Psicología y pedagogía Alexis Leontiev, Alexander Romanovich Luria, Lev Semenovich Vigotsky, 2004-06-21 Colección de artículos de algunos de los principales psicólogos soviéticos, en los que se aborda el problema de la escuela en polémica con las teorías conductistas norteamericanas.

L.S. Vygotsky and Education Luis C. Moll, 2013-07-24 Vygotsky's legacy in education is enduring and prolific, influencing educational research and scholarship in areas as far ranging child development, language and literacy development, bilingual education, and learning disabilities to name but a few. In this accessible, introductory volume, renowned Vygotsky authority Luis C. Moll presents a summary of Vygotskian core concepts, constituting a cultural-historical approach to the study of thinking and development. Moll emphasizes what he considers central tenets of Vygotsky's scholarship --- the sociocultural genesis of human thinking, the consideration of active and dynamic individuals, a developmental approach to studying human thinking, and the power of cultural mediation in understanding and transforming educational practices, broadly considered. After an introduction to Vygotsky's life, the historical context for his work, and his ideas, Moll provides examples from his educational research inspired by Vygotsky's work. With both critical scrutiny of current interpretations of Vygotskian theory and clear deference for the theorist known as The Mozart of Psychology, Moll stresses the many ways Vygotsky's theory can offer a theory of possibilities for positive pedagogical change.

The Best for Our Children Maria de la Luz Reyes, John J. Halcon, 2001 This watershed volume brings together the foremost leading authorities and scholars lending their individual voices to a single, urgent issue: literacy for Latino students. In a departure from traditional paradigms, Latinos examine their own lived experiences in U.S. schools and offer sound theories born from positions of expertise and first-hand knowledge as researchers and educators. Their discussions and critical perspectives on literacy for Latino students in grades K-12 touch on the important topics of: Encouraging biliteracy in the classroom Constructing theories of possibility Promoting critically literate youth Organizing teaching and learning to students' potential Linking literacy to lived experiences As insiders in Spanish-speaking communities that are often maligned for their children's alleged "failure" in schools, these authors offer hope for children's academic potential as well as evidence showing that integration of native language and culture in supportive learning environments can lead to success in literacy in two languages. Contributors: Alma Flor Ada, Héctor H. Alvarez, María V. Balderrama, Patricia Baquedano-López, Lilia I. Bartolomé, María Echiburu Berzins, Esteban Díaz, Bárbara Flores, María E. Fránquiz, Kris D. Gutiérrez, Bobbi Ciriza Houtchens, Robert T. Jiménez, Eloise Andrade Laliberty, Alice E. López, Roberta Maldonado, Carmen I. Mercado, Luis C. Moll, Rosa Zubizarreta "In this illuminating volume, the authors courageously challenge the assumption of a skill-based English-only literacy for Latinos. By shifting the literacy debate to a sociocultural terrain, they urge readers to confront the prevailing issues of racism, classism, gender, and economic deprivation that characterize the literacy of Latino/Latina students in the U.S. public schools. Simply put, this volume provides readers with the necessary political clarity to understand and appreciate what it means to be literate in the changing multilingual and multicultural world of the 21st century." —Donaldo Macedo, Distinguished Professor of Liberal Arts and Education, University of Massachusetts, Boston

Las prácticas de enseñanza Jorge Steiman, 2020-05-06 Las prácticas de enseñanza -en análisis desde una Didáctica reflexiva- es un propuesta de análisis de las propias prácticas de enseñar desde una perspectiva didáctica con asiento en una mirada socioantropológica. El texto da fundamentos teóricos y metodológicos para que los docentes, especialmente los de la

educación superior, ayuden a sus estudiantes de Profesorado a construir hábitos reflexivos y, a la vez, lo hagan consigo mismos en su propia docencia. Desde un equilibrado relato, por momentos se trata de un cimentado informe de investigación y, por otros, de un ensayo propositivo que orienta la acción. Ahonda tanto en las propias prácticas de los docentes, como en los sentidos asignados y las racionalidades que subyacen a las propuestas curriculares de las Prácticas Profesionales Supervisadas que se proponen a los estudiantes durante sus trayectos formativos. Conocemos al autor de otros textos que hemos publicado: su marca continúa siendo el estilo amable de su escritura, la sencillez y claridad con que realiza sus análisis, los pies sobre la tierra que caracteriza sus propuestas y la presencia de algo más de una veintena de poesías que recrean la lectura y se regalan tiernamente a los lectores.

Non-Western Educational Traditions Timothy G. Reagan, 2004-09-22 This text provides a brief yet comprehensive overview of a number of non-Western approaches to educational thought and practice. Its premise is that understanding the ways that other people educate their children--as well as what counts for them as education--may help us think more clearly about some of our own assumptions and values, and to become more open to alternative viewpoints about important educational matters. The value of this informative, mind-opening text for preservice and in-service teacher education courses is enhanced by Questions for Discussion and Reflection and Recommended Further Readings included in each chapter. New in the Third Edition: *Chapter 2, Conceptualizing Culture: 'I, We, and The Other,' is new to this edition. It is a response to feedback about the problems inherent in our general discourse about culture, and in addition provides an example of a culture that is near to us but nevertheless alien--the culture of the Deaf-World. *Chapter 9--which deals with Islam and traditional Muslim education--has been substantially revised. *The subtitle of the Third Edition has been changed to Indigenous Approaches to Educational Thought and Practice, reflecting not so much a change in the emphases found in the book, but rather, a recognition of the growing scholarly interest in indigenous peoples, their languages, cultures, and histories. *Various points throughout the text have been expanded and clarified, and chapters have been updated as needed.

Estrategias e investigaciones desde las didácticas Carlos Muñoz Sánchez, Eliseo Lara Órdenes, 2024-01-01 El avance de la educación, la ciencia y la tecnología ha generado una gran cantidad de conocimientos y estrategias didácticas, los cuales han aportado en la transformación de los nuevos escenarios pedagógicos de manera significativa, destacando de forma fundamental los aspectos procedimentales desde y entre las especialidades de la educación en todos los niveles. Las didácticas e innovaciones educativas representan un desafío constante a los profesionales de la educación, porque permiten mejorar los ámbitos del proceso de enseñanza y aprendizaje, donde la ciencia y la especialización educativa han jugado roles fundamentales. El III Congreso Internacional de Didáctica UNAB fue una instancia académica y de investigación realizada en octubre 2018 y tuvo como principal enfoque «Promover el intercambio y la difusión de experiencias y resultados de la didáctica a nivel nacional e internacional, generando espacios de diálogo acerca de metodologías y perspectivas de la

didáctica educacional».

Educación Infantil María del Carmen Sáinz Hernández,Javier Argos González,1998-06-24 So that child education is the springboard on which equality of opportunities becomes opportunity for all, a detailed analysis is needed; for this, the authors of this book indicate some basic axis on which one can design and implement, without intending to cover all the detected needs in the area of “the child”, proposing to achieve three objectives: offer service to the educators on themes of special relevance; provoke theoretical-practical reflection and fill the gap that has not been covered by other publications in a more specific and systematic way, trying to interrelate the contents with different fields. The book is structured in three parts where evolutionary, didactic and pedagogical-organizational aspects are not only developed vertically but they crisscross and relate among themselves. The conclusions to which each of the authors arrive, are opened up through their reflection and/or are developed for integration in others of greater importance.
