Molas Diana Marks, 2016-10-01 Molas, the distinctive blouses made and worn by Kuna women in Panama, are collected by thousands of enthusiasts as well as by anthropological museums all over the world. They are recognized everywhere as an identifier of the Kuna people and also of Panama. This book, based on original research, explores the origin of the mola in the early twentieth century, how it became part of the everyday dress of Kuna women, and its role in creating Kuna identity. Images drawn from more than twenty museums as well as private collections show the development of designs and techniques and highlight changes in the garment as an item of indigenous fashion. Applying an interdisciplinary approach—fusing historical, ethnographic, and material culture studies—author Diana Marks contributes to ongoing debates on cultural authenticity, the invention of traditions, and issues of gender and politics.

The English Convents in Exile, 1600-1800 James E. Kelly, 2017-07-28 In 1598, the first English convent was established in Brussels and was to be followed by a further 21 enclosed convents across Flanders and France with more than 4,000 women entering them over a 200-year period. In theory they were cut off from the outside world; however, in practice the nuns were not isolated and their contacts and networks spread widely, and their communal culture was sophisticated. Not only were the nuns influenced by continental intellectual culture but they in turn contributed to a developing English Catholic identity moulded by their experience in exile. During this time, these nuns and the Mary Ward sisters found outlets for female expression often unavailable to their secular counterparts, until the French Revolution and its associated violence forced the convents back to England. This interdisciplinary collection demonstrates the cultural importance of the English convents in exile from 1600 to 1800 and is the first collection to focus solely on the English convents.

Zamumo's Gifts Joseph M. Hall, Jr., 2012-05-26 In 1540, Zamumo, the chief of the Altamahs in central Georgia, exchanged gifts with the Spanish conquistador Hernando de Soto. With these gifts began two centuries of exchanges that bound American Indians and the Spanish, English, and French who colonized the region. Whether they gave gifts for diplomacy or traded commodities for profit, Natives and newcomers alike used the exchange of goods such as cloth, deerskin, muskets, and sometimes people as a way of securing their influence. Gifts and trade enabled early colonies to survive and later colonies to prosper. Conversely, they upset the social balance of chiefdoms like Zamumo's and promoted the rise of new and powerful Indian confederacies like the Creeks and the Choctaws. Drawing on archaeological studies, colonial documents from three empires, and Native oral histories, Joseph M. Hall, Jr., offers fresh insights into broad segments of southeastern colonial history, including the success of Florida's Franciscan missionaries before 1640 and the impact of the Indian slave trade on French Louisiana after 1699. He also shows how gifts and trade shaped the Yamasee War, which pitted a number of southeastern tribes against English South Carolina in 1715-17. The exchanges at the heart of *Zamumo's Gifts* highlight how the history of Europeans and Native Americans cannot be understood without each other.

The Archaeology of Politics Andrew M. Bauer, Peter G. Johanson, 2011-05-25 *The Archaeology of Politics* is a collection of essays that examines political action and practice in the past through studies and analyses of material culture from the perspective of anthropological archaeology. Contributors to this volume explore a variety of multi-scalar relationships between past peoples, places, objects and environments. At stake in this volume is what it is that constitutes politics, its social and cultural location, fields of analysis, its materiality and sociology and especially its position and possibilities as a conceptual and analytical category in archaeological investigations of past socio-cultural worlds. Our primary goals are twofold: the problematization and re-conceptualization of politics from its understanding as a reified essence or structure of political forms (e.g., a State) to a fluid, dynamic and culturally inflected set of practices; and, second, to consider politics' entanglement with the materiality of socio-cultural worlds at multiple-scales through the demonstration of innovative analytical approaches to the material record. The volume is a tightly integrated group of essays exploring an assortment of case studies that offer new theoretical insight to archaeological and historical analyses of politics.

