Lost Islamic History Firas Alkhateeb, 2017-11-15 Islam has been one of the most powerful religious, social and political forces in history. Over the last 1400 years, from origins in Arabia, a succession of Muslim polities and later empires expanded to control territories and peoples that ultimately stretched from southern France to East Africa and South East Asia. Yet many of the contributions of Muslim thinkers, scientists and theologians, not to mention rulers, statesmen and soldiers, have been occluded. This book rescues from oblivion and neglect some of these personalities and institutions while offering the reader a new narrative of this lost Islamic history. The Umayyads, Abbasids, and Ottomans feature in the story, as do Muslim Spain, the savannah kingdoms of West Africa and the Mughal Empire, along with the later European colonization of Muslim lands and the development of modern nation-states in the Muslim world. Throughout, the impact of Islamic belief on scientific advancement, social structures, and cultural development is given due prominence, and the text is complemented by portraits of key personalities, inventions and little known historical nuggets. The history of Islam and of the world's Muslims brings together diverse peoples, geographies and states, all interwoven into one narrative that begins with Muhammad and continues to this day.

The Oxford History of Islam John L. Esposito, 1999 In this work sixteen leading scholars, both Muslim and non-Muslim, examine the origins and historical development of Islam - its faith, community, institutions, sciences, and arts. Beginning in the pre-Islamic Arab world, the chapters include extensive overviews and perspectives from the story of Muhammad and his Companions, to the development of Islamic religion and culture and the empires that grew from it, to the influence that Islam has on today's world.--Home page.

Concise History of Islam Muzaffar Husain Syed, Syed Saud Akhtar, B D Usmani, 2011-09-14 In World History, History of Islam is a glorious chapter. In fact, Muslim History involves the history of the Islamic faith as a religion and as a social institution. Through various periods, Islam made many a long stride and its influence spread far-off over the globe. Apart from religion, Muslims made considerable contribution in areas, like philosophy, literature, arts, law, economy, science, medicine and commerce etc. At the academic level, Muslim philosophers, educationists and experts of Islamic law have made great contributions. The evolution of Islam has impacted the political, economic and military history of an enormous geographical region. A century after the demise of Prophet Muhammad (Pbuh) the, Islamic empire extended from the

Atlantic Ocean in the west to Central Asia in the east. Islamic civilization gave rise to many centers of culture and science and produced notable philosophers, scientists, astronomers, mathematicians, doctors and nurses, during the Golden Age of Islam. In today's world, Islam is one of the major religions and perhaps there is hardly any corner of the world, where Muslims are not found. History of Islam is a vast subject. Here it is in a concise form. This modest work, a comprehensive book in one cover, is an effort in the direction of recording the history of Islam in nutshell, authentically. This excellent book is an asset for all scholars and academics in all spheres of learning.

Islamic History M. A. Shaban, 1976 Volume 1: This book presents for the first time a clear narrative analysis of the central events of the Islamic domains between the rise of the Abbasids and the Saljuq invasion. It was a period of intense political and economic activity as the Abbasids extended their empire and gradually lost control of it; these years also marked the rise and fall of the Fatimid regime in Egypt and the growth of other regional power groups. The study is based on original sources and Dr Shaban challenges many received opinions.

Islamic Historiography Chase F. Robinson, 2003 How did Muslims of the classical Islamic period understand their past? What value did they attach to history? How did they write history? How did historiography fare relative to other kinds of Arabic literature? These and other questions are answered in Chase F. Robinson's *Islamic Historiography*, an introduction to the principal genres, issues, and problems of Islamic historical writing in Arabic, that stresses the social and political functions of historical writing in the Islamic world. Beginning with the origins of the tradition in the eighth and ninth centuries and covering its development until the beginning of the sixteenth century, this is an authoritative and yet accessible guide through a complex and forbidding field, which is intended for readers with little or no background in Islamic history or Arabic.

A Chronology of Islamic History H. U. Rahman, 1995

Islamic History R. Stephen Humphreys, 2020-06-16 This book will be immensely helpful to those who wish to orient themselves to what has become a very large body of literature on medieval Islamic history. Combining a bibliographic study with an inquiry into method, it opens with a survey of the principal reference tools available to historians of Islam and a systematic review of the sources they will confront. Problems of method are then examined in a series of chapters, each exploring a broad topic in the social and political history of the Middle East and North Africa between A.D. 600 and 1500. The topics selected represent a cross-section of Islamic historical studies, and range from the struggles for power within the early Islamic community to the life of the peasantry. Each chapter pursues four questions. What concrete research problems are likely to be most challenging and productive? What resources do we possess for dealing with these problems? What strategies can we devise to exploit our resources most effectively? What is the current state of the scholarly literature for the topic under study?

