Readicide Kelly Gallagher,2023-10-10 Read-i-cide: The systematic killing of the love of reading, often exacerbated by the inane, mind-numbing practices found in schools. Reading is dying in our schools. Educators are familiar with many of the factors that have contributed to the decline, poverty, second-language issues, and the ever-expanding choices of electronic entertainment. In this provocative book *Readicide: How Schools are Killing Reading and What You Can Do About It* , author and teacher Kelly Gallagher suggests it is time to recognize a new and significant contributor to the death of reading: our schools. *Readicide* , Gallagher argues that American schools are actively (though unwittingly) furthering the decline of reading. Specifically, he contends that the standard instructional practices used in most schools are killing reading by:Valuing standardized testing over the development of lifelong readersMandating breadth over depth in instructionRequiring students to read difficult texts without proper instructional support and insisting students focus on academic textsIgnoring the importance of developing recreational readingLosing sight of authentic instruction in the looming shadow of political pressures*Readicide* provides teachers, literacy coaches, and administrators with specific steps to reverse the downward spiral in reading-;steps that will help prevent the loss of another generation of readers.

The Novel Michael Schmidt,2014-05-12 The 700-year history of the novel in English defies straightforward telling. Encompassing a range of genres, it is geographically and culturally boundless and influenced by great novelists working in other languages. Michael Schmidt, choosing as his travel companions not critics or theorists but other novelists, does full justice to its complexity.

Adventures in an Alternative Reality of Living in Louisiana Jim Brown, 2008 Jim Brown has a lot to say. His first book, JUSTICE DENIED, painted a chilling picture of how easy it can be for an individual to be prosecuted and persecuted by the federal judicial system. Since this first publication, he has continued his writings with a weekly column that is widely read in newspapers and internet sites throughout the South. Few southern writers have observed the struggles within Louisiana to catch up with other more progressive states throughout the country. That is because Jim Brown not only has witnessed the changes taking place, he was a part of the political process for twenty eight years. His insights bring practical wisdom for the present and a vision of what could be in the future for this deepest of the deep southern states. His observations and conclusions in are not just limited to within Louisiana. And that is the joy of this collection of columns. Jim Brown takes the reader on a whirlwind tour of the world from Bangkok to Paris, from the D Day landing site in France to St Paul's cathedral in London, and a drive across America all with a Louisiana flavor. And yes, he does have an agenda. Whether you read his opinions on political issues and current affairs to personal revelations, there will never be any doubt of Jim Brown's point of view. And that, we hope you will agree, is refreshing in this day and time. But besides being a respected observer of the political scene in Louisiana, Jim Brown's ideas are what really matter. Yes, he entertains, inspires, and informs, and does so by cutting through the fog of confusion as to the future of the Bayou State. His lessons have appeal and application throughout America, and that is why his following continues to grow.

East Texas Nan's Favorite 1,000 Quotes on Inspiration, Wisdom, Humor, Texas & More Susan G.

Davis, 2019-12-13 East Texas Nan's Favorite 1,000 Quotes on Inspiration, Wisdom, Humor, Texas & More By: Susan G. Davis In 1995 Susan G. Davis (Nan is what Susan's 5 year old grandson called her) 5 year old grandson Clint gave her a journal for Christmas. He suggested "why don't you put all of those quotes you're collecting in that old notebook in this journal" So for 20 years Davis filled her journal. When Clint came home on leave from the Air Force and asked her about the journal, he was surprised that she had accumulated enough information to fill the entire journal! It was he who suggested she put together her collection and create this book for everyone to enjoy. Within the pages of East Texas Nan's Favorite 1,000 Quotes on Inspiration, Wisdom, Humor, Texas & More, Davis hopes that anyone can walk away with something that will enrich their daily lives. Whether it be a ray of optimism, an answered question, inspiration when they need to be uplifted or when they need their funny bone tickled or and animal anecdote to tug at their heart strings or some Texas tidbit. This little book has something for everyone and can be read over and over.

SHARDS Lawrence Terlizzese, 2021-03-19 Shards: Fragments of Mind presents a collection of aphorisms, epigrams, terse journal entries, notes, short vignettes, and pity statements, as well as longer segments, such as unpublished papers, blog posts, and essays meant to enlighten the reader and inspire the ability to think; none of these minutes are meant to be exhaustive, although no linear organization enforces itself on the text comprehensive themes will be discovered through

comparable reading. Each entry stands alone and is presented in no particular order. I cover topics as varied as Extra Terrestrials and Christianity, cell phones, and Just War Criteria. The reader may start at any point from beginning to end or randomly, and various and sundry topics will begin to take shape in a comprehensive whole. The numbering system in this book is an attempt to impose some logical order and easy reference on an otherwise fragmented text. However, this is not unlike the way students learn through the online medium when looking up relevant subjects in short informational bursts proceeding in rapid-fire succession. I take as my literary examples the writing of Pascal in *Pensées* and Nietzsche's *Twilight of the Idols*. Although I don't pretend to be as sublime as they were, I do use their format as a template for this book.

Mastering Life William L. Carlo, 2011-08-25 'Recent studies show that people will not undertake a new activity even if there is a chance of difficulties, they will not start it. We all learned to walk and we had to fall down a bunch of times until we got it right, life is like that, too; we have to learn to recognize that and apply it to daily life. This book is going to be a ?parent? to you, encouraging you to take the next step, saying, ?Take the next step! You can do it! ?90 percent of mankind fears change; men's brains are actually hard-wired for it and modern men deny this fact. From the early days of human history men had to search out for the food and meat, they'd be gone for weeks or even months on end hunting, they were also exploring for better places to live. Thaddeus von Bellingshausen - from 1819 and 1821, Bellingshausen, Russian Navy Captain, circumnavigated of the Antarctic continent with two ships. He sailed the Southern Ocean completing the voyage in a body of water that now has his name, it is called the Bellingshausen Sea. At this time he discovered Peter I Island, too. In 1911 R. F. Scott - Explored the South Pole and said, ?Great God, what is this awful place!? When undertaking new endeavors we have to take the good with the bad; remember we live in a positive expanding universe, we're born to be successful. We

only have to get out of our own way and achieve what we want. ?Mankind needs to face their fear, and do it anyway. If you wish to achieve something and it appears threatening, investigate it, find out the facts, and get started on it!? Di Carlo concludes. As soon as the cover of this book is cracked, one can see the great men through history that Di Carlo has called upon to assist him with his understanding of goal reaching. Take advantage of this book and apply it to your daily life!