Courting India Nandini Das,2023-04-04 A profound and ground-breaking approach to one of the most important encounters in the history of colonialism: the British arrival in India in the early seventeenth century. Traditional interpretations to the British Empire's emerging success and expansion has long overshadowed the deep uncertainty that marked its initial entanglement with India. In September 1615, Thomas Roe—Britain's first ambassador to the Mughal Empire—made landfall on the western coast of India. Roe entered the court of Jahangir, "conqueror of the world," one of immense wealth, power, and culture that looked askance at the representative of a precarious and distant island nation. Though London was at the height of the Renaissance—the era of Shakespeare, Jonson, and Donne—financial strife and fragile powerbases presented risk and uncertainty at every turn. What followed in India was a turning-point in history, a story of palace intrigue, scandal, and mutual incomprehension that unfolds as global trade begins to stretch from Russia to Virginia, from West Africa to the Spice Islands of Indonesia. Using an incisive blend of Indian and British records, and exploring the art, literature, sights, and sounds of Elizabethan London and Imperial India, Das portrays the nuances of cultural and national collision on an individual and human level. The result is a rich and radical challenge to our understanding of Britain and its early empire—and a cogent reminder of the dangers of distortion in the history books of the victors.

Apache Adaptation to Hispanic Rule Matthew Babcock,2016-09-26 As a definitive study of the poorly understood Apaches de paz, this book explains how war-weary, mutually suspicious Apaches and Spaniards negotiated an ambivalent compromise after 1786 that produced over four decades of uneasy peace across the region. In response to drought and military pressure, thousands of Apaches settled near Spanish presidios in a system of reservation-like establecimientos, or settlements, stretching from Laredo to Tucson. Far more significant than previously assumed, the establecimientos constituted the earliest and most extensive set of military-run reservations in the Americas and served as an important precedent for Indian reservations in the United States. As a case study of indigenous adaptation to imperial power on colonial frontiers and borderlands, this book reveals the importance of Apache-Hispanic diplomacy in reducing cross-cultural violence and the limits of indigenous acculturation and assimilation into empires and states.

Ambiguities and Tensions in English Language Teaching Peter Sayer,2012 The central theme of this book is the ambiguities and tensions teachers face as they attempt to position themselves in ways that legitimize them as language teachers, and as English speakers. Focusing on three EFL teachers and their schools in the southern Mexican state of Oaxaca, it documents how ordinary practices of language educators are shaped by their social context, and examines the

roles, identities, and ideologies that teachers create in order to navigate and negotiate their specific context. It is unique in bringing together several current theoretical and methodological developments in TESOL and applied linguistics: the performance of language ideologies and identities, critical TESOL pedagogy and research, and ethnographic methods in research on language learning and teaching. Balancing and blending descriptive reporting of the teachers and their contexts with a theoretical discussion which connects their local concerns and practices to broader issues in TESOL in international contexts, it allows readers to appreciate the subtle complexities that give rise to the tensions and ambiguities in EFL teachers' professional lives.

Bastions and Barbed Wire Tony Pollard, Iain Banks, 2009-04-15 Various papers on the archaeology of conflict, including battlefield archaeology. The main focus of the volume is confinement, as expressed by a wide variety of contexts. Most obviously these include Nazi concentration camps, which are in need of credible archaeological attention (the editorial points out the dangers of the misappropriation of archaeological and scientific techniques by Holocaust deniers). Other forms of confinement are examined in papers focussing on the archaeology of island defences and siege sites, with the sieges of Leith from 1650 and of Fort William from 1646 both recently being subject to archaeological investigation. Other contributions include a study of shell holes and field defences from the battle of the Bulge (1944).

Women, Food Exchange, and Governance in Early Modern England Madeline Bassnett, 2016-11-21 This book is about the relationship of food and food practices to discourses and depictions of domestic and political governance in early modern women's writing. It examines the texts of four elite women spanning approximately forty years: the Psalms of Mary Sidney Herbert, Countess of Pembroke; the maternal nursing pamphlet of Elizabeth Clinton, Dowager Countess of Lincoln; the diary of Margaret, Lady Hoby; and Mary Sidney, Lady Wroth's prose romance, *Urania*. It argues that we cannot gain a full picture of what food meant to the early modern English without looking at the works of women, who were the primary managers of household foodways. In examining food practices such as hospitality, gift exchange, and charity, this monograph demonstrates that women, no less than men, engaged with vital social, cultural and political processes.

