One Nation Under Blackmail - Vol. 1 Whitney Alyse Webb, 2022-10-20 Exposes vastly under-explored topics compared to other media reports and books on Jeffrey Epstein How did Jeffrey Epstein manage to evade justice for decades? Who enabled him and why? Why were legal officials told that Epstein “ belonged to intelligence” and to back off during his first arrest in the mid-2000s? Volume 1 of One Nation Under Blackmail traces the origin of the network behind Jeffrey Epstein and his associates to the merging of organized crime and intelligence networks during World War II and follows their most notable activities through the decades. Various scandals, acts of corruption and other crimes throughout the last several decades of American history, many involving sex blackmail, can be traced back to these same networks, which have subverted and taken control of many of America's most important institutions for their benefit, and to the detriment of the public.

One Nation Under Blackmail - Vol. 2 Whitney Alyse Webb, 2022-10-20 Exposes vastly under-explored topics compared to other media reports and books on Jeffrey Epstein How did Jeffrey Epstein manage to evade justice for decades? Who enabled him and why? Why were legal officials told that Epstein “ belonged to intelligence” and to back off during his first arrest in the mid-2000s? Volume 2 of One Nation Under Blackmail examines the rise of Jeffrey Epstein and his closest associates, such as Leslie Wexner and Ghislaine Maxwell, and contextualizes them within the organized crime-intelligence networks detailed in-depth in Volume 1. It subsequently details their ties, with a focus on Epstein, to intelligence networks, espionage activity and the subversion of American institutions as well as the role of Epstein and the Maxwell family in the evolution of blackmail in the digital era.

One Nation Under Blackmail: The Sordid Union Between Intelligence and Crime That Gave Rise to Jeffrey Epstein volume 2 Whitney Alyse Webb, 2022-10-22 One Nation Under Blackmail is a damning indictment of the consequences resulting from the nearly century old relationship between both US and Israeli intelligence and the organized criminal network known as the National Crime Syndicate. This book specifically explores how that nexus between intelligence and organized crime directly developed the sexual blackmail tactics and networks that would later enable the sexual blackmail operation and other crimes of deceased pedophile and sex trafficker Jeffrey Epstein. Other books on Jeffrey Epstein focus on the depraved nature of his crimes, his wealth, and his most famous/politically-connected friends and acquaintances. This book, in contrast, reveals the extent to which Epstein's activities were state-sponsored through an exploration of his intelligence connections.

Warmonger Jeremy Kuzmarov,2023-12-01 During the 2016 presidential election, many younger voters repudiated Hillary Clinton because of her husband's support for mass incarceration, banking deregulation and free-trade agreements that led many U.S. jobs to be shipped overseas. Warmonger: How Clinton's Malign Foreign Policy Launched the Trajectory from Bush II to Biden, shows that Clinton's foreign policy was just as bad as his domestic policy. Cultivating an image as a former anti-Vietnam War activist to win over the aging hippie set in his early years, as president, Clinton bombed six countries and, by the end of his first term, had committed U.S. troops to 25 separate military operations, compared to 17 in Ronald Reagan's two terms. Clinton further expanded America's covert empire of overseas surveillance outposts and spying and increased the budget for intelligence spending and the National Endowment for Democracy (NED), a CIA offshoot which promoted regime change in foreign nations. The latter was not surprising because, according to CIA operative Cord Meyer Jr., Clinton had been recruited into the CIA while a Rhodes Scholar at Oxford, and as Governor of Arkansas in the 1980s he had allowed clandestine arms and drug flights to Nicaraguan counter-revolutionaries (Contras) backed by the CIA to be taken from Mena Airport in the western part of the state. Rather than being a time of tranquility when the U.S. failed to pay attention to the gathering storm of terrorism, as New York Times columnist David Brooks frames it, the Clinton presidency saw rising tensions among the U.S., China and Russia because of Clinton's malign foreign policies, and U.S. complicity in terrorist acts. In so many ways, Clinton's presidency set the groundwork for the disasters that were to follow under Bush II, Obama, Trump, and Biden. It was Clinton—building off of Reagan—who first waged a War on Terror ridden with double standards, one that adopted terror tactics, including extraordinary rendition, bombing and the use of drones. It was Clinton who cried wolf about human rights abuses and the need to protect beleaguered peoples from genocide to justify military intervention in a post-Cold War age. And it was Clinton's administration that pressed for regime change in Iraq and raised public alarm about the mythic WMDs—all while relying on fancy new military technologies and private military contractors to distance US shady military interventions from the public to limit dissent.

