*LGBTQ Politics in Nicaragua* Karen Kampwirth, 2022-06-21 The modern political tumult of Nicaragua includes revolution, dictatorship, and social movements. *LGBTQ Politics in Nicaragua* explores the untold stories of the LGBTQ community of Nicaragua and its role in the recent political history of the country. Karen Kampwirth is a renowned scholar of the Nicaraguan Revolution, who has been writing at the intersection of gender and politics for decades. In this chronological telling of the last fifty years of political history in Nicaragua, Kampwirth deploys a critical new lens: understanding politics from the perspective of the country's LGBTQ community. Kampwirth details the gay and lesbian guerrillas in the 1960s and 1970s, Nicaragua's first openly gay television wizard in the 1980s, and the attempts by LGBTQ revolutionaries to create a civil rights movement and the subsequent squashing of that movement by the ruling Sandinista party. She analyzes the shifting political alliances, the rise of strong feminist and LGBTQ movements in Nicaragua, and the attempts by the administration of Daniel Ortega to co-opt and control these movements. Ultimately, this is a story of struggle and defeat, progress and joy. This timely book provides a well-documented review of LGBTQ politics in modern Nicaragua, helping us to see the Sandinista Revolution and its ongoing aftermath in a new light.

Se postula como hipótesis que esta situación de vulnerabilidad genera una particular obligación de seguridad por parte de los prestadores frente a los usuarios de las tecnologías, que puede ser abordada como un nuevo carácter necesario del derecho humano al acceso a las TICs: el acceso seguro.

*El sistema de justicia ante la victimización sexual* Helena Soletto Muñoz, Aurea Grané Chávez, 2023-06-12

*Disrupción tecnológica, transformación y sociedad* Juan Carlos Henao, Daniel Castaño, 2021-06-01 La tercera edición de la colección Así habla el Externado examina el impacto que las tecnologías disruptivas y la transformación digital están teniendo sobre el conjunto de la sociedad, bajo una lente humanista e interdisciplinar, propia de nuestra institución. La Cuarta Revolución Industrial (4RI), que ha permeado todos los campos de la actividad humana y la sociedad, ofrece la inmensa oportunidad de reducir las brechas de conocimiento e ingreso económico y generar progreso social y democrático, pero puede también tener el efecto contrario. El lector y la lectora encontrarán en estos cuatro tomos reflexiones valiosas, en sus 74 escritos, para comprender en todo su alcance estas innovaciones y poder contribuir así a la construcción de realidades cada vez más incluyentes y participativas. Este tomo III, titulado Derecho, innovación y tecnología: fundamentos para una Lex Informático, tiene por objeto responder la siguiente pregunta: ¿de qué manera las nuevas tecnologías y la economía colaborativa están transformando el derecho, sus principios e instituciones? Para ello, el presente volumen estudia en detalle las promesas, retos y problemas jurídicos suscitados por la aplicación de la inteligencia artificial, el Big Data, el Blockchain y el IoT en distintos ámbitos del derecho público y privado. Los diferentes capítulos presentan debates en torno a la forma en que dichas tecnologías vienen afectando profundamente al mundo del derecho, con el fin de construir un marco conceptual que no solo sirva de base para sostener una discusión académica sólidamente fundamentada sobre estos temas, sino también para despejar las dudas jurídicas que pueden existir con el fin de facilitar y acelerar el desarrollo e implementación práctica de estas tecnologías, así como de contribuir a orientar la agenda académica sobre estos asuntos en América Latina.

