Jack Manuelian

Conversations with Nostradamus: Volume 2 Dolores Cannon, 1990-01-01 Originally printed in 1989 each edition has added updates of events predicted by Nostradamus that have occurred since the last edition. For this newest edition regressionist and psychic researcher Dolores Cannon has written an extensive addendum that covers evidence of the fulfilment of the prophecies predicted by Nostradamus. Secret weapons computers the World Wide Web and the New Science of Nano-technology are included among the new topics covered. Nostradamus broke through to our time period by a one-in-a-million chance contact through hypnosis. In this series the master himself explains the puzzles he carefully concealed in code within his famous quatrains or prophecies. Contains 136 quatrains.

The Secrets Of Nostradamus David Ovason, 2012-05-31 Walker argues that previous translations have got it wrong, because they have failed to realise that Nostradamus was writing in an esoteric language called the 'green language'. Where previous translations have seemed to stretch a point to make a quotation fit an historical event, Walker reveals the prophet's true prophecies regarding the American and French revolutions, the Franco-Prussian, First, Second, and Third world wars, earthquakes, floods, the Antichrist and the end of the world. Properly seen, Walker argues, Nostradamus is the greatest Western prophet to commit his prophecies to writing since the Old Testament.

The Legend of Starcrash Dolores Cannon, 1994 Through regressive hypnosis a lost legend of the history of mankind has been retrieved from the recesses of time. Did the American Indians descend from the inhabitants of an alien spacecraft that crashed in the Alaska-Canada region thousands of years ago? Starcrash indicates that aliens continued to come to Earth, some intentionally and by accident, throughout our history. In order to adjust to harsh conditions they were forced to interbreed with the local aborigines. This was the only way to insure the survival of their race. Does their blood still flow in the veins of certain American Indian tribes?

Five Lives Remembered Dolores Cannon, 2009 THE BEGINNING What do you do when you discover information that is before its time? What do you do when your curiosity takes you on an adventure that is so bizarre that there is nothing normal to relate to? This is what happened to Dolores Cannon in 1968, long before she began her career as a past-life hypnotherapist and regressionist. Travel back with us to that time when the words reincarnation, past-lives, regression, walk-ins, New Age were unknown to the general population. This is the story of two normal people, who accidentally stumbled across past-lives

while working with a doctor to help a patient relax. It began so innocently, yet it crossed the boundaries of the imagination to open up an entirely new way of thinking at a time when such a thing was unheard of. It went totally against the belief systems of the time. It was so startling that they should have stopped, but their curiosity demanded that they continue to explore the unorthodox. The experiment changed the participants and everyone involved, and their beliefs would never be the same. Dolores Cannon is now a world-renowned hypnotherapist who has explored thousands of cases in the forty years since 1968, and has written fifteen books about her discoveries. Her books are translated into more than 20 languages. She is teaching her unique form of hypnosis all over the world. When she lectures people ask, How did you get started on all of this? This is the story of her beginnings. The book was written in 1980, her very first book. It has laid dormant, gathering dust, until now, waiting. Now is the time for it to come forth. Enjoy the adventure!

My Master's Sandals: Embujo Uno Mario Arturo Ramos, 2021-04-29 Where did we come from? What are we doing here? Are we alone in the universe? Where can we get those answers? This book is about an inner dialogue that started when I was a child and has led me to the answers within. You might relate to my story of struggles and pain that most humans go through in the process of remembering who they really are. My Master Sandal's is a series of books on the road to enlightenment. It reveals the interactions to which all people have access. This book is a co-creative experience written by two friends totally in-tune with the voice within. My Master Sandal's captivates the reader by connecting with their intuition and calls them forward in their journeys. It inspires others to their potential and reminds them of the desires within their hearts, leading the reader back to a place of recognizing we are all one.

Us the Universe Svein Harald Haukanes, 2016-07-12 Who are we? Why are we born into this life just to die and disappear again? Where do we come from, and where do we go? Every day, the earth's population is growing at an exponential rate. If we have souls and are not just pails of meat, where do all the new souls come from? All these questions and more have been tumbling around in my head since I was young. My whole life, I have been searching with an open mind for answers. The last few years, I have found many that I will try to share with you. There are about seven billion of us here on earth. Most of us believe in some kind of religion, and these religions tell us, Do what we tell you and don't start thinking for yourself. Even though these religions try to control us, I think there are some good things and some truth in them as well. It's just that they have become such man-made products. People with the need for power are attracted to religions as well as politics, business, and financial power systems. All these things have built up a trust-and-believe system where we are deactivated as thinkers, so we have stopped doing the necessary thinking and reflection ourselves. In this book, we are going to open up our minds and start asking questions. We are going to take in a lot of obvious ideas and analyze them. Not so long ago, we were thinking that the earth was flat, that the sun circled around the earth, and that the earth was the centre of the universe. All this was very true at that time, but not anymore. In this book, we are going to see what else we have to reconsider. The time

is here.