Survival of the Richest: Escape Fantasies of the Tech Billionaires Douglas Rushkoff,2022-09-06 The tech elite have a plan to survive the apocalypse: they want to leave us all behind. Five mysterious billionaires summoned Douglas Rushkoff to a desert resort for a private talk. The topic? How to survive The Event: the societal catastrophe they know is coming. Rushkoff came to understand that these men were under the influence of The Mindset, a Silicon Valley-style certainty that they can break the laws of physics, economics, and morality to escape a disaster of their own making—as long as they have enough money and the right technology. In Survival of the Richest, Rushkoff traces the origins of The Mindset in science and technology through its current expression in missions to Mars, island bunkers, and the Metaverse. This mind-blowing work of social analysis shows us how to transcend the landscape The Mindset created—a world alive with algorithms and intelligences actively rewarding our most selfish tendencies—and rediscover community, mutual aid, and human

interdependency. Instead of changing the people, he argues, we can change the program.

How to Avoid a Phd (Penalty for Hardworking Dummies): Wishing I Were an Autodidact Tamara I.

Hammond, 2022-11-13 This book is the result of decades-long academic research and 25 years of emergence in the myth of the American dream. In reality, a small minority of ultra-rich corporations have complete control over the government and mercilessly exploit the majority of Americans. The author debunks the illusion of meritocracy, heavily promoted by ubiquitous propaganda. Through the mainstream media, PR, and academia, the legend is sold to the American people and the world as an equal opportunity for all. Packaged in glamorous fabricated stories, the myth is glorified by Hollywood and legitimized by multiple mainstream news channels that are owned by five companies, which control the narrative. At the same time, higher education is designed to enslave graduates with enormous debts in order to keep them obedient. In the complete absence of adequate opposition, these institutions create and maintain a plutocracy while purporting to represent freedom and democracy.

Praetorian Kingdom: A History of Military Ascendancy in Thailand Paul Chambers, 2024-08-28 This is one of the most comprehensive studies of contemporary Thai politics seen through the careers of Thai military leaders since 1932 up until now. It is of vital importance if one is to understand present-day Thai politics.” —Kullada Kesboonchoo-Mead, Chulalongkorn University (retired), author of *The Rise and Decline of Thai Absolutism* “Paul Chambers has written, arguably, the most comprehensive and detailed book on the evolution of Thailand’s military power from the post-World War II era to the present day. This lucid book is a compelling read for anyone seeking to gain insight into the transformation of the country into a praetorian kingdom, where the monarchy and the military are the most powerful institutions. His delicate exploration of the various plots, methods, strategies, twists and betrayals provides readers with valuable perspectives on the inner workings and dynamics of Thailand’s praetorian system. One of the book’s strengths lies in its use of declassified and leaked documents from the US administrations, adding a sense of excitement and credibility to the analysis.” —Puangthong Pawakapan, Chulalongkorn University, author of *Infiltrating Society: The Thai Military’s Internal Security Affairs* “This study on the Thai military does not merely add to the existing critical understandings about its role in the country’s politics, it tackles the subject in a new light and challenges us to reexamine our appraisal of each military regime.” --- Dr. Chaiyan Rajchagool, University of Phayao, author of *The Rise and Fall of the Thai Absolute Monarchy* “This book does two significant things; first, cultivating large amounts of primary resources, and second, providing a sophisticated interpretation of Thai military ascendancy until 2023. Based on these reasons, the book is important for insightful and untold stories about the Thai military.” —Ukrist Pathmanand, Institute of Asian Studies, Chulalongkorn University, Thailand “Monumental in scope and wondrously researched, *Praetorian Kingdom* is much more than the systematic study of the Thai military that has long been

needed. For it is a volume that will compel readers not only to understand crucial episodes in Thailand's modern history in new ways but also to appreciate the continuities in the country's military politics as never before." —Michael Montesano, Associate Senior Fellow, Thailand Studies Programme, ISEAS – Yusof Ishak Institute

Gangster Planet Linda Minor, Daniel Hopsicker, 2024-10-31 Gangster Planet is a wild ride exploring the ever evolving world of drug trafficking, money laundering and stock swindles. Written in an engaging and accessible style, this book not only informs but entertains as it delves into the historical progression of criminal activities. As technology rapidly advances, so too do the methods of those engaged in illegal enterprises. The book reveals how modern criminals adapt their strategies, seamlessly integrating new techniques into their operations. It also uncovers the collaboration between drug traffickers and so-called "professional" white-collar criminals, who play a crucial role in laundering illicit profits through global public corporations. An alternative subtitle could aptly be, The Evolution of Organized Crime into a Global Enterprise.