Transformación educativa ,2025-04-04 Los cambios radicales que se intuían con la llegada de la COVID-19 en todos los ámbitos de la actividad humana, irrumpieron en el ámbito académico de maneras imprevistas para los actores involucrados en los sistemas educativos, especialmente en aquellos basados en la asistencia presencial. El panorama general fue ambiguo al inicio del confinamiento, y esto repercutió directamente en los mecanismos adoptados para continuar la labor académica con éxito. Las autoridades académicas, los profesores y los mismos estudiantes se vieron en la necesidad de adoptar formas creativas e innovadoras para proseguir el proceso educativo con la finalidad de alcanzar efectivamente los objetivos. Pero ¿qué tan preparadas estaban las instituciones educativas, los profesores y los mismos estudiantes para una contingencia de esta magnitud? ¿Cómo reaccionaron todos los involucrados a este evento? ¿Qué habilidades, actitudes y conocimientos fueron necesarios para la continuidad del proceso educativo? ¿Qué limitaciones entorpecieron el proceso? ¿Cómo afectó el nuevo esquema de trabajo en el estado emocional de los involucrados? ¿Qué otro tipo de afectaciones surgieron? Investigadores de diversas universidades mexicanas buscan en esta obra responder a estas y otras preguntas. DOI: <https://doi.org/10.52501/cc.159>

Guía para la crianza en un mundo digital Sebastián Bortnik,2020-11-23 ¿A qué edad les doy un celular a mis hijos? ¿Cómo hago para que no estén todo el día conectados? ¿Existe el uso creativo de la tecnología? Si no se conectan, ¿van a quedar aislados de la vida social? ¿Con los videojuegos también se aprende? ¿Es cierto que son adictivos? ¿Tengo que saber su contraseña en las redes sociales? ¿Cuáles son las cosas básicas que tenemos que hacer para ayudarlos a interactuar de

manera segura en el mundo digital? En el mundo de hoy, en el que la tecnología digital lo permea todo, acompañar a las chicas y chicos desde el nacimiento hasta la adolescencia nos plantea a madres, padres, docentes y profesionales de la salud unos desafíos de los que a veces ni siquiera somos conscientes. La Guía para la crianza en un mundo digital fue pensada para apoyar a los adultos en la búsqueda de respuestas para estas preguntas. A partir de su experiencia como educador y experto en seguridad informática, Sebastián Bortnik nos ayuda a entender qué son y cómo funcionan esos nuevos términos que se inmiscuyeron, sin preguntar, en nuestras familias: sharenting, vamping, cyberbullying, sexting, grooming, phubbing, FoMo, gaming disorder, fake news. El ingreso al mundo digital ofrece un maravilloso terreno de conocimiento y creatividad, de disfrute y crecimiento, pero también muchos riesgos que hay que conocer y comprender para acompañar a los chicos en el desarrollo de su autonomía. Por eso, hoy, educar con responsabilidad significa educar para un uso sano y seguro de la tecnología.

Los nombres propios Héctor Hernández Montecinos, 2018 A partir de un intenso poema y luego de una dolorosa carta de despedida de su última relación, Héctor Hernández Montecinos (1979) regresa a su infancia y adolescencia cuando simplemente era Adrián para intentar explicarse a sí mismo ciertos aspectos que no solo tienen que ver con su vida sino también qué hace con todo eso ahora como un autor en el mejor momento de su producción. El género, literario y sexual, es aquí una mera excusa para hablar de otras cosas: el amor en todas sus dimensiones, un país cuyo mar es su trágica metáfora, la identidad. Los nombres propios es un libro descarnado, conmovedor y sin ningún tipo de reserva en el cual buceamos a la raíz de la creatividad de uno de los poetas más talentosos en lo que va de siglo.

**Exploration of Index-Based Insurance for Smallholder Farmers in Mozambique** Israel Muchena, 2025-01-28 The current seeds regulations in Mozambique specify, amongst other things, minimum required standards of germination rates depending on type, variety and stage of development of the seed We were aware that formal seed markets relied on research and development of seed breeds for assurance of the required quality and for innovations such as drought resistant varieties. Given the application of these essential risk control measures in this key input and the broad network of seed distribution channels, we believed that seed suppliers could play a critical role in the marketing of our proposed complimentary climate risk mitigation product to serve our common goals of protecting and increasing resilience of agricultural primary production. We explain in this book how we implemented this idea and the various questions that we explored in our index-based insurance extension project including the following: How could we enhance standard product guarantees of seed companies to offer additional protection against critical climate-related risks? How could we embed climate risk insurance in formal seed systems without adding cost for the end-beneficiaries? What technology and distribution innovations should we consider for the purposes of ensuring that we can monitor cost-effectively covered risks? What value-adding services should be made available to support the risk carriers, the distribution partners and the smallholder farmers? How did we promote

agricultural risk literacy using indigenous knowledge systems located in ancient African oral traditional stories that were part of the customs of our target population?

