Srirupa Chatterjee, Shweta Rao Garg

Complexion Based Discriminations Dr. Deen Dayal, 2018-06-15 Complexion based discrimination is a harsh prejudice against dark-skinned people by fair-skinned people that has been prevalent in all countries and continents of the world. This book states the unbearable traumas faced by dark-skinned people such as Nelson Mandela, Martin Luther, Jimmy Carter, Barack Obama, Mahatma Gandhi, Bhimrao Ambedkar, and the Dalai Lama. The book is a harsh whip against the orthodox dogmas that make the lives of dark or black skinned people hell and is a healing balm to restore their stamina in the fight against people who deprive them of their rights. It is an effort to strike at the root of superstitions and prejudice. Worth is to be based on one's quality, talent, and hard work, not on skin colour.

The Routledge International Handbook of Colorism Ronald E. Hall, Neha Mishra, 2024-08-04 This timely and unique edited book explores the concept of colorism, which is discrimination based on the color of a person's skin. It takes a global approach that draws on authentic voices from varied contexts and is dedicated to exploring and enriching the diverse intellectual discourse on colorism. The book explores colorism across the globe and studies how it has been woven into the cultural fabric of communities of color. With 22 chapters organised geographically into parts representing six continents, it looks at various facets of colorism, offering international insights beyond a Western perspective. The handbook examines policy-making in the sphere of colorism internationally and across countries, and provides thoughtful insights on colorism discrimination in different contexts. Chapters are written by leading experts from different disciplinary backgrounds who present cutting-edge research on the topic of colorism in different country contexts, contributing to a global dialogue on colorism. The Routledge International Handbook of Colorism comprehensively highlights colorism and skin color bias which blurs the national and international boundaries. It will be fascinating reading for students and academics in psychology, social work, education, criminal justice and other social sciences. It will also be of interest to those working in areas relating to marginalization, human rights, diversity and inclusion.

Begrimed and Black Robert Earl Hood, Hood's unique and fascinating work probes the mythic roots of racial prejudice in Western attitudes toward color. With special attention to the history of ideas, but also to pictorial images and popular movements, Hood documents the inception and growth of the myth of black carnality, with its commingling of disdain and desire, fear and fascination.

History in Black Yaacov Shavit, 2013-11-12 The development of Afrocentric historical writing is explored in this study which traces this recording of history from the Hellenistic-Roman period to the 19th century. Afrocentric writers are depicted as searching for the unique primary source of culture from one period to the next. Such passing on of cultural traits from the ancient model from the classical period to the origin of culture in Egypt and Africa is shown as being a product purely of creative history.

Interdisciplinary Perspectives on Colorism Ronald E. Hall, 2022-07-22 This timely and unique book explores the concept of colorism, which is discrimination based on the color of a person's skin, in a world where arguably light skin is privileged over dark, and one's wealth, health, and opportunities are impacted by skin color, sometimes irrespective of one's racial background. In the context of our multi-cultural and increasingly global society, and the historical backdrop of slavery, the text takes a unique approach by moving from personal anecdotes to adopting a scientific perspective grounded in empirical evidence. Hall explores how skin color is a more effective framework for examining prejudice and discrimination, as racial identities become increasingly mixed due to inter-racial unions and immigration. He argues that racism as discrimination by race is contrived, polarizing, and non-quantifiable, and that it is often skin color that is used to identify race, often inaccurately. With skin color being a visual and physical characteristic, with race-based prejudices attached to it, the author shows how skin color can be a loaded identifier of value and identity. In a world where the objective measure of skin color crosses racial boundaries and where race will become increasingly indiscernible over time, the ultimate aim of this book is to prepare for the social future of mankind that has already begun to take shape. Split into three parts, examining historical, contemporary, and potential future perspectives on colorism, this is fascinating reading for students and academics in psychology, social work, education, criminal justice, and other social sciences. The text will also be useful for providing validation for including colorism into the public domain.

