**A History of Australia** Mark Peel, Christina Twomey, 2017-12-22 This vivid, multi-dimensional history considers the key cultural, social, political and economic events of Australia's history. Deftly weaving these issues into the wider global context, Mark Peel and Christina Twomey provide an engaging overview of the country's past, from its first Indigenous people, to the great migrations of recent centuries, and to those living within the more anxiously controlled borders of the present day. This engaging textbook is an ideal resource for undergraduate students and postgraduate students taking modules or courses on the History of Australia. It will also appeal to general readers who are interested in obtaining a thorough overview of the entire history of Australia, from the earliest times to the present, in one concise volume.

**The History of Surfing** Matt Warshaw, 2011-04-29 This in-depth, photo-packed look at the history and culture of surfers is "meticulously researched, smartly written . . . required reading" (Outside Magazine). Matt Warshaw knows more about surfing than any other person on the planet. After five years of research and writing, Warshaw, a former professional surfer and editor of Surfing magazine, has crafted an unprecedented, definitive history of the sport and the culture it has spawned. With more than 250 rare photographs, The History of Surfing reveals and defines this sport with a voice that is authoritative, funny, and wholly original. The obsessive nature of Warshaw's endeavor is matched only by the obsessive nature of surfers, who are brought to life in this book in many tales of daring, innovation, athletic achievement, and the offbeat personalities who have made surfing history happen. "The world's most comprehensive chronicler of the surfing scene." —Andy Martin, The Independent

Watching War on the Twenty-First Century Stage Clare Finburgh Delijani, 2017-07-27 What do we watch when we watch war? Who manages public perceptions of war and how? Watching War on the Twenty-First-Century Stage: Spectacles of Conflict is the first publication to examine how theatre in the UK has staged, debated and challenged the ways in which spectacle is habitually weaponized in times of war. The 'battle for hearts and minds' and the 'war of images' are fields of combat that can be as powerful as armed conflict. And today, spectacle and conflict – the two concepts that frame the book – have joined forces via audio-visual technologies in ways that are more powerful than ever. Clare Finburgh's original and interdisciplinary interrogation provides a richly provocative account of the structuring role that spectacle plays in warfare, engaging with the works of philosopher Guy Debord, cultural theorist Jean Baudrillard, visual studies specialist Marie-José

Mondzain, and performance scholar Hans-Thies Lehmann. She offers coherence to a large and expanding field of theatrical war representation by analysing in careful detail a spectrum of works as diverse as expressionist drama, documentary theatre, comedy, musical satire and dance theatre. She demonstrates how features unique to the theatrical art, namely the construction of a fiction in the presence of the audience, can present possibilities for a more informed engagement with how spectacles of war are produced and circulated. If we watch with more resistance, we may contribute in significant ways to the demilitarization of images. And what if this were the first step towards a literal demilitarization?

**The Routledge Companion to Australian Literature** Jessica Gildersleeve, 2020-12-22 In recent years, Australian literature has experienced a revival of interest both domestically and internationally. The increasing prominence of work by writers like Christos Tsiolkas, heightened through television and film adaptation, as well as the award of major international prizes to writers like Richard Flanagan, and the development of new, high-profile prizes like the Stella Prize, have all reinvigorated interest in Australian literature both at home and abroad. This Companion emerges as a part of that reinvigoration, considering anew the history and development of Australian literature and its key themes, as well as tracing the transition of the field through those critical debates. It considers works of Australian literature on their own terms, as well as positioning them in their critical and historical context and their ethical and interactive position in the public and private spheres. With an emphasis on literature's responsibilities, this book claims Australian literary studies as a field uniquely positioned to expose the ways in which literature engages with, produces and is produced by its context, provoking a critical re-evaluation of the concept of the relationship between national literatures, cultures, and histories, and the social function of literary texts.

**Greek Music in America** Tina Bucuvalas, 2018-11-26 Winner of the 2019 Vasiliki Karagiannaki Prize for the Best Edited Volume in Modern Greek Studies Contributions by Tina Bucuvalas, Anna Caraveli, Aydin Chaloupka, Sotirios (Sam) Chianis, Frank Desby, Stavros K. Frangos, Stathis Gauntlett, Joseph G. Graziosi, Gail Holst-Warhaft, Michael G. Kaloyanides, Panayotis League, Roderick Conway Morris, National Endowment for the Arts/National Heritage Fellows, Nick Pappas, Meletios Pouliopoulos, Anthony Shay, David Soffa, Dick Spottswood, Jim Stoyneoff, and Anna Lomax Wood Despite a substantial artistic legacy, there has never been a book devoted to Greek music in America until now. Those seeking to learn about this vibrant and exciting music were forced to seek out individual essays, often published in obscure or ephemeral sources. This volume provides a singular platform for understanding the scope, practice, and development of Greek music in America through essays and profiles written by principal scholars in the field. Greece developed a rich variety of traditional, popular, and art music that diasporic Greeks brought with them to America. In Greek American communities, music was and continues to be an essential component of most social activities. Music links the past to the present, the distant to the near, and bonds the community with an embrace of memories and narrative. From 1896 to 1942, more than a thousand Greek recordings in many genres were made in the United States, and thousands more have appeared since then. These encompass not only Greek traditional music from all regions, but also emerging urban genres, stylistic changes, and new songs of social commentary. Greek Music in America includes essays on all of these topics as well as history and genre, places and venues, the recording business, and profiles of individual musicians. This book is required reading for anyone who cares about Greek music in America, whether scholar, fan, or performer.