Nostradamus Jack Manuelian,1996 According to the author, who has spent many years translating the original works of the most famous seer of all time, humankind could soon find itself plunging headlong into a holocaust whose destruction could well be of planetary proportions. Manuelian believes that the present situation in the world -- Nationalism vis a vis Globalism; the resurgence of neo-Fascism and Imperialism; the rise of Islamic Fundamentalism; the prevalent economic woes all over the world; ethnic conflicts and regional wars -- are all reminders of a precarious world that is teetering and tottering dangerously and that the coming years until the turn of the century could be the most critical in the overall life of the planet.

The Convoluted Universe: Book 1 Dolores Cannon,2007 * Is it possible that you are living in other universes simultaneously with this one? * Do you travel back and forth between other dimensions without your conscious knowledge? * Could it be possible that you are only a splinter or fragment of a much larger soul? * Do parallel universes exist side-by-side with this one? * Are you living all your past and future lives at the same time? * What is the God Source? These questions and many more are explored in this long-awaited sequel to The Custodians. This information proceeded beyond abduction into complicated metaphysics, creating the need to explore more mind-expanding

The Case for the Second Coming and New Jerusalem Amaterasu,Kalki,2010-06-03 In The Case for the Second Coming and New Jerusalem, two anonymous authors offer a vision of and means to The Abundance Paradigm, aka New Jerusalem: the Golden Age following the tribulation of the eschaton. They show how a combination of good will, celestial quantum physics and a prophesied Genius-Christ will enable humanity to advance like never before. Amaterasu weaves a sensual, teleological story to entice your imagination, an invitation to a future youll want to stay in. Kalki consolidates multicultural prophecy that suggests The Second Coming is more than a metaphor for a spiritual awakening or a heavenly light show but an actual human male that invents miraculous and disruptive technologies. By combining the best of the human spirit and nature, science, and common sense, the authors provide a refreshingly optimistic perspective on the post 2012 planet Earth.

Summary of Dolores Cannon's The Convoluted Universe - Book 2 Everest Media,2022-03-26T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 I have traveled through time and space to explore the history of the past, and the possibilities of the future. I have visited unknown planets and dimensions, and spoken with many so-called alien species. I have discovered that everything is hidden in the recesses of the subconscious mind, and that it can be discovered and applied in our time. #2 I first became involved with reincarnation and past-life regression in 1968. My husband, Johnny, was career U. S. Navy for over twenty years, and had just returned from duty in Viet Nam. We were stationed in Texas and trying to return our lives to normal after a four year separation caused by the war. #3 1968 was a significant year in my life because it changed everything forever. My husband, Johnny, was almost killed in a

horrendous automobile accident on his way to the Naval Base one night. He was hit head-on by a drunken driver, and mangled into the wreckage of our Volkswagen bus. The doctors said it was a miracle he lived, because his injuries were so extensive that he should have died. #4 I was glad to have the sanctuary of the hills as my retreat, as I was completely focused on my husband and the children. I had no idea where I would find clients in the hills of Arkansas, but I knew I wanted to do something with my life.

The Power of the Dragon Louis Turi,1999-11 Using astrological predictions based on the formation of the Dragon, Dr. Turigives insight into human behavior and perceptions.

Between Death and Life Dolores Cannon,1993 Dolores has accumulated information about the Death experience and what lies beyond through 16 years of hypnotic research and past-life therapy. While retrieving past-life experiences, hundreds of subjects reported the same memories when experiencing their death, the spirit realm, and their rebirth. This book also explores: * Guides and guardian angels* Ghosts and poltergeists* Planning your present lifetime and karmic relationships before your birth* The significance of bad lifetimes* Perceptions of God and the Devil* And much more

The Search for Hidden, Sacred Knowledge Dolores Cannon,2014-12-21 Many of us lived previous lives as keepers of sacred knowledge that was taught in the ancient mystery schools. Much of this knowledge was lost through time due to disasters and destruction or death. The knowledge was reserved for a select few who devoted their lives to understanding and teaching it.

An End to All Disease Lt. Lawrence F. Frego,2006-07-19 We are at the crossroads of world health. On the one hand we face the possibility of a world wide pandemic, the likes of which has never been seen before. We are, likewise on the threshold of discovering natural cures for nearly every disease. As choosing wisely may mean the difference between life and death, this book is designed to help the reader choose alternative options that are seldom if ever in the news. Jared Diamond, in his groundbreaking work, *Collapse: How Societies Choose to Fail or Succeed*, addresses the fact that only civilizations that recognize the threats against their existence, and deal with the threat effectively survive. Civilizations with their heads in the sand become extinct or are conquered by more vigorous nations. The robber barons of the last century were able to create a monopoly for oil and the automobile by ruthlessly and systematically destroying all competition. They tore up cable car lines and public transportation so the public would have no other alternative except their oil. Today, the drug monopolies, owned by the descendants of these same robber barons, are nearly complete in their plot to eradicate all natural, low cost remedies for disease prevention and treatment. In the state of Florida, naturopathic physicians were de-licensed unless they also had a conventional medical license. The powers that be want to create a drug induced society, at an enormous financial and emotional cost to the public at large. They are even trying to outlaw vitamins via European health treaties and side step the American constitution and the public. The ever escalating cost of medical care created by lack of natural alternative options

