Rosi Braidotti, Paul Gilroy

Behind the Beautiful Foreverers Katherine Boo, 2012-02-07 This enhanced eBook features exclusive video footage shot over the course of three years by the author and several children of the Annawadi slum. From Pulitzer Prize-winner Katherine Boo, a landmark work of narrative nonfiction that tells the dramatic and sometimes heartbreaking story of families striving toward a better life in one of the twenty-first century's great, unequal cities. In this brilliantly written, fast-paced book, based on three years of uncompromising reporting, a bewildering age of global change and inequality is made human. Annawadi is a makeshift settlement in the shadow of luxury hotels near the Mumbai airport, and as India starts to prosper, Annawadians are electric with hope. Abdul, a reflective and enterprising Muslim teenager, sees "a fortune beyond counting" in the recyclable garbage that richer people throw away. Asha, a woman of formidable wit and deep scars from a childhood in rural poverty, has identified an alternate route to the middle class: political corruption. With a little luck, her sensitive, beautiful daughter—Annawadi's "most-everything girl"—will soon become its first female college graduate. And even the poorest Annawadians, like Kalu, a fifteen-year-old scrap-metal thief, believe themselves inching closer to the good lives and good times they call "the full enjoy." But then Abdul the garbage sorter is falsely accused in a shocking tragedy; terror and a global recession rock the city; and suppressed tensions over religion, caste, sex, power and economic envy turn brutal. As the tenderest individual hopes intersect with the greatest global truths, the true contours of a competitive age are revealed. And so, too, are the imaginations and courage of the people of Annawadi. With intelligence, humor, and deep insight into what connects human beings to one another in an era of tumultuous change, *Behind the Beautiful Foreverers* carries the reader headlong into one of the twenty-first century's hidden worlds, and into the lives of people impossible to forget.

Representing Poverty in the Anglophone Postcolonial World Verena Jain-Warden,Barbara Schmidt-

Haberkamp,2021-06-07 Originally a concern primarily of social studies and economics, poverty has emerged as a significant thematic focus and analytical tool in literary and cultural studies in the last two decades. The new poverty studies are dedicated to analyzing representations of poverty and the poor in literature and the visual arts, in the news media and in social practices. They aim at exploring the frameworks of representation that impact the affective and ethical responses of audiences to disenfranchised groups such as the poor. The contributions to this volume focus on representations of poverty in the Anglophone postcolonial world, exploring, for example, contemporary discourses on poverty in the UK, filmic representations of Nairobi slums or the agency of the poor in literature from India.

Re-Inventing the Postcolonial (in the) Metropolis Cecile Sandten, Annika Bauer, 2016-09-27 The notion of the postcolonial metropolis has gained prominence in the last two decades both within and beyond postcolonial studies. Disciplines such as sociology and urban studies, however, have tended to focus on the economic inequalities, class disparities, and other structural and formative aspects of the postcolonial metropolises that are specific to Western conceptions of the city at large. It is only recently that the depiction of postcolonial metropolises has been addressed in the writings of Suketu Mehta, Chris Abani, Amit Chaudhuri, Salman Rushdie, Aravind Adiga, Helon Habila, Sefi Atta, and Zakes Mda, among others. Most of these works probe the urban specifics and physical and cultural topographies of postcolonial cities while highlighting their agential capacity to defy, appropriate, and abrogate the superimposition of theories of Western modernity and urbanism. These ASNEL Papers are all concerned with the idea of the postcolonial (in the) metropolis from various disciplinary viewpoints, as drawn from a great range of cityscapes (spread out over five continents). The essays explore, on the one hand, ideas of spatial subdivision and inequality, political repression, social discrimination, economic exploitation, and cultural alienation, and, on the other, the possibility of transforming, reinventing and reconfiguring the 'postcolonial condition' in and through literary texts and visual narratives. In this context, the volume covers a broad spectrum of theoretical and thematic approaches to postcolonial and metropolitan topographies and their depictions in writings from Australia and New Zealand, South Africa, South Asia, and greater Asia, as well as the UK, addressing issues such as modernity and market economies but also caste, class, and social and linguistic aspects. At the same time, they reflect on the postcolonial metropolis and postcolonialism in the metropolis by concentrating on an urban imaginary which turns on notions of spatial subdivision and inequality, political repression, social discrimination, economic exploitation, and cultural alienation – as the continuing 'postcolonial' condition.

