**Immaculate Forms** Helen King, 2024-09-05 'Delightful, timely and critical' Cat Bohannon 'Expertly weaves science, history and culture to illuminate the most misunderstood parts of our bodies' Dr Jennifer Gunter Throughout history, religious scholars, medical men and - occasionally - women themselves, have moulded thought on what 'makes' a woman. She has been called the weaker sex, the fairer sex, the purer sex, among many other monikers. Often, she has been defined simply as 'Not A Man'. Today, we are more aware than ever of the complex relationship between our bodies and our identities. But contrary to what some may believe, what makes a woman is a question that has always been open-ended. Immaculate Forms examines all the ways in which medicine and religion have played a gatekeeping role over women's organs. It explores how the womb was seen as both the most miraculous organ in the body and as a sewer; uncovers breasts' legacies as maternal or sexual organs - or both; probes the mystery of the disappearing hymen, and asks, did the clitoris need to be discovered at all?

**Breast Feeding and Sexuality** Mara Mabilia, 2005 Any violation of cultural norms, particularly those dealing with sexual behaviour, marriage and reproduction, can, in the eyes of the Gogo, put at risk the correct development of an infant with serious consequences both for the baby's health and for the woman's image as mother and wife.--BOOK JACKET.

**Breastfeeding and Media** Katherine A. Foss, 2017-06-14 This book centers on the role of media in shaping public perceptions of breastfeeding. Drawing from magazines, doctors' office materials, parenting books, television, websites, and other media outlets, Katherine A. Foss explores how historical and contemporary media often undermine breastfeeding efforts with formula marketing and narrow portrayals of nursing women and their experiences. Foss argues that the media's messages play an integral role in setting the standard of public knowledge and attitudes toward breastfeeding, as she traces shifting public perceptions of breastfeeding and their corresponding media constructions from the development of commercial formula through contemporary times. This analysis demonstrates how attributions of blame have negatively impacted public health approaches to breastfeeding, thus confronting the misperception that breastfeeding, and the failure to breastfeed, rests solely on the responsibility of an individual mother.

Stories of Oprah Trystan T. Cotton, Kimberly Springer, 2010-06-30 Stories of Oprah is a collection of essays that explores Oprah Winfrey's broad reach as an industry and media brand. Contributors analyze a number of topics touching on the ways

in which her cultural output shapes contemporary America. The volume examines how Oprah has fashioned a persona—which emphasizes her rural, poverty-stricken roots over other factors—that helps her popularize her unique blend of New Age spirituality, neoliberal politics, and African American preaching. She packages New Age spirituality through the rhetoric of race, gender, and the black preacher tradition. Oprah's Book Club has reshaped literary publishing, bringing Toni Morrison, William Faulkner, and Cormac McCarthy to a broad number of readers. Her brand extends worldwide through the internet. In this volume writers analyze her positions on teen sexuality, gender, race, and politics, and the impact of Winfrey's confessional mode on mainstream television news. The book also addresses twenty-first-century issues, showing Winfrey's influence on how Americans and Europeans responded to 9/11, and how Harpo Productions created a deracialized film adaptation of Zora Neale Hurston's classic novel *Their Eyes Were Watching God* in 2005. Throughout, *Stories of Oprah* challenges readers to reflect on how Oprah the Industry has reshaped America's culture, history, and politics.