can only lead to the eventual total collapse of the entire medical system. It is exceedingly difficult finding the truth about alternative medicine as the system has a vested interest in making profits and keeping the truth from you. A few thousand deaths is an acceptable loss if a few billion dollars can be made. And it will be a cold day in hell before a drug company puts itself out of business by telling you about a low cost natural cure that their product can manage. The guardians of public health know which side their toast is buttered on also. The career politicians and beltway bandits at the FDA know where the money is and they don't get it from you or providers of natural cures. The drug monopolies pay the big bucks. There have been no checks and balances. Corruption has become so pronounced that the US House of Representatives is seeking to pass the Consumers Access to Health Information Act (H.R. 2352) to ensure that accurate health claims ARE NOT SUPPRESSED. Consumers would be given TRUTHFUL AND COMPLETE information about the curative, mitigation, treatment, and prevention effects of foods and dietary supplements on disease or health-related conditions. The time to exercise your God given right to the health care of your choice is now. (www.lef.org) America has the finest emergency health care in the world. Bar none. However that is not the nature of the coming threat. American baby boomers will soon be retiring in the tens of millions. Their health care needs will be staggering and costly. However 92% of American health care providers are trained in emergency medicine and only 8% in long term preventative medicine. As it takes a minimum of 6-7 years to obtain a medical degree, America is unprepared for a crisis that is inevitable.

Image - Action - Space Luisa Feiersinger, Kathrin Friedrich, Moritz Queisner, 2018-10-08 Screen-based media, such as touch-screens, navigation systems and virtual reality applications merge images and operations. They turn viewing first and

foremost into using and reflect the turn towards an active role of the image in guiding a user's action and perception. From professional environments to everyday life multiple configurations of screens organise working routines, structure interaction, and situate users in space both within and beyond the boundaries of the screen. This volume examines the linking of screen, space, and operation in fields such as remote navigation, architecture, medicine, interface design, and film production asking how the interaction with and through screens structures their users' action and perception.

Dreaming the Future Clifford A. Pickover, 2001-03 For countless generations people of every culture have practiced a broad range of dramatic and sometimes frightening techniques to peer into the future. In this fascinating book acclaimed author Clifford Pickover presents a nearly exhaustive list of fortune-telling techniques, from the ominous practice of human sacrifice to reading clues on the Internet. Pickover not only explores a vast and colorful array of methods of prediction--including dreaming--he also evaluates the accuracy of some of the most astonishing prophecies made throughout history. Just how accurate were such famous soothsayers as Nostradamus, the Delphic Oracle, Edgar Cayce, the children of Fatima (whose third vision has only recently been revealed), and dozens more? This book takes us one step further by exploring our own inner psyches: Why does looking into the future provide a source of solace in a world filled with uncertainty, disease, and chance? And why do the most noted prognosticators so often warn of natural catastrophes of biblical proportions, such as earthquakes and floods that will signal the end of the world? Through insight and wit, Pickover will unlock the door of your imagination with engrossing mysteries, intriguing illustrations, and even modern patents and computer techniques. Also included is a range of practical experiments and recipes--from Stone Age to New Age. Prepare yourself for a strange but captivating ride!

Lifting the Veil on the Lost Continent of Mu, the Motherland of Men Jack Churchward, 2011-08-01 A re-issue of the 1926 classic by James Churchward, *The Lost Continent of Mu: Motherland of Men* supplemented with fresh research and new material by the author's great-grandson. In the 1920s, James Churchward wrote a series of groundbreaking books about the lost continent of Lemuria which he called the land of Mu. The basic premises are these: • The Garden of Eden was not in Asia, but on a sunken continent in the Pacific Ocean. • The Biblical story of creation came not from the peoples of the Nile, but from this now submerged continent of Mu—the Motherland of Men. • Mu was an advanced civilization of 64 million inhabitants... He obtained the information by living with monks and translating unknown manuscripts. Over the years, his books have come to be considered occult classics. Now his great-grandson, Jack Churchward, has resurrected this valuable work and added his own research. Included: • *The Lost Continent* • *The Land of Man's Advent on Earth* • *Egyptian Sacred Volume, Book of the Dead* • *Symbols of Mu* • *North American's Place Among the Ancient Civilizations* • *The Geological History of Mu* • *Ancient Religious Conceptions* • *Ancient Sacred Mysteries, Rites and Ceremonies*