The Power of Gifts Felicity Heal, 2014 Gifts are always with us: we use them positively to display affection and show gratitude for favours; we suspect that others give and accept them as *douceurs* and bribes. The gift also performed these roles in early modern English culture: and assumed a more significant role because networks of informal support and patronage were central to social and political behaviour. Favours, and their proper acknowledgement, were preoccupations of the age of Erasmus, Shakespeare, and Hobbes. As in modern society, giving and receiving was complex and full of the potential for social damage. 'Almost nothing', men of the Renaissance learned from that great classical guide to morality, Lucius Annaeus Seneca, 'is more disgraceful than the fact that we do not know how either to give or receive benefits'. The *Power of Gifts* is about those gifts and benefits - what they were, and how they were offered and received in the sixteenth and

seventeenth centuries. It shows that the mode of giving, as well as what was given, was crucial to social bonding and political success. The volume moves from a general consideration of the nature of the gift to an exploration of the politics of giving. In the latter chapters some of the well-known rituals of English court life - the New Year ceremony, royal progresses, diplomatic missions - are viewed through the prism of gift-exchange. Gifts to monarchs or their ministers could focus attention on the donor, those from the crown could offer some assurance of favour. These fundamentals remained the same throughout the century and a half before the Civil War, but the attitude of individual monarchs altered specific behaviour. Elizabeth expected to be wooed with gifts and dispensed benefits largely for service rendered, James I modelled giving as the largesse of the Renaissance prince, Charles I's gift-exchanges focused on the art collecting of his coterie. And always in both politics and the law courts there was the danger that gifts would be corroded, morphing from acceptable behaviour into bribes and corruption. The Power of Gifts explores prescriptive literature, pamphlets, correspondence, legal cases and financial records, to illuminate social attitudes and behaviour through a rich series of examples and case-studies.

It's Your Misfortune and None of My Own Richard White, 2015-02-16 A centerpiece of the New History of the American West, this book embodies the theme that, as succeeding groups have occupied the American West and shaped the land, they have done so without regard for present inhabitants. Like the cowboy herding the dogies, they have cared little about the cost their activities imposed on others; what has mattered is the immediate benefit they have derived from their transformation of the land. Drawing on a recent flowering of scholarship on the western environment, western gender relations, minority history, and urban and labor history, as well as on more traditional western sources, *It's Your Misfortune and None of My Own* is about the creation of the region rather than the vanishing of the frontier. Richard White tells how the various parts of the West—its distinct environments, its metropolitan areas and vast hinterlands, the various ethnic and racial groups and classes—are held together by a series of historical relationships that are developed over time. Widespread aridity and a common geographical location between the Missouri River and the Pacific Ocean would have provided but weak regional ties if other stronger relationships had not been created. A common dependence on the deferral government and common roots in a largely extractive and service-based economy were formative influences on western states and territories. A dual labor system based on race and the existence of minority groups with distinctive legal status have helped further define the region. Patterns of political participation and political organization have proved enduring. Together, these relationships among people, and between people and place, have made the West a historical creation and a distinctive region. From Europeans contact and subsequent Anglo-American conquest, through the civil-rights movement, the energy crisis, and the current reconstructing of the national and world economies, the West has remained a distinctive section in a much larger nation. In the American imagination the West still embodies possibilities inherent in the vastness and beauty of the place itself. But, Richard White explains, the possibilities many imagined for themselves have yielded to the possibilities

seized by others. Many who thought themselves cowboys have in the end turned out to be dogies.

