and relevant on its own, provides an account of the building of modern citizenship. —Pablo Fernández Albaladejo, Autonomous University of Madrid, Spain This exciting book is both topical and historiographically valuable. It offers a fresh perspective on current debates about the limits of representation and the pros and cons of participation; it makes Spanish political culture in the age of revolutions accessible to anglophone readers, and it engagingly illustrates one way of doing the ‘history of concepts’. Recommended on all three counts. Joanna Innes, Oxford University

El oficio de enseñar Fernando Saúl Alanís Enciso, René Medina Esquivel, 2019-11-02 En esta colaboración poco común y de largo aliento entre un académico historiador y un profesional de la educación, Fernando Alanís y René Medina, ponen el dedo en la llaga de la enseñanza de la historia a nivel posgrado en México al formular la siguiente paradoja: ¿Cómo puede lograr un profesor-investigador del campo de la historia formar una nueva generación de docentes de la actual era digital de los conocimientos, si carece de una orientación pedagógica, sobre todo una acorde con los nuevos tiempos?

Reflexión sobre el pensamiento y quehacer humano (Filosofía) Sierra, María Teresa, Morales, Sandra, Ahumada, Esther, En el presente texto, se buscó recuperar los principios constructivistas de aprendizaje, así como el enfoque educativo basado en competencias, cuyo propósito es que cada uno de los estudiantes logre resolver diversos problemas en situaciones cercanas a partir de los aprendizajes (conocimientos, valores, habilidades y actitudes) adquiridos dentro y fuera de la

escuela, para de esta manera contribuir al desarrollo de competencias en el campo de conocimiento de las humanidades y competencias transversales al currículum. El propósito es interpretar diversas propuestas filosóficas mediante la reflexión del impacto que han tenido en el desarrollo del pensamiento humano y en la transformación de la realidad social y cultural, para formar una visión propia del mundo que dote de sentido y responsabilidad cualquier acción humana. Presenta un conjunto de ejercicios, lecturas, fuentes de información en internet, tareas extraescolares y proyectos.

Sartre and the International Impact of Existentialism Alfred Betschart,Juliane Werner,2020-04-21 This edited collection re-examines the global impact of Sartre's philosophy from 1944-68. From his emergence as an eminent philosopher, dramatist, and novelist, to becoming the 'world's conscience' through his political commitment, Jean-Paul Sartre shaped the mind-set of a generation, influencing writers and thinkers both in France and far beyond. Exploring the presence of existentialism in literature, theatre, philosophy, politics, psychology and film, the contributors seek to discover what made Sartre's philosophy so successful outside of France. With twenty diverse chapters encompassing the US, Europe, the Middle East, East Asia and Latin America, the volume analyses the dissemination of existentialism through literary periodicals, plays, universities and libraries around the world, as well as the substantial challenges it faced. The global post-war surge of existentialism left permanent traces in history, exerting considerable influence on our way of life in its quest for authenticity and freedom. This timely and compelling volume revives the path taken by a philosophical movement that continues to contribute to the anti-discrimination politics of today.

Pensar as Direitas na América Latina Ernesto Bohoslavsky,Rodrigo Patto Sá Motta,Stéphane Boisard,2021-09-06 As direitas têm sido um ator mais rejeitado que estudado pela história e as ciências sociais, motivo pelo qual suas ações geram surpresa e incompreensão entre os acadêmicos. Este livro contribui para o adequado conhecimento de alguns traços essenciais das direitas latino-americanas desde o começo do século XX até a realidade atual, marcada pelos triunfos eleitorais de alianças e candidatos explicitamente alinhados com valores conservadores e autoritários. Historiadores, cientistas políticos e sociólogos oferecem neste livro um olhar renovador, crítico e, sem dúvidas, muito necessário para pensar sobre alguns dos desafios da democracia no nosso continente.

Arquitectura biodigital Marcelo Fraile,2021-06-17 La rápida e intensiva evolución que han experimentado las tecnologías biológicas y digitales a finales del siglo XX, han producido importantes transformaciones en nuestros hábitos cotidianos y laborales. En el campo específico de la arquitectura, se iniciaba con esto, un universo de nuevos planteos que desafían las concepciones tradicionales del diseño, dando lugar a una arquitectura con una expresión espacial germinal, fluida, en continuo proceso de cambio y de transformación hasta su concreción física final. Una arquitectura de modelos digitales producidas a través de una amplia gama de herramientas tecnológicas: modelos paramétricos, algoritmos genéticos, tecnologías CAD/CAM, que permiten optimizar los recursos de un modo lógico, más allá de la construcción gráfica o del