**Performances of Suffering in Latin American Migration** Ana Elena Puga, Víctor Espinosa, 2020-04-09 This book questions the reliance on melodrama and spectacle in social performances and cultural productions by and about migrants from Mexico and Central America to the United States. Focusing on archetypal characters with nineteenth-century roots that recur in the twentieth- and twenty-first centuries – heroic saviors, saintly mothers and struggling fathers, martyred children and rebellious youth – it shows how theater practitioners, filmmakers, visual artists, advocates, activists, journalists, and others who want to help migrants often create migrant melodramas, performances that depict their heroes as virtuous victims at the mercy of evil villains. In order to gain respect for the human rights that are supposedly already theirs on paper and participate in a global market that trades in performances of suffering, migrants themselves sometimes accept the roles into which they are cast, or even cast themselves. Some express their suffering publicly, often on demand. Others find ways to twist, parody, resist, or reject migrant melodrama. Timely, beautifully written, and deeply researched, Puga's and Espinosa's study captures the complex nuances of how performance scholars and ethnographers grapple with telling stories of and bearing witness to trauma. They invite scholars to re-imagine the narrative genres into which histories of migration are often coerced. They question how familiar forms such as melodrama can empower or dis-empower individuals struggling to share their stories and change their circumstances. Their thoughtful work offers a compassionate and erudite model for performance ethnographers. Heather S. Nathans Alice and Nathan Gantcher Professor in Judaic Studies Tufts University In their penetrating analysis, Puga and Espinosa show how militarized borders, neoliberal economics, exclusionary immigration policies, and rising nativism have combined to create an ongoing melodrama in which migrants, journalists, and rescuers perform scripted roles as martyrs, saints, and heroes in an effort to sway a global audience of onlookers. Although the protagonists in this melodrama seek to relieve the suffering of migrants by valorizing their pain and using it as a currency in a political economy of suffering, the authors' sympathetic but critical analysis reveals both the promise and perils of this emotive strategy. Their analysis is essential to understanding how immigration is portrayed and perceived in the world today. Douglas S. Massey Henry G. Bryant Professor of Sociology and Public Affairs Princeton University Ana Elena Puga and Víctor M. Espinosa's *Performances of Suffering* is well-researched and compellingly theorized collaboration which reveals the affective labor performed by, with and for migrants in the United States and Mexico. In these perilous times, the lessons that this book teaches us about the performance of melodrama as a key aspect of obtaining justice and care for migrants throughout the hemisphere are crucial to understanding representations of "migrant crises" in our contemporary social media, performance and advocacy movements. Patricia Ybarra Professor of Theatre Arts and Performance Studies Brown University In this fascinating book, Puga and Espinosa illuminate the political economy of suffering among Latin American

migrants. This is a timely and important work to understand how migrants, the state, humanitarian workers, and the media all perform the melodrama of the suffering migrant. An impressive and provocative book! Carolyn Chen Associate Professor of Ethnic Studies University of California at Berkeley

