Making a Difference Peter Hernon, Nancy Rossiter, 2006-12-30 Leadership is separate from, but integral to, management; and library directors today and for the foreseeable future can be expected to play an institutional role as they lead the library to contribute towards the mission of their college and university. Similarly, new courses in library leadership now accompany more traditional ones on managing organizations and information resources. However, much of the literature on LIS leadership represents a distilled application of principles and practices borrowed from other disciplines, with few reports of research from the library field. Conceived as a companion to *The Next Library Leadership* (Libraries Unlimited, 2003), *Making a Difference* includes not only a discussion of effective attributes, but of issues central to the development of leadership qualities, strategies, and dispositions. Essential reading for anyone interested in advancing the quality of leadership within LIS, particularly academic librarians in or aspiring to positions of managerial leadership.

The Fascinating World of Aviation Jaime Fernandez, 2020-08-13 This is an entertainment book with real facts and history concerning about these aluminum birds with big wings we see every day in the sky. After doing many surveys and talking to people in airports worldwide, I found out that people do not have much knowledge about the fascinating world of aviation. I felt that I had to tell them with simple words, a little bit of my personal traveling experience, and with all my research done with books of different languages like Portuguese, Italian, Spanish, and English. I will tell facts and history of the airplanes. We all take flight in some point of our life. Buying a ticket, first thing is to check the price and compare it with all the different airlines to get the best bargain. Timeframe, documents and visas if you are going out of the country. Check the weather, clothes to wear, seat in the plane (window or corridor), etc. Do you know what manufacturer is the airplane you are going to be when you are 35,000 feet in the air? How the huge plane with more than 300,000 lb. of weight can stay in the air? How safe are they? The difference between one and another. This book will answer these questions and many more about aviation. My book *The Fascinating World of Aviation* describe in an enjoyable way with the following five chapters: 1. History of Aviation 2. What Is an Airplane and How Safe Is It? 3. What is an Airport? 4. The Boeing Company and Their Airplane 737 Max 8 5. Tips and Suggestions for Passengers

Trump: The Chosen One Bruce Fine, Hank Lewin, 2020-06-15 With the threat of calling out the United States military to dominate US citizens in peaceful protest, Donald Trump has shown America his true autocratic tendencies and desire to rule this nation with an iron fist. For all those concerned with the safeguarding of our democracy you should read this book. "Trump: The Chosen One" explores the seduction of the Christian Right by Donald Trump preying on fears and prejudices to create false narratives and controversies, promoting an agenda of division, obfuscation and misdirection within our nation. This book shreds the moral and ethical reasoning of that large part of the Christian Right's unwavering support for a president whose actions show disdain for moral standards. We explore the danger of allowing a fanatical religious ideology to weave its way into the fabric of our political system, threatening out democracy. We draw a connection through: the hypocrisy of the religious right. Income and wealth inequality, foreign policy, climate change and the systematic dismantling of political, judicial and governmental institutions. We rely on a foundational American principle to frame the first three years of the Trump administration to reveal how this president's stance on global warming and steadfast support for fossil fuels places him in lockstep with Vladimir Putin and other tyrannical leaders. This book questions Trump's appeal to people of faith who should be alarmed at the president' lack of a moral compass; as well as civic-minded republicans who no longer

recognize today's GOP; It is an alarm to all those who are concerned with the preservation of our democracy who are concerned with: our environment, the relationship between faith and politics, Constitutional history, economic and tax policy.