Bodily Fluids in Antiquity Mark Bradley, Victoria Leonard, Laurence Totelin, 2021-04-26 From ancient Egypt to Imperial Rome, from Greek medicine to early Christianity, this volume examines how human bodily fluids influenced ideas about gender, sexuality, politics, emotions, and morality, and how those ideas shaped later European thought. Comprising 24 chapters across seven key themes—language, gender, eroticism, nutrition, dissolution, death, and afterlife—this volume investigates bodily fluids in the context of the current sensory turn. It asks fundamental questions about physicality and fluidity: how were bodily fluids categorised and differentiated? How were fluids trapped inside the body perceived, and how did this perception alter when those fluids were externalised? Do ancient approaches complement or challenge our modern sensibilities about bodily fluids? How were religious practices influenced by attitudes towards bodily fluids, and how did religious authorities attempt to regulate or restrict their appearance? Why were some fluids taboo, and others cherished? In what ways were bodily fluids gendered? Offering a range of scholarly approaches and voices, this volume explores how ideas about the body and the fluids it contained and externalised are culturally conditioned and ideologically determined. The analysis encompasses the key geographic centres of the ancient Mediterranean basin, including Greece, Rome, Byzantium, and Egypt. By taking a *longue durée* perspective across a richly intertwined set of territories, this collection is the first to provide a comprehensive, wide-ranging study of bodily fluids in the ancient world. *Bodily Fluids in Antiquity* will be of particular interest to academic readers working in the fields of classics and its reception, archaeology, anthropology, and ancient to Early Modern history. It will also appeal to more general readers with an interest in the history of the body and history of medicine. Chapter 10 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

Part-Time Perverts Lauren Rosewarne, 2011-04-19 This book offers an erudite yet highly accessible exploration of the

presence of sexual perversion in popular culture and its manifestation in everyday life. An interdisciplinary exploration of sexual perversion in everyday life, *Part-Time Perverts: Sex, Pop Culture, and Kink Management* starts from the premise that, for better or worse, everyone is exposed to a continual barrage of representations of sexual perversion, both subliminal and overt. Our involvement, Dr. Lauren Rosewarne contends, is universal, but our management strategies cover a spectrum of behavioral possibilities from total repression to total immersion. It is those strategies that she examines here. Drawing on her own experience, as well as on pop culture and a multidisciplinary mix of theory, Rosewarne shifts the discussion of perversion away from the traditional psychological and psychiatric focus and instead explores it through a feminist lens as a social issue that affects everyone. Her book examines representations of perversion—from suppression to dabbling to full-body immersion—and proposes a classification for perversion management, and charts the diverse strategies we use to manage, and perhaps enjoy, exposure.

**Breastfeeding and Human Lactation** Jan Riordan, Karen Wambach, 2010-11-15 The Fourth Edition has been completely revised and updated to reflect the worldwide expansion of the lactation specialist role. New content on obstetrical issues, especially the importance of skin-to-skin care has been added and important concepts discussed in chapters are summarized at the end of each chapter. Key features throughout include key concepts, internet resources, evidence-based tables and boxes.

**Breastfeeding and Mothering in Antiquity and Early Byzantium** Stavroula Constantinou, Aspasia Skouroumouni-Stavrinou, 2023-09-29 This volume offers the first comparative, interdisciplinary, and intercultural examination of the lactating woman – biological mother and othermother – in antiquity and early Byzantium. Adopting methodologies and knowledge deriving from a variety of disciplines, the volume's contributors investigate the close interrelationship between a woman and her lactating breasts, as well as the social, ideological, theological, and medical meanings and uses of motherhood, childbirth, and breastfeeding, along with their visual and literary representations. Breastfeeding and the work of mothering are explored through the study of a great variety of sources, mainly works of Greek-speaking cultures, written and visual, anonymous and eponymous, which were mostly produced between the first and the seventh century AD. Due to their multiple interdisciplinary dimensions, ancient and early Byzantine lactating women are approached through three interconnected thematic strands having a twofold focus: society and ideology, medicine and practice, and art and literature. By developing the model of the lactating woman, the volume offers a new analytical framework for understanding a significant part of the still unwritten cultural history of the period. At the same time, the volume significantly contributes to the emerging fields of breast and motherhood studies. The new and significant knowledge generated in the fields of ancient and Byzantine studies may also prove useful for cultural historians in general and other disciplines, such as literary studies, art history, history of medicine, philosophy, theology, sociology, anthropology, and gender studies.

