Diccionario visual de arquitectura Francis D.K. Ching,2016-06-01 La extensa y reconocida aportación de Francis D. K. Ching al mundo del dibujo arquitectónico sería incompleta si el célebre maestro no hubiera hecho una incursión en el ámbito de los diccionarios visuales. Este volumen nos brinda precisamente su particular contribución al universo de la terminología arquitectónica y, alejándose de los diccionarios alfabéticos al uso, Ching compone un diccionario visual sistemático que reúne más de 7.000 definiciones organizadas en 66 conceptos básicos del diseño arquitectónico. El resultado es una amplia panorámica gráfica y conceptual de la terminología del ámbito de la arquitectura y de las interrelaciones que se establecen entre los términos. Al final del volumen, el diccionario incorpora asimismo la lista alfabética en español de los términos definidos, así como su traducción al inglés y viceversa, de manera que el lector podrá realizar consultas de términos precisos también por orden alfabético. Un diccionario fundamental, ya clásico, de los ámbitos de la arquitectura y la construcción.

HORMIGO ARMADO:COLUMNAS (tapas en stock + cosido) Jorge Raúl Bernal,2005

Nunca subas a un bus amarillo Nando Suarez,2020-02-21 En estas historias los protagonistas se pierden, deambulan, se contemplan vivir... A menudo se duermen. Todos coinciden en impulsar, a ciegas, el movimiento hacia una caída. Atmósferas inquietantes, existencias abruptas en las que el absurdo o la locura parecen formas premeditadas de fuga. La risa y la melancolía, dos caras de la misma medalla. El autor juega con sus propios fantasmas, haciéndolos habitar lo concreto sin privarnos del necesario impacto de lo invisible.\r\n\r\nC.