discurso exclusivamente conceptual. Revelando el peso de lo biológico y de lo digital en la práctica del arquitecto contemporáneo. En este ámbito, la presente investigación parte de la hipótesis de que un nuevo paradigma está surgiendo en el modo de concebir la arquitectura. Dentro de la situación contemporánea donde los límites disciplinares parecieran ser difusos, algunos afirman que la arquitectura biodigital es la nueva vanguardia, otros que es una moda formalista pasajera que en muy poco tiempo será olvidada. Hasta qué punto constituye dicho marco un nuevo paradigma es aún un tema sometido a debate. ¿Revolución científica o anomalía? Esta dicotomía presenta un campo abierto que será objeto de esta investigación cuyos límites y consecuencias son impredecibles.

Fracturas de la memoria: un siglo de violencia y trauma cultural en el arte mexicano moderno y contemporáneo Dina Comisarenco Mirkin, 2023-03-06 El presente libro está orientado a ampliar el estudio del arte mexicano de los siglos XX y XXI desde perspectivas interdisciplinarias, que en el marco de los estudios recientes sobre memoria cultural, teoría de género, y psicoanálisis contribuyan a profundizar en el conocimiento y en la difusión de procesos creativos relacionados con la memoria, el olvido y los encuentros con las huellas de traumas de carácter colectivo, especialmente en su potencial para la transformación social

El impulso filosofante Luis Enrique Alvizuri, 2024-05-15 El objetivo de este ensayo es proponer que el llamado ser humano se origina por causa de un fenómeno que parece afectar a determinados seres en ciertas circunstancias específicas y cuya manifestación principal es la percepción que, quien lo sufre, tiene de su propia individualidad frente al resto de la naturaleza. Dicha posición viene a ser un puro acto de filosofía, por lo que el filosofar sería entonces la primera expresión de lo propiamente humano, anterior a cualquier tipo de cambio físico. Esta es la razón por la que a dicho fenómeno se lo denomina “impulso filosofante”, porque impulsa al ser que lo padece a filosofar, independientemente de si es o no un antropoide. Como consecuencia de ese abrir los ojos a un mundo que súbitamente se ha empezado a ver como ajeno y desconocido se genera una terrible sensación de marginación respecto a la realidad, lo cual produce a su vez un estado de soledad y abandono, situación que define e identifica la esencia de lo humano.

La universidad entre la ética y los cambios generacionales y tecnológicos, Los capítulos presentados pretenden esbozar parte de los desafíos sociales de la educación superior actual, desde una perspectiva ética, con el objetivo de fomentar un diálogo que proponga soluciones en pro de criterios vigentes, entre ellos: la capacidad de agencia de los estudiantes como centro del proceso educativo, la diversidad intergeneracional, el género, la influencia de nuevas herramientas tecnológicas, además de otras propuestas pedagógicas alternativas a las tradicionales que fomenten la responsabilidad de los universitarios de cara al futuro.

Territorios por pensar Nuria Sánchez Madrid, Luis Alegre Zahonero, 2019-09-09 ¿Qué sentido tiene que un panadero haga pan solo para panaderos o un barbero que afeite solo a barberos? Lo mismo ocurre con la filosofía: los filósofos

deberían escribir para todo el mundo y no solo para los iniciados. Los manuales de filosofía suelen centrarse en aquellas cuestiones de las que el filósofo se siente más orgulloso —el conocimiento, la política, la historia, la sociedad, la estética, la religión—. Sin embargo, hay otros temas y aspectos de enorme importancia que con frecuencia se pasan por alto cuando la fábrica conceptual no consigue domeñarlos. La realidad es tozuda y se empeña en mantener también las dimensiones no pensadas o que no terminan de encajar en los esquemas con los que las pensamos y que tienen consecuencias en nuestras vidas. De hecho, con frecuencia son los lugares más intempestivos, inoportunos, inciertos y desordenados —lugares que siguen constituyendo en gran medida Territorios por pensar— los que nos pueden dar la clave para ampliar nuestra representación del mundo y de la realidad más allá de lo canonizado por el pensamiento.