Europe and the Islamic World John Victor Tolan, Gilles Veinstein, Henry Laurens, Jane Marie Todd, 2013 In this ... book, three .. historians bring to life the complex and tumultuous relations between Genoans and Tunisians, Alexandrians and the people of Constantinople, Catalans and Maghrebis - the myriad groups and individuals whose stories reflect the common cultural and religious heritage of Europe and Islam. Since the seventh century, when the armies of Constantinople and the Medina fought for control of Syria and Palestine, there has been ongoing contact between the Muslim world and the West. This sweeping history recounts the wars and the crusades, the alliances and diplomacy, commerce and the slave trade, technology transfers, and the intellectual and artistic exchanges. [Readers] are given an ... introduction to key periods and events, including the Muslim conquests, the collapse of the Byzantine Empire, the commercial revolution of the medieval Mediterranean, the intellectual and cultural achievements of Muslim Spain, the crusades and Spanish reconquista, the rise of the Ottomans and their conquest of a third of Europe, European colonization and decolonization, and the challenges and promises of this entwined legacy today. ...-Jacket.

Islamic History Britannica Educational Publishing, 2009-10-01 Given that Islam predominates in over thirty countries around the world, the history of the Islamic world requires a broad perspective. This in-depth look at the history of the religion and culture of Islam and the Muslim people covers the extreme breadth of the topic while still maintaining a detailed focus on the key people and events of the long and fascinating history of the Islamic World.

Classical Islam Gustave E. Von Grunebaum, 1996 The period from 610 A.D. when Muhammad received his call until the conquest of Baghdad by the Mongols in 1258 is known as the classical period of Islam. This was the period of the great expansion of Islam both as a political structure and as a religious and intellectual community. It established the base for the development of the high Islamic civilization of North Africa, the Near East, Persia, and India, as well as further expansion of the Islamic religious and intellectual community throughout the world. This book presents an authoritative history of the period written by one of the world's leading experts on the subject. Classical Islam examines the relationships, both cultural and political, between the Islamic world and the Mediterranean countries and India and elaborates on the economic, social, and intellectual factors and forces that shaped the Muslim world and molded its interactions with infidels. The work is written in a clear and direct narrative form, emphasizing simultaneously the major intellectual trends and the political events and tendencies of the formative period in Islamic history that still resonates today.--from front jacket flap

Islamic History as Global History Richard Maxwell Eaton,1990

Lessons In Islamic History Shaykh Muhammad Al-Khudari Bak Al-Bajuri,2016-01-01 Lessons in Islamic History is an essential summary of Shaykh Muhammad Khudari Bak's series of groundbreaking works on Islamic history, in which this pioneering Egyptian historian and scholar of Shari'ah and Arabic literature distils the essence of his three outstanding works on the Prophetic Biography, the Rightly-Guided Caliphs and the Umayyad and 'Abbasid Dynasties. In his distinctively eloquent yet uncomplicated style, he traces the changing political and social circumstances of the Islamic peoples from their origins in the pre-Islamic Arabic Peninsula until his own time in the Ottoman Khedivate of Egypt. An instinctive educator who explained that he wrote not merely to record history, but so that history might benefit, the author outlines the vicissitudes of Islamic history with refreshing objectivity and restraint, highlighting the lessons to be learnt from past events. In an era when competing historical narratives vie for supremacy, this text provides a clear and concise account of Muslim leadership throughout history and its consequences for the Ummah. As such, it is an indispensable read for young and old alike.

Islamic History Adam J. Silverstein,2010-01-21 Does history matter? This book argues not that history matters, but that Islamic history does. This Very Short Introduction introduces the story of Islamic history; the controversies surrounding its study; and the significance that it holds - for Muslims and for non-Muslims alike. Opening with a lucid overview of the rise and spread of Islam, from the seventh to twenty first century, the book charts the evolution of what was originally a small, localised community of believers into an international religion with over a billion adherents. Chapters are also dedicated to the peoples - Arabs, Persians, and Turks - who shaped Islamic history, and to three representative institutions - the mosque, jihad, and the caliphate - that highlight Islam's diversity over time. Finally, the roles that Islamic history has played in both religious and political contexts are analysed, while stressing the unique status that history enjoys amongst Muslims, especially compared to its lowly place in Western societies where history is often seen as little more than something that is not to be repeated. Some of the questions that will be answered are: · How did Islam arise from the obscurity of seventh century Arabia to the headlines of twenty first century media? · How do we know what we claim to know about Islam's rise and development? · Why does any of this matter, either to Muslims or to non-Muslims?