Native and Spanish New Worlds Clay Mathers, Jeffrey M. Mitchem, Charles M. Haecker, 2013-04-18 Native and Spanish New Worlds brings together archaeological, ethnohistorical, and anthropological research from sixteenth-century contexts to illustrate interactions during the first century of Native-European contact in what is now the southern United States. The contributors examine the southwestern and southeastern United States and the connections between these regions and explain the global implications of entradas during this formative period in borderlands history.

Reciprocal Mobilities Mark Dizon, 2023-09-12 Throughout the eighteenth century, independent Indigenous people from the borderlands of the Philippines visited the centers of Spanish colonial rule in the archipelago. Their travels are the counternarratives to one-dimensional stories of Spanish conquest of, and Indigenous resistance in, interior frontiers. Indigenous inhabitants on the island of Luzon constantly moved about—visiting allies and launching raids—and thus shaped history in the process. Their mobility allows us to glimpse their agency in colonial interactions in the early modern period. The landscape contains the traces of how they moved as well as how they channeled and impeded mobility in the borderlands. Mark Dizon views the colonial interactions in Philippine borderlands through the lens of reciprocal mobilities. Spanish mobilities of conquests and conversions had their counterpart in Indigenous visits and ambushes. Colonial encounters were not isolated individual events but rather a connected web of approaches, rebuffs, rapprochements, and dispersals. They took place not only in the exploration of remote forests and mountains but also in conjunction with Indigenous travels to colonial cities like Manila. Indigenous people of the borderlands were not immobile, timeless actors; they created history in their wake as they journeyed through the borderlands and beyond.

Captives & Cousins (Volume 1 of 2) (EasyRead Large Bold Edition) ,

Justice in a New World Brian P Owensby, Richard J Ross, 2019-01-15 A historical and legal examination of the conflict and interplay between settler and indigenous laws in the New World As British and Iberian empires expanded across the New World, differing notions of justice and legality played out against one another as settlers and indigenous people sought to negotiate their relationship. In order for settlers and natives to learn from, maneuver, resist, or accommodate each other, they had to grasp something of each other's legal ideas and conceptions of justice. This ambitious volume advances our understanding of how natives and settlers in both the British and Iberian New World empires struggled to use the other's ideas of law and justice as a political, strategic, and moral resource. In so doing, indigenous people and settlers alike changed their own practices of law and dialogue about justice. Europeans and natives appealed to imperfect understandings of their interlocutors' notions of justice and advanced their own conceptions during workaday negotiations, disputes, and assertions of right. Settlers' and indigenous peoples' legal presuppositions shaped and sometimes misdirected their attempts to employ each other's law. Natives and settlers construed and misconstrued each other's legal commitments while learning

about them, never quite sure whether they were on solid ground. Chapters explore the problem of “legal intelligibility”: How and to what extent did settler law and its associated notions of justice become intelligible—tactically, technically and morally—to natives, and vice versa? To address this question, the volume offers a critical comparison between English and Iberian New World empires. Chapters probe such topics as treaty negotiations, land sales, and the corporate privileges of indigenous peoples. Ultimately, *Justice in a New World* offers both a deeper understanding of the transformation of notions of justice and law among settlers and indigenous people, and a dual comparative study of what it means for laws and moral codes to be legally intelligible.

Queenship and Counsel in Early Modern Europe Helen Matheson-Pollock, Joanne Paul, Catherine Fletcher, 2018-07-16
The discourse of political counsel in early modern Europe depended on the participation of men, as both counsellors and counselled. Women were often thought too irrational or imprudent to give or receive political advice—but they did in unprecedented numbers, as this volume shows. These essays trace the relationship between queenship and counsel through over three hundred years of history. Case studies span Europe, from Sweden and Poland-Lithuania via the Habsburg territories to England and France, and feature queens regnant, consort and regent, including Elizabeth I of England, Catherine Jagiellon of Sweden, Catherine de’ Medici and Anna of Denmark. They draw on a variety of innovative sources to recover evidence of queenly counsel, from treatises and letters to poetry, masques and architecture. For scholars of history, politics and literature in early modern Europe, this book enriches our understanding of royal women as political actors.
