Understanding Risk-Taking Jens O. Zinn, 2019-10-03 This book outlines and systematises findings from a growing body of research that examines the different rationales, dimensions and dynamics of risk-taking in current societies; providing insight into the different motivations and social roots of risk-taking to advance scholarly debates and improve social regulation. Conceptually, the book goes beyond common approaches which problematise socially undesirable risk-taking, or highlight

the alluring character of risk-taking. Instead, it follows a broadly interpretivist approach and engages in examining motives, control, routinisation, reflexivity, skills, resources, the role of identity in risk-taking and how these are rooted in and framed by different social forces. Zinn draws on qualitative studies from different theoretical and conceptual backgrounds such as phenomenology, hermeneutics, pragmatism, feminism, class analysis, theory of practice and discourse analysis among others, to outline key distinctions and concepts central to the understanding of risk-taking. It will be a key resource for everyone who is concerned with the understanding and management of risk-taking in all kinds of social domains, such as immigration, youth, leisure sports, crime, health, finance, and social policy.

Working It: Get Unstuck. Do Good. Be Happy. Greg Hutchins, 2023-05-15 We thought it would be helpful to provide a roadmap of what is covered in each chapter: Chapter 1.0: Working It: Disruption Rules We live in a disruptive world and

time. Many of us are stuck in the 'in-between' place of yesterday's stable world and today's disruptive world. The goal of this book is to help you move from your 'in-between' to a place you want to be by helping you reach your goals through risk-based, decision-making. Chapter 2.0: Hello VUCAN® Disruption results in VUCA (Volatility, Uncertainty, Complexity, and Ambiguity). We are now all VUCANs - VUCA iNhabitants in today's disruptive times. Disruption results in change, sometimes drastic, which can be uncomfortable, stressful, and even unsettling. Chapter 3.0: Are You Happy? VUCANs do not like disruption or change. Disruptive change makes VUCANs unhappy. When a person is unhappy, they are often stuck. Conversely, when a person is stuck, they are often unhappy. Chapter 4.0: Are You Stuck? Disruption among VUCANs leads to fear of change, to being risk-averse, and to stuckness in the 'in-between place.' Chapter 5.0: You Are What You Decide To Do Deciding is doing. To get unstuck from your in-between place is often the hardest first step. Stuckness is comfortable and safe. Deciding to get unstuck is hard and risky. Why? VUCA. Internal friction. Internal inertia. Lack of motivation. Too many obstacles. Chapter 6.0: You Are What Good You Do You decide what good stuff you want to do. Doing good means doing stuff that matters to you. Doing good means fulfilling your dream, vision, or purpose. Doing good means helping others and making a positive impact on the world around you. Doing good gets you unstuck. Doing good makes you happy. Chapter 7.0: Risk-Based, Decision-Making Risk-based, decision-making is a way to move out of your 'in-between' place or 'Stuck Zone'. Once you identify your SMART goal, then minimize the obstacles that hinder you from reaching your goal. Chapter 8.0: Managing Your Risks Getting unstuck comes down to reaching goals that matter to you. To reach your dream goal, it is critical to reduce the obstacles in your way so that the goal is easily reachable. Chapter 9.0: All Risk Is Personal 'All risk is personal' is your willingness to decide to take on risks to achieve your goal. Expressed another way, it is the level of risk you are comfortable with and willing to accept when making decisions that help you reach your goals. In many ways, your risk tolerance is your risk lens and defines your life's arc in terms of the choices and decisions you make. Chapter 10.0: You Are Your Biases Your biases can get you stuck. We are all influenced by our preferences, beliefs, and biases. Two questions you want to consider when making a decision to get unstuck are: 1. Do you know your biases that can impact your decision-making? and 2. How do you reduce these biases? Chapter 11.0: Making It Stick 'Making it stick' means doing good and being happy become your habits. It ensures what you do has lasting, positive, and effective value in your life. Chapter 12.0: If Not Now? When? We are now all VUCANs in a very disruptive world. What's your call-to-action to design your future-self - NOW!

Risk Deborah Lupton, 2023-07-20 We are living in a world in which the existence of risk is constantly debated, misinformation and disinformation are rife and spread quickly and easily through online media, and where governments and institutions continue to avoid taking decisive action even when there is general agreement that a serious threat exists. Understanding how people, social groups and social organizations understand, respond to and act on threats, hazards and dangers is more important than ever. In *Risk*, Deborah Lupton asserts the ongoing importance of the analysis of risk in our age of permacrisis and mounting scepticism about experts and science, calling for a 're-turn' to risk theory in the social sciences. The book outlines the three major approaches to risk in social and cultural theory, devoting a chapter to each. The first approach draws upon the work of Mary Douglas to articulate the cultural/symbolic perspective on risk. The second approach is that of the risk society perspective, based on the writings of Ulrich Beck and Anthony Giddens. The third approach covered is that of the governmentality perspective, which builds on Michel Foucault's work. Three other chapters examine in detail the relationship between concepts of risk and concepts of selfhood and the body, the notion of Otherness and how this influences the ways in which people respond to and think about risk, and the pleasures of voluntary risk-taking, including discussion of edgework. An entirely new chapter has been added to this edition, focusing on the risks posed by misinformation and denial in the context of climate change and the COVID-19 pandemic. This chapter discusses the politics of post-truth cultures and the powerful networks of actor and organizations that together work to challenge science and

manufacture dissent against attempts to tackle these crises. This new edition of Risk is an essential introduction to the topic of risk for students and academics in the social sciences and humanities.
