Ski Films Bryan Senn,2022-05-02 Skiing in movies, like the sport itself, grew more prevalent beginning in the 1930s, when it was a pastime of the elite, with depictions reflecting changes in technique, fashion and social climate. World War II saw skiing featured in a dozen films dealing with that conflict. Fueled by postwar prosperity, the sport exploded in the 1950s--filmmakers followed suit, using scenes on snow-covered slopes for panoramic beauty and the thrill of the chase. Through the free-spirited 1960s and 1970s, the downhill lifestyle shushed into everything from spy thrillers to beach party romps. The extreme sports era of the 1980s and 1990s brought snowboarding to the big screen. This first ever critical history of skiing in film chronicles a century of alpine cinema, with production information and stories and quotes from directors, actors and stuntmen.

The Collected Works of W.B. Yeats Volume IV: Early Essays William Butler Yeats,Richard J. Finneran,George Bornstein,2007-03-06 *The Collected Works of W. B. Yeats, Volume IV: Early Essays* is part of a fourteen-volume series under the general editorship of eminent Yeats scholars George Bornstein and George Mills Harper. These volumes include virtually all of the Nobel laureate's published work, in authoritative texts with extensive explanatory notes. *Early Essays*, edited by the internationally esteemed Yeats scholars George Bornstein and the late Richard J. Finneran, includes the contents of the two most important collections of Yeats's critical prose, *Ideas of Good and Evil*(1903) and *The Cutting of an Agate*(1912, 1919). Among the seminal essays are considerations of Blake, Shakespeare, Shelley, Spenser, and Synge, as well as an extended discussion of the Japanese Noh theatre. The first scholarly edition of these materials, *Early Essays* offers a corrected text and detailed annotation of all allusions. Several appendices gather materials from early printings which were later excluded, as well as illuminating black-and-white illustrations. *Early Essays* is an essential sourcebook for understanding Yeats's career as both writer and literary critic, and for the development of modern poetry and criticism. Here, Yeats works out many of his key ideas on poetry, politics, and the theater. He gives interpretations of writers critical to his development and presents a compelling vision of Ireland and the modern world during the last decade of the nineteenth century and first two decades of the twentieth. As T. S. Eliot remarked, Yeats was one of those few whose history is the history of their own time, who are a part of the consciousness of an age which cannot be understood without them. This volume displays a crucial part of that history.

Horizon Chasers Gerry Max, 2007-03-07 Richard Halliburton was the quintessential world traveler of the early 20th century. In 1930, his celebrity equaled that of Charles Lindbergh and Amelia Earhart. Halliburton called himself a horizon chaser and recommended that one should see the world before committing to a routine. Not only did he live up to his ideal, but he was eager to write about his adventures. A prolific partnership with gifted editor and ghost writer Paul Mooney produced excellent work, and theirs became a close personal relationship. Sadly, Halliburton and Mooney disappeared at sea on March 24, 1939, along with the entire crew of Halliburton's Chinese junk Sea Dragon, as they attempted to cross the Pacific from Hong Kong to the San Francisco World's Fair. This biography records the life and adventures of Halliburton and Mooney, focusing--as no other Halliburton biography has--on the productive literary collaboration between the two. Drawing on the recollections of people who knew them both, the work discusses their backgrounds, the early years of their acquaintance, and their possible romantic relationship. Finally, their fateful journey to Hong Kong and the ill-advised voyage of the Sea Dragon is described in detail. A good deal of first-hand evidence is provided by William Alexander, Paul Mooney's best friend and designer of Halliburton's Laguna Beach house. Appendices contain seven poems by Mooney and facsimile letters, including one of praise written by Richard Halliburton to William Alexander. Never-before-published photographs are also included.

Victoria & Abdul Lee Hall, 2017-10-03 Victoria & Abdul tells the extraordinary true story of Queen Victoria's relationship with Abdul Karim, her Muslim manservant, who travelled from India to present a ceremonial medal as part of the Queen's Golden Jubilee but within months became her personal teacher of Urdu and dedicated spiritual advisor. The unprecedented and unlikely friendship caused meltdown within the royal household, the ensuing battle royale pitting the Queen against the court and her entire family. Through the prism of a highly unusual love story, Lee Hall's *Victoria & Abdul*, based on the book by Shrabani Basu, explores race, religion, power and the farce of empire through the prism of a highly unusual love story.

