Elementary Classroom Management C. M. Charles, Gail W. Senter, 2005 This text offers teachers a concise and applied guide to successfully managing the elementary school classroom within the context of new No Child Left Behind and standards-driven concerns. Mindful of NCLB legislation, this teacher-friendly, standards-driven new edition examines issues and models of management concerns in 21st century elementary classrooms. Well-conceived classroom management helps establish positive environments and programs where communication, cooperation, and dedication to learning prevail. This book is designed to assist teachers, both novice and experienced, in developing and refining management skills that lead to learning and enjoyment of the classroom. New to this Edition: New chapter correlations to the Interstate New Teacher Assessment and Support Consortium (INTASC), the Praxis Series, the National Board for Professional Teaching Standards (NBPTS), and the National Council for Accreditation of Teacher Education (NCATE) are included to provide easy reference for students. A new section in Chapter 13 presents ways to deal with the emotions of stress that result from unexpected or disastrous events. Discussion of No Child Left Behind legislation, which asks for best practice and research-supported practice, is infused into all chapters. Updated technology, including technology to assist teachers and students with special

needs is included (Ch 6) with a clear distinction between students learning from technology versus students learning with technology. New to the chapter on Managing Special Groups (Ch.8), are references to specific assistive technologies for the student and teacher. Chapter 9 discusses extreme behaviors including the bully, the bullied, and the bystander that are all too common in today's schools. Related Titles: Building Classroom Discipline, 8/e Carol M. Elementary Classroom Management Gail W. Senter, C. M. Charles, 2002 Historically and contemporarily, politically and literarily, Haiti has long been relegated to the margins of the so-called 'New World.' Marked by exceptionalism, the voices of some of its most important writers have consequently been muted by the geopolitical realities of the nation's fraught history. In *Haiti Unbound*, Kaiama L. Glover offers a close look at the works of three such writers: the Haitian Spiralists Frankétienne, Jean-Claude Fignolé, and René Philoctète. While Spiralism has been acknowledged by scholars and regional writer-intellectuals alike as a crucial contribution to the French-speaking Caribbean literary tradition, the Spiralist ethic-aesthetic not yet been given the sustained attention of a full-length study. Glover's book represents the first effort in any language to consider the works of the three Spiralist authors both individually and collectively, and so fills an astonishingly empty place in the assessment of postcolonial Caribbean aesthetics. Touching on the role and destiny of Haiti in the Americas, *Haiti Unbound* engages with long-standing issues of imperialism and resistance culture in the transatlantic world. Glover's timely project emphatically articulates Haiti's regional and global centrality, combining vital 'big picture' reflections on the field of postcolonial studies with elegant close-reading-based analyses of the philosophical perspective and creative practice of a distinctively Haitian literary phenomenon. Most importantly perhaps, the book advocates for the inclusion of three largely unrecognized voices in the disturbingly fixed roster of writer-intellectuals that have thus far interested theorists of postcolonial (Francophone) literature. Providing insightful and sophisticated blueprints for the reading and teaching of the Spiralists' prose fiction, *Haiti Unbound* will serve as a point of reference for the works of these authors and for the singular socio-political space out of and within which they write.