Consumer Culture Theory in Asia Yuko Minowa, Russell Belk, 2021-12-27 We live in times of increasing world uncertainty. Consumer culture in Asia has embodied such precariousness, with their unprecedented states of both prosperity and vulnerability. Works in this volume examine the consumer cultures that exist in today's precarious Asia. They do this through culturally oriented, critical consumer research. How deeply has the consumer precariousness in Asia been intertwined with the sociohistorical patterning of consumption including class, gender, and other social categories? How do these problematics affect consumers' identity projects, consumer rituals, and marketplace cultures? How is consumer precariousness aggravated by the governmentality of the superpower? How does the changing landscape of inter-Asian and global popular culture impact consumer culture in these nations? Together, the authors in this volume attempt to answer these questions through consumer research within the paradigm known as consumer culture theory (CCT). Since most CCT inquiry has been in Western contexts, this volume augments the existing knowledge. It presents the most current, critical,

historical, and material consumer studies focused on Asia. This volume will be of interest to seasoned CCT researchers and academics, for anyone new to CCT, and for postgraduate students interested in CCT or writing a consumer culture-related thesis.

Multiracial hephzibah v. strmic-pawl, 2022-10-14 The year 2000 was the first time the US Census permitted respondents to choose more than one race. Although the US has long recognized that a “mixed-race” population exists, the contemporary “multiracial population” presents different questions and implications for today’s diverse society. This book is the first overview to bring a systematic critical race lens to the scholarship on mixedness. Avoiding the common pitfall of conflating “mixed” with “multiracial,” the book reveals how identity forms and fluctuates such that people with mixed heritage may identify as mixed, monoracial, and/or multiracial throughout their lives. It analyzes the dynamic and various manifestations of mixedness, including at the global level, to reveal its complex impact on both the structural and individual levels. Multiracialcritically examinestopics such as family dynamics and racial socialization, multiraciality in media and popular culture, and intersections of race, gender, class, and sexual orientation. Integrating diverse theories, qualitative research, and national-level data, this accessible and engaging book is essential for students of race and those looking to understand the new field of multiraciality.

Wake up Black Man and Black Woman Alpha Omega Riddick, 2010-07-08 Black people of America, we need to stop reading books about thug life and street life. We need to read books that will open our minds to ideas and issues that will help us and our families and the future of black generations of this country. Black people of America, we were here before most of the other nationalities that are here now. We should be in a much better financial situation than we are in now. Most of us are at the bottom or near the bottom of the economic scale as a whole. We have to learn from the foreigners that stick

together and open up businesses in our community. Plus we have to stop giving our hard-earned money to other nationalities and none to ourselves; in a way, we are still slaves. I wrote this book to inspire Black Americans to open their eyes to the positive changes we need to make to help our families and future black generations in America. This book shows how we are living compared to other nationalities in America, as well as the factors that are holding us back as a whole. We must remember our ancestors and the sacrifices they made when they were slaves. They were the strongest people in the world, and we are their descendants. I feel they were superhuman beings to make that trip from Africa to America. We as black Americans have that same ability in us to survive. Remember, we are the alpha race. We need to wake up and stop hitting the snooze button. May God bless this book and everyone that reads it.

The Politics and Performance of Mestizaje in Latin America Paul K Eiss, Joanne Rapport, 2018-12-07 The term mestizaje is generally translated as race mixture, with races typically understood as groups differentiated by skin color or other physical characteristics. Yet such understandings seem contradicted by contemporary understandings of race as a cultural construct, or idea, rather than as a biological entity. How might one then approach mestizaje in a way that is not definitionally predicated on 'race,' or at least, on a modernist formulation of race as phenotypically expressed biological difference? The contributors to this volume provide explorations of this question in varied Latin American contexts (Mexico, Guatemala, Bolivia, Colombia, Peru), from the 16th century to the present. They treat 'mestizo acts' neither as expressions of pre-existing social identities, nor as ideologies enforced from above, but as cultural performances enacted in the in-between spaces of social and political life. Moreover, they show how 'mestizo acts' not only express or reinforce social hierarchies, but institute or change them - seeking to prove - or to dismantle - genealogies of race, blood, sex, and language in public and political ways. The chapters in this book originally published as a special issue of Latin American and Caribbean Ethnic Studies.