Dark Aeon Joe Allen, 2023-08-29 Humanity Is Consumed by Relentless Transformation Like a thief in the night, artificial intelligence has inserted itself into our lives. It makes important decisions for us every day. Often, we barely notice. As Joe Allen writes in this groundbreaking book, "Transhumanism is the great merger of humankind with the Machine. At this stage in history, it consists of billions using smartphones. Going forward, we'll be hardwiring our brains to artificial intelligence systems." The world-famous robot, Sophia, symbolizes a rising techno-religion. She takes her name from the goddess—or Aeon—whose fall from grace is described in the Gnostic Gospels. With an academic background in both science and theology, Allen confronts the paradox of what he calls "good people constructing a digital abomination." Dark Aeon is nothing less than a *cri de coeur* for humanity itself. He takes us on a roller coaster ride through history and the emergence of Scientism, and from government-mandated mRNA vaccines to the weird visions of cyborg billionaires like Elon Musk. From Silicon Valley to China, these globalists' visions of humanity's future, exposed and described in Dark Aeon, are dire and terrifying. But Joe Allen argues that humanity's salvation is within our grasp. Only if we refuse to avert our eyes from the impending twilight before us.

The Obliteration Doctrine Dan Steinbock, 2025-08-01 The Obliteration Doctrine tackles the deadliest canon of 21st century warfare. It addresses the abject devastation that this military doctrine has wrought, how it was done and those responsible. It puts the Genocide Convention's failure to punish and prevent this crime under close scrutiny. The Obliteration Doctrine combines lethal forms of warfare—scorched-earth military tactics, collective punishment and civilian victimization—with indiscriminate area bombing and counterinsurgency operations. What's new about this form of warfare is

the chilling mix of artificial intelligence and genocidal atrocities in violation of international law, the very foundations of international society and all human life. This book shows how the doctrine's implementation in Gaza was facilitated by the United States, with Germany, the UK, Italy and Canada as strategic partners. While Israel pulled the trigger in Gaza, the weaponry and financial and diplomatic support came from the US-led West. Hence their complicity in the fatal carnage. The rise of this deadly doctrine has been enabled by the West's long opposition to genocide prevention, which Raphael Lemkin's quest for effective legislation failed to overcome. Fearful of its vulnerability, the West succeeded in excluding and diluting core parts of the Genocide Convention addressing colonial atrocities, cultural genocide, political killings, and ethnic cleansing. Enforcement was repressed throughout the Cold War, and the few tribunals afterward soon proved inadequate. The West undermined genocide prevention by shunning preparatory attacks, early warnings and incitement prosecution. Ex post facto justice records but doesn't preempt genocides. Stunningly, the Obliteration Doctrine was largely perfected institutionally by Israel two decades before October 7, 2023, yet the international community failed to prevent its further implementation, which its proponents openly pledged to deploy in the "next war." That said, a broad variety of legal efforts have been launched against Israel and its complicit Western allies in international and domestic courts by many activists and countries increasingly in and by the Global South. The erasure of Gaza reflects the tragic inability of the Genocide Convention to prevent the genocides it was created to identify, preempt and punish. The Obliteration Doctrine has set a horrendous precedent, providing a template for new and far worse "final solutions" to be unleashed on entire nations

La supervivencia de los más ricos Douglas Rushkoff, 2023-09-18 La élite tecnológica tiene un plan para sobrevivir al apocalipsis: dejarnos a todos atrás. Cinco misteriosos multimillonarios convocaron al teórico Douglas Rushkoff a un resort desértico para una charla privada. ¿El tema? Cómo sobrevivir al 'Evento': la catástrofe social que saben que se avecina. Rushkoff llegó a la conclusión de que estos hombres estaban bajo la influencia de 'La mentalidad' ('The Mindset'), una certeza al estilo de Silicon Valley de que ellos y su cohorte pueden romper las leyes de la física, la economía y la moral para escapar de un desastre de su propia creación, siempre y cuando tengan suficiente dinero y la tecnología adecuada. En 'La supervivencia de los mas ricos', Rushkoff rastrea los orígenes de The Mindset en la ciencia y la tecnología hasta su expresión actual en las misiones a Marte, los búnkeres insulares, el futurismo de la IA y el metaverso. En una docena de capítulos urgentes y apasionantes, se enfrenta al utopismo tecnológico, a la informatización de todas las interacciones humanas y a la explotación de esos datos por parte de las empresas. A través de personajes fascinantes -programadores expertos que quieren rehacer el mundo desde cero como si rediseñaran un videojuego y banqueros que vuelven de Burning Man convencidos de que el capitalismo incentivado es la solución a los desastres medioambientales- Rushkoff explica por qué quienes tienen más poder para cambiar nuestra trayectoria actual no tienen interés en hacerlo. Y muestra cómo las recientes formas de rebelión contra la corriente dominante -QAnon, por ejemplo, o las acciones meme- refuerzan el mismo orden