The Passing of Arthur Christopher Baswell, William Sharpe, 2014-08-13 Originally published in 1988, this volume contains papers from, and commissioned after, *The Passing of Arthur*, a conference on Medieval and Renaissance Studies in November 1986. No Arthurian story is experienced without some foreknowledge of its end, which the text acknowledges through a complex range of methods. This collection takes this as its point of origin, suggesting that all such narratives concern the passing of Arthur, even indirectly, so the chapters not only look at the death of Arthur but the passing on and development of the Arthurian literature. The figure of Arthur and the Round Table continues to fascinate contemporary readers. This interesting collection presents a wide range of Arthurian studies approaches representing some of the vast

scholarship on the genre.

The Checkmate Formula Alan Sellers, 2016-01-26 This extraordinary book presents the powerful results of thirty years of observing and evaluating real-world success patterns of billionaires & visionaries. It unravels the intriguing mystery of how grandmasters in business achieve success, and presents a novel and compelling way to perceive the world of business. After reading it you may never view or approach business quite the same way again. THE CHECKMATE FORMULA answers two questions: what are the essential factors in business that dictate success or failure, and how do serial winners win consistently? Revealing a pragmatic roadmap used by the greatest business minds, it shows how to perceive reality differently through techniques like The Great Awareness, think differently through approaches like The Great Enabler, and act differently using the greatest force multiplier of all -- The Decryption Key. It simplifies & deconstructs business into understandable truths, and reassembles them into practical guidelines for creative thinking and result-generation. You'll learn how to address major issues like capital raises, strategy and the customer acceptance riddle, and what it really means to understand the big picture -- with a generous dose of examples and insights from the business elite (including colorful analogies to chess and art). It's an engaging read that will benefit entrepreneurs & executives wanting to "up" their game, and founders wanting to beat the odds.

Eternal Shadows or Shadow Makers Fr. Steve Peterson OSJ, 2012-07 Everything in our solar system casts a shadow. The Earth, the moon, and the planets cast a shadow. The only thing that does not cast a shadow is the sun. The sun shines its light on one half of the planets, while the other half is in the shade of its own shadow. All living and non-living things expose only half of themselves to the light of the sun. Their other half remains in its shadow. Plants and animals are born with a shadow, live with a shadow, and must die with a shadow. Man is born with a shadow; however, he does not have to live and die with a shadow like the rest of the living creatures. He can choose to stay confined within the shadows of earthly things or go beyond the shadows to become something like the sun. But this quest takes a little something extra than most ordinary men seem to look for or even believe is possible to achieve. Early on in childhood, Fr. Peterson wanted to fly. Little did he know that his innocent desire to fly was an extraordinary, shadowless thing called prayer. A real and very extraordinary ear heard his plea. So God's heart, the only one in nature who produces no shadow, was moved to help show him how to go beyond the shadows of worldly things, frightful things, and even deadly things.

Modernist Mysteries: Persephone Tamara Levitz, 2012-08-15 Modernist Mysteries: Perséphone is a landmark study that will move the field of musicology in important new directions. The book presents a microhistorical analysis of the premiere of the melodrama Perséphone at the Paris Opera on April 30th, 1934, engaging with the collaborative, transnational nature of the production. Author Tamara Levitz demonstrates how these collaborators-- Igor Stravinsky, André Gide, Jacques Copeau, and Ida Rubinstein, among others--used the myth of Persephone to perform and articulate their most deeply held beliefs about four topics significant to modernism: religion, sexuality, death, and historical memory in art. In investigating the aesthetic and political consequences of the artists' diverging perspectives, and the fall-out of their titanic clash on the theater stage, Levitz dismantles myths about neoclassicism as a musical style. The result is a revisionary account of modernism in music in the 1930s. As a result of its focus on the collaborative performance, this book differs from traditional accounts of musical modernism and neoclassicism in several ways. First and foremost, it centers on the performance of modernism, highlighting the theatrical, performative, and sensual. Levitz places Christianity in the center of the discussion, and questions the national distinctions common in modernist research by involving a transnational team of collaborators. She further breaks new ground in shifting the focus from history to memory by emphasizing the commemorative nature of neoclassic listening rituals over the historicist stylization of its scores, and contends that modernists captured on stage and in philosophical argument their simultaneous need and inability to mourn the past. The book as a whole counters the common criticism that neoclassicism was a reactionary musical style by suggesting a more pluralistic, ambivalent, and sometimes even progressive politics, and reconnects musical neoclassicism with a queer classicist tradition extending from Winckelmann through Walter Pater to Gide. Modernist Mysteries concludes that 1930s modernists understood neoclassicism not as formalist compositional approaches but rather as a vitalist art haunted by ghosts of the past and promissory visions of the future.