Female Body Image and Beauty Politics in Contemporary Indian Literature and Culture Srirupa Chatterjee, Shweta Rao Garg, 2024-05-10 Using a Humanistic Cultural Studies approach, this edited volume is the first book-length study of its kind to offer insights on the myriad representations and conceptualizations of women's body image in contemporary India--

The Historical Globalization of Colorism Ronald E Hall, 2022-01-01 This topical book shows that racism by skin color is much more embedded and prevalent in the modern world than racism by race. In the aftermath of globalization, humanity has experienced unprecedented levels of interaction. This book presents evidence to show that in the 21st century which is dependent on ever-expanding communication technologies, and new forms of visual media actually exacerbate historical mores of colorism in the lives of humanity, i.e.: African, Asian, Latinx, Native and European descent. The book discusses the historical roots and current values of idealization of light skin, skin bleaching practices, stereotypes of skin color developed through migration and cultural assimilation, and health and educational consequences of colorism.

Suspect Relations Kirsten Fischer, 2002 Over the course of the eighteenth century, race came to seem as corporeal as sex. Kirsten Fischer has mined unpublished court records and travel literature from colonial North Carolina to reveal how early notions of racial difference were shaped by illicit sexual relationships and the sanctions imposed on those who conducted them. Fischer shows how the personal?and yet often very public?sexual lives of Native American, African American, and European American women and men contributed to the new racial order in this developing slave society. Liaisons between European men and native women, among white and black servants, and between servants and masters, as well as sexual slander among whites and acts of sexualized violence against slaves, were debated, denied, and recorded in the courtrooms of colonial North Carolina. Indentured servants, slaves, Cherokee and Catawba women, and other members of less privileged groups sometimes resisted colonial norms, making sexual choices that irritated neighbors, juries, and magistrates and resulted in legal penalties and other acts of retribution. The sexual practices of ordinary people vividly bring to light the little-known but significant ways in which notions of racial difference were alternately contested and affirmed before the American Revolution. Fischer makes an innovative contribution to the history of race, class, and gender in early America by uncovering a detailed record of illicit sexual exchanges in colonial North Carolina and showing how acts of resistance to sexual rules complicated ideas about inherent racial difference.

The Melanin Millennium Ronald E. Hall, 2012-09-14 In the aftermath of the 60s “Black is Beautiful” movement and publication of *The Color Complex* almost thirty years later the issue of skin color has mushroomed onto the world stage of social science. Such visibility has inspired publication of the *Melanin Millennium* for insuring that the discourse on skin color meet the highest standards of accuracy and objective investigation. This volume addresses the issue of skin color in a worldwide context. A virtual visit to countries that have witnessed a huge rise in the use of skin whitening products and facial feature surgeries aiming for a more Caucasian-like appearance will be taken into account. The book also addresses the question of whether using the laws has helped to redress injustices of skin color discrimination, or only further promoted recognition of its divisiveness among people of color and Whites. The *Melanin Millennium* has to do with now and the future. In the 20th century science including eugenics was given to and dominated by discussions of race category. Heretofore there remain social scientists and other relative to the issue of skin color loyal to race discourse. However in their interpretation and analysis of social phenomena the world has moved on. Thus while race dominated the 20th century the 21st century will emerge as a global community dominated by skin color and making it the melanin millennium.

India's Imperial Formations Amrita Ghosh, Rohit K. Dasgupta, Bhakti Shringarpure, 2024-12-15 India's Imperial Formations explores the ways in which empire building occurs and consolidates through the Indian and diasporic cultural landscape, where a collusion with whiteness, Hindu fundamentalism, casteism, and religious and racial bigotry are rampant,

and create hegemonic imaginaries of an India that denies a democratic space of multiple Indias to coexist together. India is not only home to the world's largest film industry but also has one of the oldest media ecosystems today with a prolific output in television, radio, print, and digital media. These systems shape hearts and minds in the large nation and also have significant impact in the region as well as in the world due to India's vast diaspora population. This book argues that Indian culture industries are a crucial site to investigate constructions of Islamophobia, casteism, sinophobia, sexism, colorism and anti-Blackness. Within this work, the authors highlight the urgent need to evaluate the complicity of Indian and diasporic cultural production in perpetuating a casual and sometimes even aggressive normalization of bigotry and discrimination towards minoritized communities. This polemical book is written by three scholars of culture, gender and postcolonial studies providing an accessible yet rigorous study of these issues.

