There is no other translation or commentary of the Holy Qur'an in the English Language to compete with Maulvi Muhammad Ali's Masterpiece. -- Al-Haj Hafiz Ghulam Sarwar, translator of the Holy Qur'an To deny the excellence of Maulvi Muhammad Ali's translation, the influence for good it has exercised and its proselytizing utility would be to deny the existence of the light of the sun. -- Maulana Abdul Majid Daryabadi, leader of Orthodox Muslim opinion in India) ...has all the merits of what is desired in a translation. -- The Anjuman Himayat-e-Islam, Lahore, Pakistan ...By far the best text currently available in the English language...incontestably one of the finest interpretations of the sacred scripture of Islam. I have no hesitation whatsoever in recommending this translation to students and others seeking to understand the essence and epitome of the Quranic message. -- Prof. T. Hargery, Director, African Studies, Northeast Missouri State University, Kirksville ...an austere faithful translation in English...based on a close study of commentaries of the Qur'an - the work of my learned name-sake Maulvi Muhammad Ali of Lahore...The translation and the notes...all demonstrate the labour of love and devoted zeal. -- Late Maulana Muhammad Ali Jauhar of The Comrade It is certainly a work of which any scholar might legitimately be proud. -- The Quest, London

*The Qur'an Explained in Layman's Language* P. Jainulabdeen, 2023-07-25 This book offers explanations to misconceived notions in the minds of some people about verses, words and phrases of the Quran. An essential clear understanding is imperative to imbibe the ideologies propounded by the authors and rightful owners of books containing the said ideology. Here the ideology known as Islam has its author as 'The Creator' and His prophets, any misunderstanding and misconceptions about the contents of the book by men would lead them to a disastrous end in their hereafter life. This compilation of explanations for the words, phrases and verses of the Quran by the Tamil Islamic Scholar widely known as PJ is unique and challenges some preconceived, ill-conceived notions of established, traditional thinking deeply seated in the minds of Muslims all over the world, and in Tamil Muslims in particular. May the Almighty bless all those who are rightly guided by him.

**An African Worldview** Ian D. Dicks,2012 In this book Ian Dicks informs the reader about the ways in which the Yawo of Malawi view the world. The Yawo are predominantly Muslim, yet many maintain strong links with their traditional religion. They are a largely oral society, teaching and reinforcing their beliefs and practices using oral literature, which includes myths, proverbs, proverbial stories, songs of advice and prayers at various stages of the life cycle, particularly during initiation events. Ian Dicks describes in detail the Yawo's material world, customs, beliefs and rituals, and juxtaposes these

with Yawo oral literature. He then examines them under six worldview categories, the result being a rich description of the way in which the Yawo see the world. This book is not an armchair study but has the feel of being written by an eyewitness, by someone who has had first-hand experience of the subject and who seeks to describe this in a manner which is sensitive to the Yawo and their culture.

**Entangled Itineraries** Pamela H. Smith,2019-05-22 Trade flowed across Eurasia, around the Indian Ocean, and over the Mediterranean for millennia, but in the early modern period, larger parts of the globe became connected through these established trade routes. Knowledge, embodied in various people, materials, texts, objects, and practices, also moved and came together along these routes in hubs of exchange where different social and cultural groups intersected and interacted. Entangled Itineraries traces this movement of knowledge across the Eurasian continent from the early years of the Common Era to the nineteenth century, following local goods, techniques, tools, and writings as they traveled and transformed into new material and intellectual objects and ways of knowing. Focusing on nonlinear trajectories of knowledge in motion, this volume follows itineraries that weaved in and out of busy, crowded cosmopolitan cities in China; in the trade hubs of Kucha and Malacca; and in centers of Arabic scholarship, such as Rey and Baghdad, which resonated in Bursa, Assam, and even as far as southern France. Contributors explore the many ways in which materials, practices, and knowledge systems were transformed and codified as they converged, swelled, at times disappeared, and often reemerged anew.

The Anthropology of Infectious Disease Peter J. Brown,Marcia C. Inhorn,2013-11-05 Anthropological contributions to the

study of infectious disease and to the study of actual infectious disease eradication programmes have rarely been collected in one volume. In the era of AIDS and the global resurgence of infectious diseases such as tuberculosis and malaria, there is widespread interest and concern about the cultural, ecological and political factors that are directly related to the increased prevalence of infectious disease. In this book, the authors have assembled the growing scholarship in one volume. Chapters explore the coevolution of genes and cultural traits; the cultural construction of 'disease' and how these models influence health-seeking behaviour; cultural adaptive strategies to infectious disease problems; the ways in which ethnography sheds light on epidemiological patterns of infectious disease; the practical and ethical dilemmas that anthropologists face by participating in infectious disease programmes; and the political ecology of infectious disease.
