**Arthur Burvenich**

**A History of Ancient Near Eastern Law (2 vols)** Raymond Westbrook, 2003-08-01 The first comprehensive survey of the world's oldest known legal systems, this collaborative work of twenty-two scholars covers over 3,000 years of legal history of the Ancient Near East. Each of the book's chapters represents a review of the law of a particular period and region, e.g. the Egyptian Old Kingdom, by a specialist in that area. Within each chapter, the material is organized under standardized legal categories (e.g. constitutional law, family law) that make for easy cross-referencing. The chapters are arranged chronologically by millennium and within each millennium by the three major politico-cultural spheres of the region: Egypt, Mesopotamia, and Anatolia and the Levant. An introduction by the editor discusses the general character of Ancient Near Eastern Law.

**TOUT 6** Julien Testu, 2023-01-01 Tout ce livre est un ensemble d'idées générales sur des sujets divers : tout & rien, religion & science, le sens de la vie, autobiographie, le bien & le mal, le vrai & le faux, la réponse à la grande question... Dans cet écrit de 600 paragraphes, l'ensemble des thèmes se symbiosent par une idéologie singulière, reliant tous, pour le TOUT. Ce livre fait suite à l'ouvrage TOUT 5.

**The Law of Testimony in the Pentateuchal Codes** Bruce Wells, 2005 The book examines the laws in the Pentateuch that govern trial-court witnesses and their testimony (for example, the requirement of at least two witnesses and the prohibition of false testimony). Through a detailed comparison of these laws with Neo-Babylonian trial records, the author proposes new solutions to longstanding interpretive problems posed by the biblical texts. This is the first study of pentateuchal law to make such extensive use of this Neo-Babylonian material. The book argues that these records from Mesopotamia shed important light on the biblical laws and demonstrate how rules, like those contained in the pentateuchal codes, may have operated within an ancient Near Eastern judicial system. The features shared by the biblical and Neo-Babylonian material include legal terminology, evidence requirements, a preference for empirical evidence over religious rituals for resolving disputes, and the treatment of wrongful prosecution. The author concludes that these features are more pronounced in the Neo-Babylonian than any other period, although they may have developed over time and found their way into the biblical codes even before then. The book contains fresh analysis of a number of Neo-Babylonian as well as biblical texts.