In India: Everything is Sunshine and Rainbows! Anushray Singh, 2018-03-12 Why do Indians lack social etiquettes and civic sense? Why foreign tourists find their Indian experience bittersweet? Why do our Film and Television industry the epitome of mediocrity? Why do Indians take offense at almost everything? Why do our politicians, bureaucrats, police, and justice departments contribute to a skewed and a corrupt system? Why do core Indian problems like poverty, hunger, overpopulation, and illiteracy get superseded by religion, patriotism and blissful ignorance? In a country, that is fast approaching the mark of, the largest population in the world, has somehow convinced herself and her citizens that everything around them is sunshine and rainbow. You see poverty, hunger, corruption, crime, injustice and brutality all around yet few feel the need to call a spade a spade. India is a country with immense diversity, rich tradition, and a unique culture. This book is a collection of essays under three different section and discusses issues of religion, politics, people, culture, traditions, films, problems etc. The book talks constructively about various issues concerning India; it can evoke an incredulous gasp from an outsider and an empathetic nod from a fellow Indian. The book points out issues that affect India and need the reader's attention, jokes around and becomes serious when it needs to be. The book showcases the viewpoint of a country's young population that is largest in the world and wants to show that constructive criticism is what this country needs to fulfill her moral and philosophical growth potential.

Affirmative Action in the United States and India Thomas E. Weisskopf, 2004-01-22 Arguably, two of the most important national experiences with policies of positive discrimination in favor of historically disadvantaged ethnic or caste minority groups are the cases of 'Affirmative Action' in the United States and 'Reservation Policies' in India. This essential new book examines the consequences of affirmative action in both count

Keywords for India Rukmini Bhaya Nair, Peter Ronald deSouza, 2020-02-20 What terms are currently up for debate in Indian society? How have their meanings changed over time? This book highlights key words for modern India in everyday usage as well as in scholarly contexts. Encompassing over 250 key words across a wide range of topics, including aesthetics

and ceremony, gender, technology and economics, past memories and future imaginaries, these entries introduce some of the basic concepts that inform the 'cultural unconscious' of the Indian subcontinent in order to translate them into critical tools for literary, political, cultural and cognitive studies. Inspired by Raymond Williams' pioneering exploration of English culture and society through the study of keywords, *Keywords for India* brings together more than 200 leading sub-continental scholars to form a polyphonic collective. Their sustained engagement with an incredibly diverse set of words enables a fearless interrogation of the panoply, the multitude, the shape-shifter that is 'India'. Through its close investigation and unpacking of words, this book investigates the various intellectual possibilities on offer within the Indian subcontinent at the beginning of a fraught new millennium desperately in need of fresh vocabularies. In this sense, *Keywords for India* presents the world with many emancipatory memes from India.

Colonial Complexions Sharon Block, 2018-03-13 In *Colonial Complexions*, historian Sharon Block examines how Anglo-Americans built racial ideologies out of descriptions of physical appearance. By analyzing more than 4,000 advertisements for fugitive servants and slaves in colonial newspapers alongside scores of transatlantic sources, she reveals how colonists transformed observable characteristics into racist reality. Building on her expertise in digital humanities, Block repurposes these well-known historical sources to newly highlight how daily language called race and identity into being before the rise of scientific racism. In the eighteenth century, a multitude of characteristics beyond skin color factored into racial assumptions, and complexion did not have a stable or singular meaning. Colonists justified a race-based slave labor system not by opposing black and white but by accumulating differences in the bodies they described: racism was made real by marking variation from a norm on some bodies, and variation as the norm on others. Such subtle systemizations of racism naturalized enslavement into bodily description, erased Native American heritage, and privileged life history as a crucial marker of free status only for people of European-based identities. *Colonial Complexions* suggests alternative possibilities to modern formulations of racial identities and offers a precise historical analysis of the beliefs behind evolving notions of race-based differences in North American history.
