INFINITY ANDREA VARINI,2016-05-14 Every moment of life is aimed toward the infinite to complete the same instant after, more evolved first on a scale without first and second, at par, to infinity like a heart of emotions that remains in all to enrich the universe in his multitude of infinite of perhaps parallel, dimensions that overlap each, one to infinity of the other to give us those harmonies and nuances that are part of life.

Multi-Chaos, Fractal and Multi-Fractional Artificial Intelligence of Different Complex Systems Yeliz Karaca,Dumitru Baleanu,Yu-Dong Zhang,Osvaldo Gervasi,Majaz Moonis,2022-06-22 Multi-Chaos, Fractal and Multi-Fractional Artificial Intelligence of Different Complex Systems addresses different uncertain processes inherent in the complex systems, attempting to provide global and robust optimized solutions distinctively through multifarious methods, technical analyses, modeling, optimization processes, numerical simulations, case studies as well as applications including theoretical aspects of complexity. Foregrounding Multi-chaos, Fractal and Multi-fractional in the era of Artificial Intelligence (AI), the edited book deals with multi- chaos, fractal, multifractional, fractional calculus, fractional operators, quantum, wavelet, entropy-based applications, artificial intelligence, mathematics-informed and data driven processes aside from the means of modelling, and simulations for the solution of multifaceted problems characterized by nonlinearity, non-regularity and self-similarity, frequently encountered in different complex systems. The fundamental interacting components underlying complexity, complexity thinking, processes and theory along with computational processes and technologies, with machine learning as the core component of AI demonstrate the enabling of complex data to augment some critical human skills. Appealing to an interdisciplinary network of scientists and researchers to disseminate the theory and application in medicine, neurology, mathematics, physics, biology, chemistry, information theory, engineering, computer science, social sciences and other far-reaching domains, the overarching aim is to empower out-of-the-box thinking through multifarious methods, directed towards paradoxical situations, uncertain processes, chaotic, transient and nonlinear dynamics of complex systems. - Constructs and presents a multifarious approach for critical decision-making processes embodying paradoxes and uncertainty. - Includes a combination of theory and applications with regard to multi-chaos, fractal and multi-fractional as well as AI of different

complex systems and many-body systems. - Provides readers with a bridge between application of advanced computational mathematical methods and AI based on comprehensive analyses and broad theories.

Online Afterlives Davide Sisto, 2020-09-01 How digital technology--from Facebook tributes to QR codes on headstones--is changing our relationship to death. Facebook is the biggest cemetery in the world, with countless acres of cyberspace occupied by snapshots, videos, thoughts, and memories of people who have shared their last status updates. Modern society usually hides death from sight, as if it were a character flaw and not an ineluctable fact. But on Facebook and elsewhere on the internet, we can't avoid death; digital ghosts--electronic traces of the dead--appear at our click or touch. On the Internet at least, death has once again become a topic for public discourse. In *Online Afterlives*, Davide Sisto considers how digital technology is changing our relationship to death.

IL GRANDE NIDO che ha dato ORIGINE al BIG BANG DEI BUCHI NERI DI STEPHEN HAWKING IL GRANDE NIDO che ha dato ORIGINE al BIG BANG DEI BUCHI NERI DI STEPHEN HAWKING, 2014-02 Stephen Hawking avrebbe dovuto passare più tempo ad aiutare la scienza medica a risolvere i problemi, compreso il suo, anziché cercare buchi neri nelle profondità della sua mente brillante, criticando aspramente quella che lo ha creato. Il dramma che lo ha reso disabile avrebbe potuto spingerlo a usare la sua mente brillante per aiutare gli altri sulla terra, invece di cercare buchi neri e inseguire l'infinitesimo, lasciando che se ne occupino quelli che non sono in condizioni fisiche come la sua. Avrebbe potuto divertirsi con un telescopio a casa sua, come facevo io quando abitavo a Miami, North Miami Beach, e poi a Oakland Park, mentre lo scorrere del tempo scandiva la mia vita. A quanto ne so, l'orgoglio di essere l'uomo dei buchi neri non lo sta aiutando, perché avrebbe dovuto spiegarci come difenderci da questi mostri anti Dio. Se uno di loro va fuori orbita e ci viene addosso, lui e la sua famiglia diventano cibo per buchi neri, poiché non hanno un Dio che li difende. Questi divoratori della galassia terrorizzano angeli e demoni, e turbano i sogni dei bambini.

Border abolitionism Martina Tazzioli, 2023-07-11 Building on an abolitionist perspective, this book offers an essential critique of migration and border policies, unsettling the distinction between migrants and citizens. This is the only book that brings together carceral abolitionist debates and critical migration literature. It explores the multiplication of modes of migration confinement and detention in Europe, examining how these are justified in the name of migrants' protection. It argues that the collective memory of past struggles has partly informed current solidarity movements in support of migrants. A grounded critique of migration policies involves challenging the idea that migrants' rights go to the detriment of citizens. An abolitionist approach to borders entails situating the right to mobility as part of struggle for the commons.

Shakespeare Beyond English Susan Bennett, Christie Carson, 2013-08-29 What does it mean to perform Shakespeare in languages other than English and how do audiences respond?

