Zecharia Sitchin

Summary of Zecharia Sitchin's The 12th Planet Everest Media,2022-06-13T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The Old Testament is the source of the biblical verses quoted in The Twelfth Planet. The credibility of the Bible was shaken by the acceptance of Evolution, but if Man evolved, then he could not have been created all at once by a deity who premeditated him. #2 The Twelfth Planet is a narrative that attempts to answer the specific questions of When, How, Why and Wherefrom. It explains how the solar system was formed, an invading planet caught into solar orbit, and Earth and other parts of the solar system brought into being.

The 12th Planet Zecharia Sitchin,1978 Over the years, startling evidence has been unearthed, challenging established notions of the origins of Earth and life on it, and suggests the existence of a superior race of beings who once inhabited our world. The product of thirty years of intensive research, The 12th Planet is the first book in Zecharia Sitchin's prophetic Earth Chronicles series -- a revolutionary body of work that offers indisputable documentary proof of humanity's extraterrestrial forefathers. Travellers from the stars, they arrived eons ago, and planted the genetic seed that would ultimately blossom into a remarkable species...called Man.

The 12th Planet (Book I) Zecharia Sitchin,1991-05-01 Over the years, startling evidence has been unearthed, challenging established notions of the origins of Earth and life on it and suggesting the existence of a superior race of beings who once inhabited our world. The product of thirty years of intensive research, The 12th Planet is the first book in Zecharia Sitchin's prophetic Earth Chronicles series--a revolutionary body of work that offers indisputable documentary proof of humanity's extraterrestrial forefathers. Travelers from the stars, they arrived eons ago, and planted the genetic seed that would ultimately blossom into a remarkable species...called Man. The 12th Planet brings to life the Sumerian civilization, presenting millennia-old evidence of the existence of Nibiru, the home planet of the Anunnaki and of the landings of the Anunnaki on Earth every 3,600 years, and reveals a complete history of the solar system as told by these early visitors from another planet. Zecharia Sitchin's Earth Chronicles series, with millions of copies sold worldwide, deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. The series is offered here, for the first time, in highly readable, hardbound collector's editions with enhanced maps and diagrams.

Twelfth Plan Zecharia Sitchin,2007-03-27 Over the years, startling evidence has been uncovered, challenging established notions of the origins of life on Earth—evidence that suggests the existence of an advanced group of extraterrestrials who once inhabited our world. The first book of the revolutionary Earth Chronicles series offers indisputable documentary evidence of the existence of the mysterious planet Nibiru and tells why its astronauts came to Earth eons ago to fashion mankind in their image. The product of more than thirty years of meticulous research, *The 12th Planet* treats as fact, not myth, the tales of Creation, the Deluge, the Tower of Babel, and the Nefilim who married the daughters of man. By weaving together the biblical narrative with Sumerian and Babylonian clay-tablet texts, it challenges the established notions of the origins of Earth and mankind, and offers a compelling alternative history and prehistory of both.

The Cydonia Codex George J. Haas,William R. Saunders,2005 The result of ten years of study and analysis of NASA photographs of the Face on Mars and its surrounding complex, *The Cydonia Codex* provides evidence for a terrestrial connection between Cydonia and Mesoamerica--Provided by publisher.

The Great Architects of Mars George J. Haas,2025-01-07 • Explores a wide variety of anomalous structures on Mars's surface that display a high degree of geometric and pictographic design • Examines sites such as the Elysium pyramid famously described by Carl Sagan and city complexes in the Nepenthes Mensae and Atlantis Chaos regions • Argues that Mayan creation stories of a Star War and Sumerian myths of the Anunnaki provide ancient evidence for the existence of a Martian culture Exploring evidence of a lost Martian civilization and its contact with Earth, investigator George Haas examines a wide variety of anomalous structures and geoglyphs on Mars's surface that display a high degree of geometric and symbolic design that reveal an ancient bond between Earth and Mars. He takes a closer look at Carl Sagan's famous pyramid of Elysium, including high-resolution images released after Sagan's death. Investigating a pair of city complexes in the Nepenthes Mensae region of the Red Planet, Haas shows how the settlements include geometric formations of a five-sided star and a hexagonal pyramid, along with geoglyphic formations representing a dove, a killer whale, and a bat. Examining the Libya Montes region, he reveals a keyhole-shaped formation identical in design to ancient tombs built in Japan. In the Atlantis Chaos region, he investigates the remains of an ancient city nestled along a dead lake, an urban-like array of gridded broken walls and shattered foundations. He then explores a detailed parrot-shaped geoglyph in the large-impact crater known as Argyre Basin that four veterinarians found to possess 22 points of anatomical correctness with terrestrial parrots. Providing an ancient Mesoamerican connection to the civilizations of Mars, Haas looks at a lesser-known Mayan creation story about a Star-War that occurred 800,000 years ago. He reveals parallels between this story and ancient Sumerian stories of the Anunnaki occupation of Earth and Mars as documented by Zecharia Sitchin. Haas also shows how