En busca de los estudios organizacionales de Latinoamérica Sanabria, Mauricio, Dornelas Camara, Guilherme, Rivera Aguilera, Guillermo, Bauni, Natalia, Núñez Rodríguez, Carlos Juan, Abad Merchán, Andrés, 2024-05-31 Este libro surge institucionalmente en la Red de Estudios Organizacionales de Latinoamérica (REOL) y da cuenta de los desarrollos alcanzados, en esencia, en los siete países cuyas redes hoy la conforman (no se cuenta aquí la red venezolana, dado su muy reciente vinculación). Estos desarrollos son socializados por parte de investigadores seleccionados por esas redes académicas, las cuales se han conformado, de un modo u otro, alrededor del campo de los estudios organizacionales en cada una de estas naciones. Esta obra es el resultado de un prometedor ejercicio de integración de la comunidad académica latinoamericana interesada en aportar al desarrollo del campo de los estudios organizacionales. En particular, desde la identidad, problemáticas y realidades propias de este contexto, aunque teniendo siempre a la vista el horizonte global. Busca aportar al interés de desarrollar una mirada inicial, lo más panorámica posible en estos momentos, del campo en esta región del sur del globo y, con ello, contribuir también a la identificación de académicos, redes, orígenes, historias, procesos evolutivos, planteamientos, particularidades y aspectos comunes de siete países que, gracias al trabajo de diversos investigadores, han generado planteamientos valiosos al respecto desde hace años.

*De neuronas a galaxias. ¿Es el universo un holograma?* Adolfo Plasencia Diago, 2021-04-30 La ciencia, hoy en día, es más un proceso de colaboración que momentos “eureka” individuales. Mediante una serie de diálogos interconectados con destacados científicos, a los que se les pide que reflexionen sobre preguntas y conceptos clave en torno al mundo físico, la tecnología y la mente, se recrea aquí este tipo de sinergia. Estos pensadores aportan tanto observaciones específicas, como comentarios más amplios sobre las tradiciones intelectuales que se han ocupado de estas preguntas, y, al hacerlo, revelan una rica veta de ideas que interactúan entre sí. La persistente paradoja de nuestra era es que, en un mundo con una capacidad de acceso a la información sin precedentes, muchas de las cuestiones más importantes siguen sin resolverse. Estas conversaciones, conducidas por un veterano escritor científico, Adolfo Plasencia, reflejan esta circunstancia de la mano de científicos y humanistas que tratan temas como la inteligencia, la conciencia, el calentamiento global, la energía, la tecnología, la materia, la posibilidad de otra Tierra, el cambio del pasado e incluso la curvatura filosófica: “De neuronas a galaxias, ¿es el universo un holograma?”. Los diálogos discuten aspectos tan fascinantes del mundo físico como la función del bit cuántico, la cosmología del universo primordial o la sabiduría contenida en las antiguas piedras talladas. Ofrecen visiones optimistas pero razonadas de la tecnología, considerando la cultura de la convergencia, los algoritmos, la desigualdad Belleza  $\neq$  Verdad, la ética de los hackers, la inteligencia artificial y otros temas. Desde una diversa gama de disciplinas, aportan

diferentes perspectivas sobre la inteligencia, abordando aspectos como la neurofisiología del cerebro, la información afectiva, la innovación colaborativa y la sabiduría de las multitudes. Este volumen es la versión extendida en español del libro “Is the Universe a Hologram? Scientists Answer the Most Provocative Questions”, publicado con prefacio de Tim O’Reilly por MIT Press y Oxford University Press en su plataforma en línea.

*Los últimos días de Jack Sparks* Jason Arnopp, 2020-10-22 Jack Sparks murió mientras escribía este libro. El controvertido periodista Jack Sparks, célebre por las novelas que publica sobre sus investigaciones, decide emprender un viaje para demostrar que lo sobrenatural no existe. Durante el proceso de documentación, su irrespetuosa actitud al presenciar un exorcismo desencadena una serie de fenómenos que cualquier mente escéptica y racional encontraría del todo inexplicables. Pese a la avalancha mediática que envuelve a Sparks a partir de ese momento, nadie ha llegado a desvelar el misterio de lo sucedido tras el incidente. Hasta ahora. *Los últimos días de Jack Sparks* es un libro aterrador a la par que hilarante en el que Jason Arnopp da vida a un protagonista cruel, pero carismático, espejo del egocentrismo que invade el mundo moderno. Entre viajes en el tiempo, fantasmas vengativos y asesinatos de lo más sangrientos, esta trepidante narración es una pesadilla contemporánea irresistible.
