Post-Horror is the first full-length study of one of the most important and divisive movements in twenty-first-century horror cinema.

Reconceptualising Adolescent Literacies As Textual Assemblages ,

Feature Films in English Language Teaching Britta Viebrock,2016-07-11 Feature Films in English Language Teaching deals with the use of motion pictures in the advanced EFL (English as a foreign language) classroom. It provides a general introduction to film literacy and explains the rationale, methods, and objectives of working with feature films. In addition, the book contains in-depth considerations on sixteen selected films, which are grouped regionally (Australia, New Zealand, South Africa, USA, Great Britain). Each chapter describes the topical focus of the film and its central theme and provides background information on social, historical, political, and geographical issues. A profound analysis of selected scenes lays the foundation for considerations on the teaching potential of the film. In a download section, the chapters are complemented with ready-to-use teaching materials on film-specific aspects (narrative, dramatic and cinematographic dimensions), which are organised as pre-/while-/post-viewing activities. A glossary on technical terms for film analysis completes the volume.

The Discourse of Online Consumer Reviews Camilla Vásquez,2014-06-19 The Discourse of Online Reviews is the first book to provide an account of the discursive, pragmatic and rhetorical features of this rapidly growing form of technologically-mediated communication. Examining a corpus of over 1,000 consumer reviews, Camilla Vásquez explores

many of the discourse features that are characteristic of this new, user-generated, computer-mediated and primarily text-based genre. She investigates the language used by reviewers as they forge connections with their audiences to draw them into their stories, as they construct their expertise and authority on various subjects and as they evaluate and assess their consumer experiences. She also demonstrates how reviewers display their awareness about emerging conventions of the very genre in which they are participating. This book adopts an eclectic approach to the analysis of discourse, and explores topics such as evaluation, identity and intertextuality as they occur in online reviews of hotels, restaurants, recipes, films and other consumer products.

The Art of Movies Nicolae Sfetcu,2014-05-06 Movie is considered to be an important art form; films entertain, educate, enlighten and inspire audiences. Film is a term that encompasses motion pictures as individual projects, as well as — in metonymy — the field in general. The origin of the name comes from the fact that photographic film (also called filmstock) has historically been the primary medium for recording and displaying motion pictures. Many other terms exist — motion pictures (or just pictures or picture), the silver screen, photoplays, the cinema, picture shows, flicks — and commonly movies.

Unsilencing Slavery Celia E. Naylor,2022-07 Popular references to the Rose Hall Great House in Jamaica often focus on the legend of the "White Witch of Rose Hall." Over one hundred thousand people visit this plantation every year, many hoping to catch a glimpse of Annie Palmer's ghost. After experiencing this tour with her daughter in 2013 and leaving Jamaica haunted by the silences of the tour, Celia E. Naylor resolved to write a history of Rose Hall about those people who actually had a right to haunt this place of terror and trauma—the enslaved. Naylor deftly guides us through a strikingly different Rose Hall. She introduces readers to the silences of the archives and unearths the names and experiences of the enslaved at Rose Hall in the decades immediately before the abolition of slavery in Jamaica. She then offers a careful reading of Herbert G. de Lisser's 1929 novel, The White Witch of Rosehall—which gave rise to the myth of the "White Witch"—and a critical analysis of the current tours at Rose Hall Great House. Naylor's interdisciplinary examination engages different modes of history making, history telling, and truth telling to excavate the lives of enslaved people, highlighting enslaved women as they navigated the violences of the Jamaican slavocracy and plantationscape. Moving beyond the legend, she examines iterations of the afterlives of slavery in the ongoing construction of slavery museums, memorializations, and movements for Black lives and the enduring case for Black humanity. Alongside her book, she has created a website as another way for readers to explore the truths of Rose Hall: rosehallproject.columbia.edu.