there is a direct correlation between the ruins on Mars and the art and architecture of Mesoamerican cultures, providing clear evidence of a long-disappeared Martian civilization that we are only now rediscovering.

The Anunnaki Chronicles Zecharia Sitchin, 2015-09-17 An insider's look into the decades of research behind Zecharia Sitchin's books as well as an in-depth overview of his theories and discoveries • Includes carefully selected chapters from the Earth Chronicles series as well as never-before-published letters, articles, and lectures • Each piece includes an introduction, offering context and insight into Sitchin's passionate work and revealing the man behind the theories • Explains the genesis of The 12th Planet, the Anunnaki influences on the Sumerian civilization, the orbit of Nibiru, the prehistory of the Americas, the extraterrestrial origins of modern man, and much more What if the tales from the Old Testament and other ancient writings, such as those from Sumer, Babylon, Egypt, and Greece, were not myths or allegory but accounts of actual historical events? Known for his ability to read and interpret ancient Sumerian and Akkadian clay tablets, Zecharia Sitchin (1920-2010) took the words of our most ancient ancestors as fact and, through decades of meticulous research, showed that they revealed a coherent narrative about the true origins of humanity and civilization. Drawing both widespread interest and criticism, his Earth Chronicles series of books, beginning with *The 12th Planet*, detailed how humanity arose after the arrival of the Anunnaki ("those who from Heaven to Earth came"), alien "gods" who created modern man in their own image and imparted gifts of civilizing knowledge. Providing an insider's look into the decades of research behind Zecharia Sitchin's complete works as well as an in-depth overview of his theories, this collection includes carefully selected chapters from the Earth Chronicles series as well as never-before-published letters, articles, and lectures. We learn about the genesis of The 12th Planet in "The Book as a Story," the Sumerians and their Anunnaki influences in "The Sudden Civilization," the orbit of Nibiru in "UFOs, Pyramids, and the 12th Planet," the prehistory of the Americas in "Cities Lost and Found," the extraterrestrial origins of modern man in "The Cosmic Connection--DNA," and much more. We get to read never-before-published lectures, culled from Sitchin's decades of presentations, as well as the article that spurred the writing of *There Were Giants Upon the Earth*. Each piece includes an introduction by Sitchin's niece, offering context and insight into Sitchin's passionate work. These introductions reveal the man behind the theories, a world traveler known for his scholarship, dry humor, and precisely chosen words. If his theories are true, as Sitchin wholeheartedly believed, then this collection presents some of the most important knowledge we have of our origins and future.

Nothing in This Book Is True, But It's Exactly How Things Are, 15th Anniversary Edition Bob Frissell, 2010-06-15 Nothing in This Book Is True, But It's Exactly How Things Are is an account of humankind's function within the grand celestial battle between internal and external knowledge. Author Bob Frissell gives a compelling account of our planetary ascent into higher consciousness, presenting a big-screen view of the Earth through the experience of the Ascended Masters, Thoth, Babaji, and Drunvalo Melchizedek. Pulling in all manner of conspiracy theories from the Secret Government to the Philadelphia

Experiment, Frissell proposes both a core transdimensional shift based on the Mayan calendar and a personal Rapture mediated through the connected, affirmed breaths of rebirthing that his teacher Melchizedek used to travel from the other side of the universe to here—breathing your own spacecraft (merkaba) out of and around your aura in order to travel through the astral realms. The 15th anniversary edition of this cult classic is revised and expanded with new illustrations and 50 pages of important new information on the Lucifer Rebellion, the solar storm, and the final three breaths of the merkaba meditation.