The Bite, the Breast and the Blood Amy Williams Wilson, 2018-10-09 Central to every vampire story is the undead's need for human blood, but equally compelling is the human ingestion of vampire blood, which often creates a bond. This blood connection suggests two primal, natural desires: breastfeeding and communion with God through a blood covenant. This analysis of vampire stories explores the benefits of the bonding experiences of breastfeeding and Christian and vampire narratives, arguing that modern readers and viewers are drawn to this genre because of our innate fascination with the relationship between human and maker.

*The Ultimate Breastfeeding Book of Answers* Jack Newman, Teresa Pitman, 2006 An Amazing Resource for Nursing Moms Although breastfeeding is the natural and healthy way to nourish your baby, it's not always easy. Many new mothers are scared away from nursing because of difficulty getting started and lack of information about what to do when things don't go as planned. In this fully revised and updated edition of *The Ultimate Breastfeeding Book of Answers*, two of today's foremost lactation experts help new mothers overcome their fears, doubts, and practical concerns about one of the most special ways a mother can bond with her baby. In this comprehensive guide, Dr. Jack Newman, a leading authority on infant care, and Teresa Pitman, a La Leche League leader for more than twenty years, give you the facts about breastfeeding and provide solutions for the common problems that arise. Filled with the same practical advice that made the first edition a must-have for nursing moms, the new edition features updates on: • Achieving a good latch • What to do if your baby refuses the breast • Avoiding sore nipples • Ensuring your baby gets enough milk • Feeding a colicky baby • Breastfeeding premature and special-needs babies

**Expressing Milk** Gretchen J. Michlitsch, 2005

**Splatter Capital** Mark Steven, 2017-03-21 Splatter Capital shows how a popular subgenre of cinematic horror has developed a uniquely sensitive perspective on the cycles of capitalism. It argues that the emphatically messy brand of horror mobilized in gore or splatter films is extremely responsive to the internal contradictions that threaten the future sustainability of capitalist accumulation. And, while responding to the prospect of that end, splatter promotes an extant truth: capitalist accumulation is and always has been a nightmare of systematized bloodshed. This book provides an account of that nightmare as told through a combination of economic history and filmic analysis. The story it tells will serve as a source of both theoretical and practical knowledge for surviving the horror movie we collectively inhabit.

**Woman's Identity and Rethinking the Hadith** Nimat Hafez Barazangi, 2016-03-09 The Prophet Muhammad's reported traditions have evolved significantly to affect the social, cultural, and political lives of all Muslims. Though centuries of scholarship were spent on the authentication and trustworthiness of the narrators, there has been less study focused on the contents of these narratives, known as Hadith or Sunnah, and their corroboration by the Qur'an. This book is a first step in a comprehensive attempt to contrast Hadith with the Qur'an in order to uncover some of the unjust practices by Muslims

concerning women and gender issues. Using specific examples the author helps the reader appreciate and understand the magnitude of the problem. It is argued that the human rights and the human development of Muslim women will not progress in a meaningful and sustainable manner until the Hadith is re-examined in a fresh new approach from within the Islamic framework, shifting the discourse in understanding Islam from a dogmatic religious law to a religio-moral rational worldview. The author argues that such re-examination requires the involvement of women in order to affirm their authority in exegetical and practical leadership within Muslim societies, and she encourages Muslim women to stand up for their rights to effect change in understanding the role of sunnah in their own life.

**Fresh Milk** Fiona Giles,2010-05-11 While countless breastfeeding guides crowd bookshelves, not one of them speaks to women with anything approaching bestselling author Fiona Giles's level of intimacy and vitality. In *Fresh Milk*, through a provocative collection of stories, memories, and personal accounts, Giles uncovers the myths and truths of the lactating breast. From the young mother grappling with the bewildering trappings of maternity wear to the woman who finds herself surprisingly aroused by new sensations, and the modern dad who learns the ins and outs of breastfeeding, the portraits in Giles's eye-opening book offer a funny, wise, and comforting resource for women -- and even their friends and partners who have had, or expect, intimate experiences with the pleasures and pain of lactation. By turns poignant and informative, sexy and witty, empathic and empowering, *Fresh Milk* delivers everything we wanted to know about breastfeeding that our mothers never told us.

