Innovar en Educación Infantil María Luz Cacheiro-González, Ernesto López-Gómez, Raúl González-Fernández, 2025-04-07 Este libro es una invitación a explorar cómo la innovación puede contribuir a cambiar radicalmente las primeras etapas de la

educación, iluminando nuevas formas de enseñar y aprender, de crecer. Y así se vislumbra en los dos bloques que lo configuran. El primer bloque, estructurado en torno a ocho capítulos teóricos elaborados por destacados miembros de la comunidad universitaria, sintetiza los actuales y más novedosos referentes y enfoques que permiten guiar la innovación en Educación Infantil. Desde tales referentes teóricos y en estrecha coherencia con los mismos, se sitúa el segundo bloque de la obra, que recoge siete experiencias de aprendizaje llevadas a cabo en distintos contextos escolares, complementando los capítulos teóricos y visibilizando el trabajo de docentes en ejercicio que han puesto en marcha propuestas innovadoras en sus aulas. Esta obra, que aúna en estrecha armonía teoría y práctica, Universidad y aula de Educación Infantil, pretende ser una fuente de inspiración y aprendizaje, tanto para los futuros docentes como para el profesorado ya en ejercicio. La trayectoria profesional de todos ellos debe estar guiada por la reflexión diaria sobre su propia práctica docente, por la exploración, por el cuestionamiento continuo y por la innovación permanente, como elemento esencial para responder a los retos y desafíos presentes y futuros de la sociedad.

Conectados por redes sociales Miguel del Fresno, Pilar Marqués, David S. Paunero, 2015-09-18 Vivimos inmersos en un denso entramado de interacciones que conectan personas, información, eventos y lugares acelerando o restringiendo los flujos de información, ideas y percepciones en un instantáneo y masivo sistema social organizado en redes. Este libro presenta tanto una introducción básica a los conceptos fundamentales del ARS útil para aquellos que deseen conocer y utilizar el ARS en su área profesional como capítulos escritos por especialistas con diversas aplicaciones del ARS a los ámbitos profesionales. El análisis de redes sociales (ARS) es una poderosa herramienta intelectual para la representación de la estructura de las redes sociales y la identificación de entidades claves en el seno de las redes. La obra está pensada tanto como introducción al ARS como para presentar todas las posibilidades de aplicación y comprensión de las redes usando la visión para pensar. El ARS y las técnicas de representación de datos e información permiten amplificar nuestra comprensión de los fenómenos sociales en red tan propios de nuestro tiempo.

Teatro y medicina en el primer cuarto del siglo XXI José Romera Castillo, 2024-12-03 La cadena de estudios del Centro de Investigación de Semiótica Literaria, Teatral y Nuevas Tecnologías, dirigido por el Dr. José Romera Castillo, sobre estos ámbitos artísticos es ya muy numerosa. Este volumen, editado por el mencionado profesor, Teatro y medicina en el primer cuarto del siglo XXI -patrocinado por varias entidades (Academia de las Artes Escénicas de España, Asociación Internacional de Teatro del siglo XXI, Asociación Española de Semiótica, Instituto del Teatro de Madrid, además de la UNED y del legado del prof. José Romera)-, se centra en el estudio de las relaciones de estas dos áreas tan importantes en la cultura universal en nuestro siglo, cuyo examen ha tenido escaso cultivo hasta el momento. En el volumen, tras una introducción sobre la trayectoria investigadora del SELITEN@T, se presentan 23 estudios de destacados creadores e investigadores sobre

“Aspectos generales”, “Teatro y COVID-19”, “Teatro y salud corporal” y “Teatro y salud mental”. Un volumen muy novedoso en los estudios teatrales actuales.

Life and Mind Mariano Martín-Villuendas, Juan Gefaell, Ana Cuevas-Badallo, 2024-11-26 In recent times, the philosophy of science has been reinvigorated by insights from the biological and cognitive sciences. These disciplines have provided not only new perspectives to approach traditional philosophical problems but have also opened the way to new conceptual and methodological questions that call for new and innovative solutions. This book brings together some of the main debates that have structured in the last years the fields of philosophy of biology and cognitive sciences. It is organized around 11 chapters distributed in two parts: one devoted to the philosophy of biology, and the other to the cognitive sciences. These ideas were originally presented at the 11th edition of the International Philosophy of Biology and Cognitive Science (PBCS-XI) workshop held in 2022 in Salamanca, Spain. Part I of the volume is devoted to topics related to the philosophy of biology and includes hot topics such as “biological functions”, “modelization”, “pain medicine”, or “organicism”. Part II is devoted to debates in the cognitive sciences and includes issues related to ecological psychology, enactivism, FEP or animal cognition. Considering the diversity of the topics covered in this volume, the book is purposely conceived to serve as an updated introduction to the fields of the philosophy of biology and cognitive sciences for those researchers interested in having a panoramic view of these two areas of inquiry. But not only that, the detailed and scholarly coverage of the topics included renders this book appealing to a much more specialized audience interested in particular aspects of each of the debates already mentioned. Chapter “On the Boundaries Between Classical Demarcations and Transdiagnostic Approaches to Psychopathology: The Case of Meaning in Life and the Lack Thereof” is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Teselas literarias actuales José Romera Castillo, 2023-04-17 Los estudios sobre la teoría literaria, la literatura y el teatro españoles han sido unas líneas básicas de investigación del profesor José Romera Castillo a través de una dilatada y fructífera trayectoria docente e investigadora. En este volumen, *Teselas literarias actuales*, se recogen unos trabajos que proporcionan el perfil de sus investigaciones en torno a la literatura generada y recepcionada en la época de hoy y que, a su vez, sirven para iluminar los temas tratados. Tras situar el volumen en las líneas de trabajo del Centro de Semiótica Literaria, Teatral y Nuevas Tecnologías, dirigido por él, los veintidós capítulos que lo articulan están referidos a varios temas: sobre Poesía (con examen de las raíces de la poesía visual, Berceo desde la perspectiva de hoy, así como de poetas actuales); Narrativa (con estudios sobre la novela histórica, C. J. Cela, Almudena Grandes y el cuento); Escritura autobiográfica (con la atención centrada en Juan Ramón, las mujeres del exilio y antifranquistas, Miguel Delibes, Miguel Torga); Otros estudios (sobre el ámbito semiótico y algunas de sus realizaciones); finalizando con una serie de homenajes a destacados hispanistas, así como agradeciendo los homenajes recibidos. Un ramillete de estudios pleno de rigor y novedad de gran interés para los