destruktivo. Esta alucinante obra de análisis social nos muestra cómo trascender el paisaje creado por The Mindset -un mundo vivo con algoritmos e inteligencias que recompensan activamente nuestras tendencias más egoístas- y redescubrir la comunidad, la ayuda mutua y la interdependencia humana. En una conclusión atronadora, 'La supervivencia de los más ricos' sostiene que la única forma de sobrevivir a la catástrofe que se avecina es asegurarse de que no se produzca en primer lugar.

Survival of the Richest Douglas Rushkoff, 2025-02-23 Spätestens seit der Allianz von Donald Trump und Elon Musk ist klar: Die Tech-Milliardäre sind nicht nur die reichsten Männer der Welt, es geht ihnen auch um politische Macht und um die radikale Umgestaltung von Gesellschaft und Natur. Als Douglas Rushkoff eine Einladung in ein exklusives Wüstenresort erhält, nimmt er an, dass er dort über Zukunftstechnologien sprechen soll. Stattdessen sieht er sich Milliardären gegenüber, die ihn zu Luxusbunkern und Marskolonien befragen. Während die Welt mit der Klimakatastrophe und sozialen Krisen ringt, zerbrechen sich diese Männer den Kopf, wie sie im Fall eines Systemkollapses ihre Privatarmeen in Schach halten können. Der Medientheoretiker Rushkoff verfolgt die Internetrevolution seit Jahrzehnten, ist Erfinder der Begriffe »viral gehen« und »Digital Natives«, bewegte sich lange im Kreis von Vordenkern und kreativen Zerstörern. In einer Zeit, in der Elon Musk und Peter Thiel sich immer stärker in die Politik einmischen, rekonstruiert er, wie aus der Aufbruchsstimmung der 1990er ein Programm aus Angst und Größenwahn werden konnte. Viele Tech-Unternehmer wollen uns Normalsterbliche einfach nur hinter sich lassen, werden aber als Visionäre gefeiert. Angesichts der Zerrüttungen, die ihre Geschäftsmodelle produzieren, müssen wir uns von ihrem Mindset befreien – denn mitnehmen werden sie uns auf ihrem Exodus sicher nicht. Ein flammendes Plädoyer gegen Egomanie und für die Wiederentdeckung kooperativen Handelns

Wem diente Jeffrey Epstein? Tahir Chaudhry, 2024-11-04 Am Morgen des 10. August 2019 wird Jeffrey Epstein in seiner Gefängniszelle eines New Yorker Hochsicherheitstraktes tot aufgefunden. Offizielle Todesursache: Suizid. Seitdem ranken sich wilde Spekulationen um den Tod Epsteins. Denn sein Einfluss reichte bis in die höchsten Kreise von Politik, Wirtschaft und Kultur. Dieses Buch berichtet ausführlich davon, dass Jeffrey Epstein nicht nur seinen persönlichen Neigungen nachging, sondern als Werkzeug für die mächtigsten Akteure unserer Zeit diente.

God, School, 9/11 and JFK Bruce de Torres, 2021-05-21 GOD, SCHOOL, 9/11 AND JFK by Bruce de Torres exposes the lies that are killing us (we are poor, miserable sinners who deserve God's condemnation and school's incarceration; salvation and careers depend on doing what we are told) and the truth that sets us free (we are eternal love and consciousness, creating all we behold). The lies of 9/11 and the JFK assassination prove our government was hijacked by elites, who strip our rights, wage wars of aggression, and accumulate unspendable riches as they seek to rule the world. The ideals of the American Founding enthrone our sovereignty, our right to be free and oversee a transparent and accountable government. What is seen by those who die and return suggests eternal life and safety. The truth restores our sanity, braces us to play this game of life, and allows us to love each other as ourselves as we create the solutions that we need.
