The Family Business 6 Carl Weber, La Jill Hunt, 2024-01-23 New York Times bestselling author Carl Weber and Essence® bestseller La Jill Hunt return with a story of love, money, power, and respect in the next edition of the popular Family Business series. Five years ago, Orlando Duncan created the perfect drug in HEAT. It made the Duncans more than two hundred and fifty million dollars and was on its way to making them billionaires. However, they abruptly stopped manufacturing the drug when it was proven to cause cancer in rats. Yes, even as drug distributors, they still had a moral compass, placing lives over profit despite the overwhelming demand. When Orlando is awakened by an alarm in his old lab, he discovers that not only have all his computers, equipment, and notes been stolen, but the robbers have also taken over a million tabs of HEAT that he'd left behind for future experiments—tabs that he had sworn to his family he would destroy. Dr. Brandi Richardson is one of the most brilliant research chemists in the world, but her propensity for cutting corners led to her firing from both Dow Chemicals and Dupont. She's now working at CVS as a clerk, but things are about to change for her in a big way. Billionaire Alexander Cora is known as the Moor by business associates and enemies. His company, Cora International, is a publicly traded EU defense contractor. It is also a front for one of the largest weapons, drugs, and illegal contraband smuggling rings in the world. For some reason, he has set his sights on the Duncan family. That can't be good, because Alexander plays for keeps, and he has not been known to lose. Niles Monroe, the handsome hitman and Paris Duncan's one true love, is back from the dead, and it's only a matter of time before he comes looking for her. These rich and powerful people are on a collision course. When the dust settles, who will still be alive, and who will be on top?

Carolinian Robertsons: The Family of Adjutant General T. R. Robertson of Winnsboro, SC, and Charlotte and Raleigh, NC Christopher Hunt Robertson, M.Ed., 2022-11-17 The Civil War is presented here through a family-centered, biographical lens, exploring the lived experiences and evolving roles of several generations of the Robertson family, highlighting how the war and its aftermath shaped their identities, values, and public service. The book details how T. R. Robertson and his family navigated the challenges of Reconstruction, with a particular focus on T.R.'s contributions to post-war civic order. As Adjutant General of North Carolina, he played a key role in using military resources to prevent lynchings and maintain the rule of law. This linkage demonstrates how the unresolved tensions of the Civil War era continued to shape Southern society

for decades. The author portrays the Civil War as a catalyst for both trauma and transformation, leading to new forms of leadership and community rebuilding. T.R.'s wife, Cora Johnston Robertson, is noted for her efforts to help establish the predecessors of Queens University and the Carolinas Medical Center, two of Charlotte's enduring institutions. Cora's and T.R.'s children provided leadership in the military and in local and state historical and literary associations, and they co-developed large-scale commercial projects in uptown Charlotte. Two earlier members of the Fairfield County, SC, Robertson clan are also introduced. T.R.'s father, Judge William Ross Robertson, was a Confederate leader. Thomas James Robertson, his presumed cousin, became a Union leader, abolitionist, two-term U.S. Senator, and a major figure in rebuilding Columbia, SC, after the war. By presenting these contrasting allegiances, the author underscores the complexity of Southern loyalties and the personal and ideological divisions existing within a single family. Christopher Hunt Robertson presents the Civil War as a complex, deeply personal event with long-lasting effects on families and communities. By weaving together stories of both Confederate and Union sympathizers within the same family, and by emphasizing the transformative power of Reconstruction and civic engagement, he offers a nuanced, humanized perspective on the war and its aftermath. (Recipient of a 2023 Award of Excellence from the North Carolina Society of Historians)

Eye on the Future Henry Cornelius Klassen,2002 An accessible business history that considers the dynamic interplay between economic climate and the personal determination of business people in the late 1800s. The book provides insight into how entrepreneurs, retailers, manufacturers, bankers, farmers, and ranchers pioneered a booming business city. It discusses the people and activities that helped to create the conditions in which Calgary emerged as a city and the Bow Valley an important agricultural centre. Historical figures such as Isaac G Baker, Agnes K Bedingfeld, and James A Loughheed in the context of business in Calgary. The author also talks about the obstacles that faced business and civic leaders: how to promote economic growth of the city; how to create demand for goods and services; how to finance transportation improvements; how to assimilate substantial social and political change.

Biographical and Historical Memoirs of Mississippi Goodspeed's, Embracing an authentic and comprehensive account of the chief events in the history of the state, this newly republished double volume collection provides a record of the lives of many of the most worthy and illustrious families and individuals of Mississippi. Part 1, containing chapters one through fifteen, explores everything from postbellum organization to the records of families and individuals, including several citizens' private memoirs. This section provides much of the historical information from the legal and judicial history, political, educational, and religious history.