The Haunting of America William J. Birnes,Joel Martin,2025-06-25 In the tradition of their Haunting of the Presidents, national bestselling authors Joel Martin and William J. Birnes write The Haunting of America: From The Salem Witch Trials to Harry Houdini, the only book to tell the story of how paranormal events influenced and sometimes even drove political events. In a narrative retelling of American history that begins with the Salem Witch Trials of the seventeenth century, Martin and Birnes unearth the roots of America's fascination with the ghosts, goblins, and demons that possess our imaginations and nightmares. The authors examine the political history of the United States through the lens of the paranormal and investigate the spiritual events that inspired public policy: channelers and mediums who have advised presidents, UFOs that frightened the nation's military into launching nuclear bomber squadrons toward the Soviet Union, out-of-body experiencers deployed to gather sensitive intelligence on other countries, and even spirits summoned to communicate with living politicians. The Haunting of America is a thrilling exploration of the often unexpected influences of the paranormal on science, medicine, law, government, the military, psychology, theology, death and dying, spirituality, and pop culture. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Atrahasis Albert T. Clay,2003 The word Atrahasis means extra wise and refers to the earliest known name of Noah, who built an ark and saved mankind from destruction. This is that story, from ancient Sumeria, which many scholars believe was the original from which all known flood stories came from. This was the most popular story in the ancient world and has survived for over five thousand years. It is the only one that all cultures, worldwide, seem to share. Why? Was there really a great flood? And why do we not explore the oldest known version carefully for clues? That is the purpose of this book, which also includes a number of other interesting flood story fragments and documents.

The Father Confusors Renford,2010-09-15 The author has published many books, articles and essays that take a metaphysical approach to interpreting ancient texts such as the Vedas, the Dhampravada, the Tao Teh Ching and the Bible. He follows no theological dogma nor adopts any philosophical school. He teaches in the Renford books and in the Institute of Applied Metaphysics that taking a single approach to exclusion of any other will not produce an accurate picture. Some text must be taken metaphysically, some as historical and some as physical events in which the witness had little or no point of

reference comparable to ours. In any other approach, one will be interpreting based on a fixed religious tradition or a philosophical bias. We have seen many variations on the idea that alien intervention has taken place in our ancient history but this author has gone into greater depth on the difference between Universal Being and the warrior gods depicted in the ancient texts.

Dark is Better Gemma Files, 2023-02-03 WHAT WE FEAR IN THE DARK CAN BE TERRIBLE. WHAT WE SEE IN THE LIGHT CAN BE WORSE.... This world is full of places that seem empty, but hide awful secrets. A cinematic ghost escapes from an experimental art project, infiltrating first the internet, then the real world; an exterminator debugging a dilapidated building discovers it's inhabited by both insects and angels; an intergalactic invasion begins with a single word; an all-female cult rediscovers an ancient, extremely bloody method of communion. Crammed to the brim with cosmic horror and dreadful invention, *Dark Is Better* (Trepidatio)—Gemma Files' sixth short fiction collection—acts as both a rough overview of her career thus far and a fitting chaser to her 2021 Bram Stoker Award-winning collection *In That Endlessness, Our End* (Grimscribe). This cabinet of liminal and sidelong curiosities is the universe horror icon Files' stories inhabit...one full of fractures and secrets, of darkness both cosmic and personal. Bringing together stories published over a period of nearly twenty years, this book includes some of Files' best-known works as well as many not widely distributed until now, encompassing the history of her development as a leading voice in the dark and the weird. As the ghastly light of revelation illuminates awfulness after awfulness, we invite you to learn exactly why DARK IS BETTER

Mysteries Explored Jack Barranger, Paul Tice, 2000 An overall investigation into human origins, religion, mythology, UFOs, and other unexplained phenomena. Begins by covering the most ancient mysteries about mankind and proceeds up to modern times, exploring the evidence, and ending with where we currently are from a religious and spiritual standpoint. A fascinating look at the development of mankind, with the possibility that we have experienced some form of outside intervention in remote times. In some ways, this intervention may still be with us today.