estudiosos y amantes de la literatura.

The Bride in the Cultural Imagination Jo Parnell,2020-11-13 This essay collection examines the cultural and personal world of girls and women at a time when their lives, their person, their realities, and their status are about to change forever. Together, the chapters cleverly create an in-depth study of the subject, and look at several cultural forms to offer a different approach to the popularly-held views of the bride. The critical essays in this edited collection are thematically driven and include global perspectives of the portrayals of the bride in the films, stage productions and pop-culture narratives from Nigeria; Kenya; Uganda; Tanzania; Spain; Ancient Greece and Ancient Rome; Tajikistan; India; Egypt; and the South-Eastern Indian Ocean Islands. This multinational approach provides insight into the intricacies, customs, practices, and life-styles surrounding the bride in various Eastern and Western cultures.

El patrimonio sucesorio. Reflexiones para un debate reformista Lledó Yagüe, Francisco, Ferrer Vanrell, M^a

Pilar, Torres Lana, José Ángel, 2015-01-23 Parece conveniente justificar la presente obra acudiendo a su subtítulo, que denota con claridad la finalidad y el objetivo que pretendemos: “un debate reflexivo sobre el Derecho sucesorio”. Se expresa así que se trata de un enfoque ciertamente crítico sobre una materia muy necesitada de actualización y de reforma, exigencias ambas derivadas de la nueva configuración de la familia española. En orden a ello, se han tenido siempre presentes dos notas sobre las que parecía esencial desarrollar la obra. Por un lado, se ha procurado huir de un tratamiento excesivamente dogmático o conceptual de las cuestiones abordadas que, en caso contrario, quedarían alejadas tanto de la realidad social como de la práctica del Derecho sucesorio en los foros que le son propios, principalmente juzgados y notariías, pues éstos constituyen el espacio natural y genuino en el que se plantean, dilucidan y resuelven las controversias sucesorias. Por otro lado, se ha pretendido en todo momento que las aportaciones a esta obra procediesen no sólo de especialistas de reconocida competencia –propósito totalmente conseguido–, sino que pudiesen aunar el rigor científico y la calidad técnica con el carácter práctico pretendido, buscando siempre soluciones adecuadas, empíricas y realistas.

Working with Young People Xavier Úcar, Pere Soler-Masó, Anna Planas-Lladó, 2020-02-28 Working with Young People offers a new outlook on social, cultural, and educational work with young people. It utilizes the perspective of social pedagogy--a theoretical and practical perspective that has been developing in continental Europe over the last 150 years--in placing young people at the center of socio-educational work and giving value to their decisions and actions. The text supports youths' process of personal construction within the framework of the community in which they live. The book is organized into three large blocks of chapters. The introduction aims to prepare readers for the social pedagogy approach to work with young people. It briefly outlines its current situation in the world and, relate it to the main professions in which it is embodied in different socio-cultural contexts: social pedagogy, social education, and social work. The first block presents the framework and socio-pedagogical, theoretical, and practical parameters in which work with young people takes place in Europe and Latin America. The second block of chapters deals with youth policies and the training and professionalization of educators and those who work with young people. The last block focuses on some socio-educational practices with young people that include youth justice, social inclusion process, youth participation in digital life or transition to adult life. The book is based on a wide perspective of young people from cultural diversity.

Arte cristiano y arte islámico en época medieval (siglos III a XII) Inés Monteiro Arias, Elena Paulino

Montero, Esther Alegre Carvajal, Antonio Vallejo Triano, 2019-09-17 El texto se centra en el arte occidental y en el Próximo Oriente, intentando responder a las necesidades de los actuales planes de estudio del grado en Historia del Arte de las universidades, y más concretamente el de la UNED. Los trece capítulos de este libro se agrupan en cuatro grandes partes: primer arte cristiano y el arte bizantino, las distintas manifestaciones del Islam oriental y occidental hasta el siglo XII, la

tercera parte incluye las manifestaciones desarrolladas en el Occidente durante la Alta Edad Media, y la cuarta parte se centra en el estudio del arte románico. Esta organización del texto ha obligado a separar manifestaciones artísticas que se producen en el mismo momento tanto en los reinos cristianos occidentales , los estados islámicos y el Imperio Bizantino pese a que fueron contemporáneos. También se ha sistematizado el análisis separando la arquitectura, la escultura y la pintura pues resulta más riguroso estudiar cada manifestación en su época.
