The Jurassic Park Book Matthew Melia, 2023-11-16 The definitive 1990s blockbuster, Steven Spielberg's Jurassic Park met with almost universal critical and popular acclaim, broke new ground with its CGI recreation of dinosaurs, and started one of the most profitable of all movie franchises. To mark the film's 30th anniversary, this exciting illustrated collection of new essays interrogates the Jurassic Park phenomenon from a diverse range of critical, historical, and theoretical angles. The primary focus is on Jurassic Park itself but there is also discussion of the franchise and its numerous spin-offs. As well as leading international scholars of film studies and history, contributors include experts in special effects, science on screen, fan studies, and palaeontology. Comprehensive, up to date, and accessible, The Jurassic Park Book appeals not only to students and scholars of Hollywood and contemporary culture, but also to the global audience of fans of the greatest of all dinosaur movies.

The Rise of the Must-See Exhibition Anna Lawrenson, Chiara O'Reilly, 2018-12-07 Blockbuster exhibitions are ubiquitous fixtures in the cultural calendars of major museums and galleries worldwide. The Rise of the Must-See Exhibition charts their

ascent across a diverse array of museums and galleries. The book positions these exhibits in the Australian cultural context, demonstrating how policy developments and historical precedents have created a space for their current domination. Drawing on historical evidence, policy documents and contemporary debates, the book offers a complex analysis of the aims and motivations of blockbuster exhibitions. Its chronological approach reveals a genealogy of exhibits from the mid-nineteenth century onward to identify precursors to current practice. This provides a foundation upon which to examine the unprecedented growth of blockbusters in the latter half of the twentieth century. The examples discussed offer a unique opportunity to study how institutional growth, political support, individual champions and audience interest have influenced the development of large-scale temporary exhibitions. *The Rise of the Must-See Exhibition* considers blockbusters as an international phenomenon and, as such, is highly relevant to practitioners working across the cultural sector around the world. The book will also appeal to academics and students engaged in the study of museums and galleries, arts management and curating, as well as those interested in the history of exhibitions and cultural policy.

Animalkind Ingrid Newkirk, Gene Stone, 2021-01-19 The founder and president of PETA, Ingrid Newkirk, and bestselling author Gene Stone explore the wonders of animal life with “admiration and empathy” (The New York Times Book Review) and offer tools for living more kindly toward them. In the last few decades, a wealth of new information has emerged about who animals are: astounding beings with intelligence, emotions, intricate communications networks, and myriad abilities. In *Animalkind*, Ingrid Newkirk and Gene Stone present these findings in a concise and awe-inspiring way, detailing a range of surprising discoveries, like that geese fall in love and stay with a partner for life, that fish “sing” underwater, and that elephants use their trunks to send subsonic signals, alerting other herds to danger miles away. Newkirk and Stone pair their tour through the astounding lives of animals with a guide to the exciting new tools that allow humans to avoid using or abusing animals as we once did. Whether it’s medicine, product testing, entertainment, clothing, or food, there are now better options to all the uses animals once served in human life. We can substitute warmer, lighter faux fleece for wool, choose vegan versions of everything from shrimp to marshmallows, reap the benefits of animal-free medical research, and scrap captive orca exhibits and elephant rides for virtual reality and animatronics. *Animalkind* provides a fascinating look at why our fellow living beings deserve our respect, and lays out the steps everyone can take to put this new understanding into action.