**Counseling the Nursing Mother: A Lactation Consultant's Guide** Judith Lauwers,Anna Swisher,2020-07-01 *Counseling the Nursing Mother: A Lactation Consultant's Guide*, Seventh Edition presents topics within a counseling framework with practical suggestions and evidence-based information interwoven throughout. Additionally, the Seventh Edition is an ideal study guide for International Board Certified Lactation Consultant (IBCLC) certification and practice.

**The Bottle, The Breast, and the State** Maureen Rand Oakley,2015-07-01 *The Bottle, the Breast, and the State: The Politics of Infant Feeding in the United States* explores the ways in which breastfeeding is both promoted and made difficult in the United States. It also examines how the use of formula is often shamed yet encouraged by many standard medical and government practices. Using both qualitative and quantitative methods, it explores the politics, policies, and individual experiences surrounding infant feeding. Oakley shows that a failure to separate the issue of breastfeeding rights and support, from problematic approaches to breastfeeding advocacy, in both academic scholarship and public discourse, has led to a deadlock that prevents groups from working together in support of breastfeeding without shaming. Drawing on a feminist ethic of care, Oakley develops a caring infant feeding advocacy. This approach values the caring work done by parents and recognizes the benefits of this work for society. It promotes policies supportive of parenting in general and breastfeeding in particular, in order to remove barriers that present a challenge to some women who wish to breastfeed. Caring infant feeding

advocacy also works to promote the development of better alternatives for those who do not breastfeed.

**Making Milk** Mathilde Cohen, Yoriko Otomo, 2017-11-02 What is milk? Who is it for, and what work does it do? This collection of articles bring together an exciting group of the world's leading scholars from different disciplines to provide commentaries on multiple facets of the production, consumption, understanding and impact of milk on society. The book frames the emerging global discussion around philosophical and critical theoretical engagements with milk. In so doing, various chapters bring into consideration an awareness of animals, an aspect which has not yet been incorporated in these debates within these disciplines so far. This brand new research from scholars includes writing from an array of perspectives, including jurisprudence, food law, history, geography, art theory, and gender studies. It will be of use to professionals and researchers in such disciplines as anthropology, visual culture, cultural studies, development studies, food studies, environment studies, critical animal studies, and gender studies.

**Case Studies in Breastfeeding** Karin Cadwell, Cynthia Turner-Maffei, Cindy Turner-Maffei, 2004 With a consultative framework, this text presents illustrative case studies to increase the practitioner's knowledge about managing complex breastfeeding cases.

**Breastfeeding Today** Candace Woessner, 1996 Expert, practical advice makes this an indispensable resource for mothers of the 1990s. The authors fully explain the latest methods, equipment, and theories involving breastfeeding. Includes drawings and 20 charts. Original.

**Maternities** Robyn Longhurst, 2012-07-26 Over the past decade geographers have shown a growing interest in 'the body' as an important co-ordinate of subjectivity and as a way of understanding further relationships between people, place and space. To date, however geographers have published little on what is one of, if not the, most important of all bodies - bodies that conceive, give birth and nurture other bodies. It is time that feminist, social, and cultural geographers contributed more to debates about maternal bodies. This book offers a series of windows on the ways in which maternal bodies influence, and are influenced by, social and spatial processes. Topics covered include women 'coming out' as pregnant at work, changing fashion for pregnant women, being disabled and pregnant, the politics of home versus hospital birth, breastfeeding practices that sit outside the norm, women who are constructed as 'bad' mothers, and 'e-mums' (mothers who go on-line).