Zero Point William James, 2009-03-01 When Professors James Flanagan and Thomas Nellings from Brooklyn College of Natural History embark on a trip to Kentucky to inspect recently discovered artifacts in Mammoth Cave, they expect to find typical North American remains. But from the moment they inspect the artifacts, they know their lives have changed forever. The first indication of anything unusual is the discovery of cuneiform hieroglyphics—the earliest form of writing dating back

6,000 years in Mesopotamia. It's a mystery how writing of this kind has found its way to the United States. As Flanagan and Nellings explore deeper into the cavern, the pair discern a unique energy form; this Zero Point Energy could be the Holy Grail to unlimited energy which unscrupulous people would do anything to own. But they are truly shocked when they find an alien spacecraft ensconced deep below the earth. Their routine investigation quickly turns into a high-stakes adventure that could eliminate humanity's dependence on fossil fuels. Flanagan and Nellings could lose their lives or usher in a new age of peace and prosperity. But will humanity survive long enough to make the transition?

Forbidden Theology Miles Augustus Navarr, 2012 Over 75% of the people who live on this planet are followers of one of the three major monotheistic religions. They all consider Abraham as the father of their race and religion. They all believe in one singular, all powerful, all knowing benevolent god. The Hebrew call him Yahweh, the Christians refer to him as Father or Lord and Muslims call him Allah, and yet millions and millions of people have been murdered, maimed and tortured by the followers of this single entity to prove that their version of this single god is better than the other two versions. Sounds ridiculous, and yet sadly enough, more people have died in the name of religion than any other cause in the history of humanity. Each and every one of us at one time or another has asked or thought about such fundamental questions as, 'Is there a God?' 'Where did humans come from?' 'Why out of millions of species on earth, only humans reached this level of sophistication?' 'Is there a life after death?' 'Is there a purpose to life?' 'Why are we here?' 'Are the scriptures truly the words of god?' More importantly, is there any way we could find answers to such questions? The fact is, the answer to most of these questions, and many more, that we thought unanswerable, have been written down on clay tablets by our ancient ancestors who lived in Mesopotamia over 7000 years ago. These records are readily available to those who are willing to step outside the dogmatic belief system of the establishment, and are prepared, mentally and spiritually, to tolerate a totally different rendering of the oldest written historical records about mankind's origin, purpose and the truth about god, our maker. The subject matter of this book is an attempt to investigate the circumstances under which Mankind was made, and to trace the beginning and development of such concerns as the emergence of the concept of god and the formation of what later became known as religion. This is done primarily by relying on our scriptural texts, particularly the Old Testament, as well as other ancient manuscripts such as Sumerian, Akkadian and Babylonian Creation and Genesis epics. The first chapter begins by examining the behaviour, commands and instructions given by Yahweh to his chosen people. These commands and instructions are then evaluated and compared with basic accepted human rights standards practised and observed by almost all communities and societies, past and present. The question is then asked, How could an entity, powerful enough to have created the entire universe, issue such cruel and sadistic commands against some of his own creations? Furthermore, Yahweh's behaviour is decidedly pro Hebrew, and shows no regards or thought about non Hebrew masses. How could the universal god show such bias towards a tiny fraction of his creatures, with total disregard for the rest? Finally the

characteristics and personalities of Yahweh is analysed by scrutinising his behaviour, actions and directives as stated in the Old Testament, before examining the god of Christianity. In investigating the role and characteristics of God in Christianity, the first thing that immediately becomes apparent is the absence of a prominent role for God the Father, as we had witnessed in Judaism. The Christians, or more specifically Saint Paul, who was the founder and designer of Christianity as we know it today, in order to distance his creation from the Hebrews and religion of Yahweh, invented a new Godhead and named him Jesus Christ (Ancient Greek: Ἰησοῦς Içsous). Born of a virgin, with powers to heal the sick, give sight to the blind and even raise the dead, who was crucified but resurrected three days later. These were all characteristics borrowed from various religions and cults prevalent at the time in the Levant, from Mithraism to the cult of Apoll

Prophetic Visions of the Future Diane Stein, 2011-11-09 We all want to know what will happen to the earth and to those who come after us, our children and our grandchildren. Diane, seeking an answer, has gone to women visionaries and seers: women who channel the future and those who bring it to life in their writings. This is the time, Diane avers, for women to define what needs to be changed and begin to do the work. By women's power of thought and creation, we together can make a better world.