El fin de los historiadores Pablo Sánchez León, 2009-12 Si se admite que la producción y comunicación de conocimiento acerca del pasado afectan al bienestar colectivo de los ciudadanos, ¿cuál es su finalidad o finalidades en una sociedad democrática? ¿Quién o quienes han de encargarse del conocimiento del pasado en el siglo XXI? ¿Hay una única vía, un solo método de conocimiento histórico? Responder a estas preguntas no conlleva necesariamente proclamar el fin del historiador, pero en cambio sí implica replantear en público un viejo asunto habitualmente eludido dentro y fuera del mundo académico: la función social del historiador ante las cambiantes necesidades de conocimiento y comunicación en nuestras sociedades. Este libro es un compendio de reflexiones sobre los cambios que se han producido en las formas de enfocar el pasado dentro de las culturas modernas, pero más aun sobre sus efectos en los fines que tradicionalmente tienen reconocidos los historiadores. Los textos aquí reunidos abordan cuestiones tales como si el historiador está abocado a compartir su actividad con otros ciudadanos no profesionales, o si conviene repensar la finalidad de la historia académica y adaptarla a una sociedad multicultural muchos de cuyos miembros construyen diferentes imágenes sobre el pasado en función de sus identidades. En suma, este libro pretende abrir un debate sobre los fines y responsabilidades sociales en el siglo XXI de un ciudadano —el historiador— que no se encuentra al margen de su propia sociedad, dentro de la cual la fe en la Historia movida por leyes o regularidades es cada vez más minoritaria. Seguir posponiendo el diálogo sobre cuestiones como las que plantea este libro puede en cambio estar contribuyendo a provocar eventualmente el fin del historiador.

Sistema político mexicano ayer y hoy Adrián S. Giménez-Welsh, Pedro Fernando Castro Martínez, 2010

El Autoritarismo en la Modernidad José Morales Fabero, 2019-12-21 Ante esta crisis de valores, donde se cuestiona la modernidad, con su razón cartesiana, su antropocentrismo, su escepticismo ante la metafísica y su imperativo categórico, pareciera que detrás de ésta aparente —liberación del hombre—, se encuentran unas estructuras, unos valores, unas actitudes, si cabe tanto o más que el autoritarismo moderno, del cual quieren emanciparse. Para ello sería conveniente observar la tradición y los pre-juicios, de los cuales la modernidad quiso desembarazarse y cuáles de ellos han seguido y siguen latiendo dentro de nuestra concepción del individuo y de la sociedad de la cual formamos parte, es decir ¿deberíamos sin más desdeñar la auctoritas y someternos a un autoritarismo no visible-imperium-, pero presente en nuestras sociedades occidentales, de tal manera y suerte que el hombre no tenga un centro desde el cual poder construir o vislumbrar un radio y extrarradio de su posibilidades como persona, con criterio para construir una vida propia y consecuente?.

Investigación y transferencia de las ciencias sociales frente a un mundo en crisis. Manuel Bermúdez Vázquez, Alfonso

Chaves Montero,2022-07-18 La sociedad actual se sitúa en la era de la posmodernidad, donde se pone en duda y crea confusión de forma que conocer y creer la realidad actual es una situación muy complicada. Vivimos en continuas crisis sociales, económicas, políticas, bélicas, educativas, climáticas y sanitarias como la pandemia de la Covid-19. Los/as investigadores tienen mucho que decir ante los retos y crisis planteados en el siglo XXI, a través de la investigación entre las distintas disciplinas como la sociología, la antropología, la psicología, la filosofía, la comunicación, la educación, el trabajo social, la politología, la economía, etc.

Pax Neoliberalia Jules Falquet,2022-02-02 Ancorada nas reflexões feministas sobre a globalização e a dinâmica das relações sociais de sexagem, raça e classe, esta obra é um ensaio sobre o uso da coerção como método - e sobre o rol da violência contra as mulheres - para garantia de instalação do neoliberalismo global. A instrumentalização de uma violência aparentemente cega que, na realidade, é tanto controlada politicamente, quanto implacável, constitui o fio vermelho que vincula os quatro textos que compõem o livro. Aterrorizantes semelhanças entre a tortura política e a violência doméstica, em El Salvador na América central. A criação de uma classe de sexo masculina dos irmãos de armas, graças ao serviço militar na Turquia. Difusão das técnicas de guerra de baixa intensidade no México. E perpetuação neocolonial das violências contra as mulheres indígenas na Guatemala. Falquet tece distintos níveis de análise para fazer trabalhar juntas as perspectivas teórico-políticas que, geralmente, são mantidas separadas. Assim, ao revelar continuidades que vinculam a violência misógina aos métodos coercitivos militar-policiais, este trabalho expõe as profundas lógicas de gênero da governança global, aqui chamada, por meio de uma ironia, de Pax Neoliberalia.