The Thought Awaits Us All Daniela Calabrò, 2024-10-25 This volume shows how Nancy was able 'to deconstruct' the

founding sign of all metaphysics and all transcendence by redefining the concepts of existence, corporeality, and community, opening them up to the 'disclosure' of the outside, to the 'exception' of the world. It draws on the work of the Italian philosopher, Roberto Esposito and includes a dialogue between Nancy and Esposito. The overcoming of the modern perspective is covered by Descartes and Hegel, who are analyzed in light of Nancy. This text proposes a deconstruction of the Western tradition in its philosophical, aesthetic, and political registers and conveys a new ontology that breaks with the categories of the One and the Multiple, the Universal and the Particular, in order to identify the relationship between the plural and the singular and understand what it means to be together, to be in common, to be in the world. It is suitable for scholars, researchers, and students of philosophy and comparative literature.

Commun(ica)ting Bodies Anna-Katharina Höpflinger, Alexander D. Ornella, Stefanie Knauss, 2016-10-20 As a basic medium of human interaction, the body is fundamental to socio-cultural communication systems, in particular the communication system of religion. This innovative and ground-breaking volume studies these systems and the role that the body plays in their organization through the perspective of the concept of body as a medium and by drawing on media and communication theory.

Artista E Critico Pietro Ardito, 1880

Sarebbe stato bello se.... Filiberto Antonelli, 2014-08-31 L'Autore ricostruisce la sua nascita e gli avvenimenti della sua infanzia in base alle testimonianze dei familiari inquadrando gli eventi in un contesto storico reale. Esamina le origini del Borgo dove è nato, le vicende dei suoi antenati che seguendo le aspirazioni di Francesco e dei suoi due figli, Amerigo e Santi, vi si trasferirono dando inizio alle due discendenze. Si interessa degli avvenimenti che riguardano suo nonno Santi e suo padre, occupandosi degli altri solo marginalmente, quando le vicende si intersecheranno. Ma il principale obiettivo di queste memorie, alla luce degli avvenimenti narrati, è quello di rendere giustizia all'impegno profuso in ogni occasione della sua vita, alla correttezza del comportamento. Inoltre intende dimostrare come i desideri e la volontà di alcuni, ma soprattutto la falsità e l'egoismo di altri abbiano determinato condizioni sfavorevoli per se e per la sua famiglia pregiudicandone ogni risorsa futura.

Children in Antiquity Lesley A. Beaumont, Matthew Dillon, Nicola Harrington, 2020-12-30 This collection employs a multi-disciplinary approach treating ancient childhood in a holistic manner according to diachronic, regional and thematic perspectives. This multi-disciplinary approach encompasses classical studies, Egyptology, ancient history and the broad spectrum of archaeology, including iconography and bioarchaeology. With a chronological range of the Bronze Age to Byzantium and regional coverage of Egypt, Greece, and Italy this is the largest survey of childhood yet undertaken for the ancient world. Within this chronological and regional framework both the social construction of childhood and the child's life experience are explored through the key topics of the definition of childhood, daily life, religion and ritual, death, and the

information provided by bioarchaeology. No other volume to date provides such a comprehensive, systematic and cross-cultural study of childhood in the ancient Mediterranean world. In particular, its focus on the identification of society-specific definitions of childhood and the incorporation of the bioarchaeological perspective makes this work a unique and innovative study. *Children in Antiquity* provides an invaluable and unrivalled resource for anyone working on all aspects of the lives and deaths of children in the ancient Mediterranean world.

Convivial Futures Frank Adloff, Alain Caillé, 2022-04-20 What steps are needed to make life better and more convivial? The Second Convivialist Manifesto (2020) has presented a short diagnosis of the current crises and sketches of a possible and desirable future. It has been a necessary work of theoretical synthesis, but preserving a viable world also requires passion. It is thus urgent to show what people would gain from a shift to a post-neoliberal and post-growth convivialist future. This volume includes a theoretical debate on convivialism which reflects dystopias and shows the multiple and major obstacles that convivialism will have to face. Mainly, however, the contributors to this volume create sketches of a convivial future and collect accounts of another future world which is attractive for as many as possible.

Multidisciplinary Aspects of Design Francesca Zanella, Giampiero Bosoni, Elisabetta Di Stefano, Gioia Laura Iannilli, Giovanni Matteucci, Rita Messori, Raffaella Trocchianesi, 2023-12-30 This open access book gathers the contributions from the Design! OPEN International Conference, held in Parma, Italy in May 2022. The conference explored the multidisciplinary aspects of design starting from its dimensions: objects (design as focused on the object, on its functional and symbolic dimension, and at the same time on the object as a tool for representing cultures), processes (the designer's self-reflective moment which is focused on the analysis and on the definition of processes in various contexts, spanning innovation, social engagement, reflection on emergencies or forecasting), experiences (design as a theoretical and practical strategy aimed at facilitating experiential interactions among people, people and objects or environments), and narratives (making history, representing through different media, archiving, narrating, and exhibiting design). The contributions, which were selected by means of a rigorous international peer-review process, highlight numerous exciting ideas that will spur novel research directions and foster multidisciplinary collaboration among different specialists.