The Political Origins of Inequality Simon Reid-Henry, 2015-12-08 This far-reaching study examines how political policies and paradigms have deepened global inequality, and how to reframe the debate to address it. Inequality is the defining issue of our time—one in which the global 1% now owns half the world's wealth. In this magisterial study, Simon Reid-Henry rewrites the story of globalization as one about the management of inequality. Reaching back to the eighteenth century, The Political Origins of Inequality foregrounds the political turning points and decisions behind the making of today's uneven societies. As it weaves together insights from the Victorian city to the Cold War, from US economic policy to Europe's present migration crisis, a true picture emerges of the structure of inequality itself. Reid-Henry shows that the problem of inequality cannot be resolved by the conventional arguments of left versus right. Modern political discourse has

no place for public reason or the common good. Yet, he argues, it is within our power to address this. To forge a better world, we must meet our political responsibilities to others, rather than simply offering the selective charity of the rich. We must think beyond economics and outside our national borders. But above all, we must reinvent the language of equality for a modern, global world.

Pursuing an Ethic of Empathy in Journalism Janet Blank-Libra, 2016-06-23 This book advances a journalistic theory of empathy, challenging long-held notions about how best to do journalism. Because the institution of journalism has typically equated empathy and compassion with bias, it has been slow to give the intelligence of the emotions a legitimate place in the reporting and writing process. Blank-Libra's work locates the point at which the vast, multidisciplinary research on empathy intersects with the work of the journalist, revealing a reality that has always been so: journalists practice empathy as a way to connect but also as a form of inquiry, as sincere and legitimate in its goals and aspirations as is objectivity.

Postcolonial Lack Gautam Basu Thakur, 2020-01-01 Postcolonial Lack reconvenes dialogue between Lacanian psychoanalysis and postcolonial theory in order to expand the range of cultural analyses of the former and make the latter theoretically relevant to the demands of contemporary narratives of othering, exclusion, and cultural appropriation. Seeking to resolve the mutual suspicion between the disciplines, Gautam Basu Thakur draws out the connections existing between Lacan's teachings on subjectivity and otherness and writings of postcolonial and decolonial theorists such as Gayatri Spivak, Frantz Fanon, and Homi Bhabha. By developing new readings of the marginalized other as radical impasse and pushing the envelope on neoliberal identity politics, the book moves postcolonial studies away from the perennial topic of identity and difference and into examining the form and function of the other as excess--surplus and/or lack--in colonial and postcolonial literature, film, and social discourse. Looking at writings by Mahasweta Devi, Amitav Ghosh, Leila Aboulela, Narayan Gangopadhyay, Katherine Boo, and films by Gillo Pontecorvo, Clint Eastwood, Ryan Coogler (Black Panther), and Tony Gatlif, Basu Thakur highlights a new set of ethical and political considerations emerging as a direct result of this shift and stakes a fundamental rethinking of postcoloniality through what he calls the politics of ontological discordance.

Conflicting Humanities Rosi Braidotti, Paul Gilroy, 2016-06-30 How might we reinvent the humanities? This is the question at the heart of this provocative volume. It is a difficult mission and definitely one which needs to be addressed with increasing urgency. There is no better cast to confront and problematize this question than the contributors to *Conflicting Humanities*. They are world-renowned thinkers who can tackle the problem as researchers and teachers but also as prominent public intellectuals. Taking the intellectual and political legacies of Edward Said as a point of departure and frame of reference, the contributors - working in a range of disciplinary settings - consider the current condition of humanism and the humanities. Said's definition of the core task of the Humanities as the pursuit of democratic criticism remains more urgent than ever, though it needs to be supplemented by gender, environmental, and anti-racist perspectives as well as by

detailed analysis of the necro-political governmentality of our time. An innovative piece of scholarship, this volume is committed to the refusal of a world riven by new kinds of warcraft, injustice and exploitation.

Beyond News Mitchell Stephens,2014-04-29 For a century and a half, journalists made a good business out of selling the latest news or selling ads next to that news. Now that news pours out of the Internet and our mobile devices—fast, abundant, and mostly free—that era is ending. Our best journalists, Mitchell Stephens argues, instead must offer original, challenging perspectives—not just slightly more thorough accounts of widely reported events. His book proposes a new standard: wisdom journalism, an amalgam of the more rarified forms of reporting—exclusive, enterprising, investigative—and informed, insightful, interpretive, explanatory, even opinionated takes on current events. This book features an original, sometimes critical examination of contemporary journalism, both on- and offline, and it finds inspiration for a more ambitious and effective understanding of journalism in examples from twenty-first-century articles and blogs, as well as in a selection of outstanding twentieth-century journalism and Benjamin Franklin's eighteenth-century writings. Most attempts to deal with journalism's current crisis emphasize technology. Stephens emphasizes mindsets and the need to rethink what journalism has been and might become.