History of Stephenson County, Illinois Addison L. Fulwider,1910

Descendants of William Cromartie and Ruhamah Doane Amanda Cook Gilbert,2013 This ambitious work chronicles 250 years of the Cromartie family genealogical history. Included in the index of nearly fifty thousand names are the current generations, and all of those preceding, which trace ancestry to our family patriarch, William Cromartie, who was born in 1731 in Orkney, Scotland, and his second wife, Ruhamah Doane, who was born in 1745. Arriving in America in 1758, William Cromartie settled and developed a plantation on South River, a tributary of the Cape Fear near Wilmington, North Carolina. On April 2, 1766, William married Ruhamah Doane, a fifth-generation descendant of a Mayflower passenger to Plymouth, Stephen Hopkins. If Cromartie is your last name or that of one of your blood relatives, it is almost certain that you can trace

your ancestry to one of the thirteen children of William Cromartie, his first wife, and Ruhamah Doane, who became the founding ancestors of our Cromartie family in America: William, Jr, James, Thankful, Elizabeth, Hannah Ruhamah, Alexander, John, Margaret Nancy, Mary, Catherine, Jean, Peter Patrick, and Ann E. Cromartie. These four volumes hold an account of the descent of each of these first-generation Cromarties in America, including personal anecdotes, photographs, copies of family bibles, wills, and other historical documents. Their pages hold a personal record of our ancestors and where you belong in the Cromartie family tree.

Genealogical and Family History of the State of Maine George Thomas Little, 1909

Champion of Civil Rights Joel William Friedman, 2009-01-01 One of the least publicly recognized heroes of the civil rights movement in the United States, John Minor Wisdom served as a member of the U.S. Court of Appeals for the Fifth Circuit from 1957 until his death in 1999 and wrote many of the landmark decisions instrumental in desegregating the American South. In this revealing biography, law professor Joel William Friedman explores Judge Wisdom's substantial legal contributions and political work at a critical time in the history of the South. In 1957, President Eisenhower appointed Wisdom to the Fifth Circuit, which included some of the most deeply segregated southern states: Alabama, Florida, Georgia, Louisiana, Mississippi, and Texas. In the tumultuous two decades following its decision in *Brown v. Board of Education*, the Supreme Court issued only a few civil rights decisions, preferring instead to affirm Fifth Circuit Court opinions or let them stand without hearing an appeal. Judge Wisdom, therefore, authored many of the decisions that transformed the South and broke down barriers of all kinds for African Americans, including the desegregation of public schools. In preparing this first full-length biography of Judge Wisdom, Friedman had unrestricted access to Wisdom's voluminous repository of personal and professional papers. In addition, he draws on personal interviews with law clerks who served under Judge Wisdom, resulting in a unique, behind-the-scenes account of some of the nation's most important legal decisions: the admission of the first black student to the University of Mississippi, the initiation of contempt proceedings against Mississippi Governor Ross Barnett, and the destruction of obstacles that had previously kept black Americans from voting. Friedman also explores Wisdom's political life prior to joining the federal bench, including his pivotal role in resurrecting the Louisiana Republican Party and in securing the Republican presidential nomination for Eisenhower. A compelling account of how a child of privilege from one of America's most socially and racially stratified cities came to serve as the driving force behind the legal effort to end segregation, *Champion of Civil Rights* offers judicial biography at its best.

The Papers of Thomas A. Edison Thomas A. Edison,

Broadway Plays and Musicals Thomas S. Hischak, 2009-04-22 New York City's Broadway district is by far the most prestigious and lucrative venue for American performers, playwrights, entertainers and technicians. While there are many

reference works and critical studies of selected Broadway plays or musicals and even more works about the highlights of the American theater, this is the first single-volume book to cover all of the activities on Broadway between 1919 and 2007. More than 14,000 productions are briefly described, including hundreds of plays, musicals, revivals, and specialty programs. Entries include famous and forgotten works, designed to give a complete picture of Broadway's history and development, its evolution since the early twentieth century, and its rise to unparalleled prominence in the world of American theater. The productions are identified in terms of plot, cast, personnel, critical reaction, and significance in the history of New York theater and culture. In addition to a chronological list of all Broadway productions between 1919 and 2007, the book also includes approximately 600 important productions performed on Broadway before 1919.

The Unnaming of Kroeber Hall Andrew Garrett, 2023-12-12 A critical examination of the complex legacies of early Californian anthropology and linguistics for twenty-first-century communities. In January 2021, at a time when many institutions were reevaluating fraught histories, the University of California removed anthropologist and linguist Alfred Kroeber's name from a building on its Berkeley campus. Critics accused Kroeber of racist and dehumanizing practices that harmed Indigenous people; university leaders repudiated his values. In *The Unnaming of Kroeber Hall*, Andrew Garrett examines Kroeber's work in the early twentieth century and his legacy today, asking how a vigorous opponent of racism and advocate for Indigenous rights in his own era became a symbol of his university's failed relationships with Native communities. Garrett argues that Kroeber's most important work has been overlooked: his collaborations with Indigenous people throughout California to record their languages and stories. *The Unnaming of Kroeber Hall* offers new perspectives on the early practice of anthropology and linguistics and on its significance today and in the future. Kroeber's documentation was broader and more collaborative and multifaceted than is usually recognized. As a result, the records Indigenous people created while working with him are relevant throughout California as communities revive languages, names, songs, and stories. Garrett asks readers to consider these legacies, arguing that the University of California chose to reject critical self-examination when it unnamed Kroeber Hall.

Experimental Television, Test Films, Pilots and Trial Series, 1925 through 1995 Vincent Terrace, 2024-10-16 Test films, pilots, trial series, limited runs, summer tryouts--by whatever name, television networks have produced thousands of experimental shows that never made it into the regular line-up. Some were actually shown, but failed to gain an audience; many others never even made it on the air. This work includes more than 3,000 experimental television programs, both aired and unaired, that almost became a series. Entries include length, network, air date (if appropriate), a fact-filled plot synopsis, cast, guest stars, producer, director, writer, and music coordinator. Fully indexed.
