Wise Quotes of Wisdom R.A. Wise,2011-08-09 The woman who raised me had many interesting sayings. Realizing that the wisdom of the universe was in those quotes, I set out to record as many of them as I could. The sources are many.

Quote Me the Book of All New Quotes Joseph Julius Bonkowski, Jr.,2009-07 Born 8-30-58 in Cleveland Ohio, graduated from Lincoln-West high school in 1977 (Honor Roll), and was on the chess and track team, and started working for the city of Cleveland water dept. in 1977 and retired in 2007. I write short stories, slogans, saying, philosophy, songs, and comedy, restore paintings and comic books, and I can invent almost anything technical. I jog and it seems like I don't age; do to mixing a Fountain of youth type concoction when I was 20 years old. My parents are Joseph and Dorothy Bonkowski. I wrote The secrets of mind reading revealed (Howell Press), and Casablanca 2 (Unpublished), the Theory of Relativity 2, which expands on Einstein's Theory of Relativity (Only 200 copies printed.) My future plans are to keep on writing, and start a career in comedy. I still have thousands of unpublished quotes and saying, and if this book sells well I will write a second book lord willing.

Bringing Home the Laundry Brody Janis,2000-11-01 Bringing Home the Laundry combines a psychologist's advice with the stories and insights of parents and their college-aged kids. It reassures you that your child's departure for college does not sever family ties, but can mark the beginning of a deeply satisfying, exciting new phase in your parent-child relationship.

Y in the Workplace Nicole A. Lipkin, April J. Perrymore,2009-07-15 Flip-flops, iPods, MySpace, Dude, Instant Messaging. Whatever happened to dress shoes, sir/ma'am, in-person meetings, and traditional work etiquette? A workplace revolution is underway, one that is stimulating new methods of thinking, behaving, communicating, and doing business as Generation Y continues to infiltrate the workplace and influence corporate culture. This revolution is lead by approximately 60 million Gen Yers, the largest bloc to hit the workforce since the 72 million baby boomers. Company owners and managers are worried, because this generation has created its own unique culture...and demands. Y in the Workplace illustrates how the values, attitudes, and expectations of Generation Y have had an impact on corporate environments, intergenerational functioning, and management strategies. To help this generation successfully transition into the workplace while creating a shared vision, authors Lipkin and Perrymore provide you, the manager, with the following: Psychological insight into the character of this generation. Strengths and challenges that Generation Y is bringing to the workplace. Coaching strategies and ways to

harness their strengths, minimize their weaknesses, and illuminate their talents. Hope about their abilities as supervisors and managers, and about their positive impact on the future of your company Whether you are a small business owner, manager, HR professional, or teacher working with Generation Y, this book is a must-read to gain insight into why this generation is the way it is, how to help them become the best they can be, and how to integrate them into your company and work with them.

The Making of Modern Subjects Sung Un Gang,2024-06-04 In the early 20th century, Korean women began to manifest themselves in the public sphere. Sung Un Gang explores how the women's gaze was reimagined in public discourse as they attended plays and movies, delving into the complex negotiation process surrounding women's public presence. In this first extensive study of Korean female spectators in the colonial era, he analyzes newspapers, magazines, fictions, and images, arguing that public discourse aimed to mold them into a male-driven and top-down modernization project. Through a meticulous examination of historical sources, this study reconceptualizes colonial Korean female spectators as diverse, active agents with their own politics who played a crucial role in shaping colonial publicness.

The Record of Tung-shan Tung-shan,2021-05-25 Tung-shan Lian-chien (807-869) was an active participant in what was perhaps the most creative and influential phase in the development of Ch'an Buddhism in China. He is regarded as the founder of the Ts'ao Tung lineage, one of the so-called Five Houses of Ch'an, and it was his approach to Buddhism and the house it gave rise to that attracted the interest of the great thirteenth-century Japanese monk Dogen during his stay in China. Dogen subsequently carried Tung-shan's lineage back to Japan where it became known as Soto Zen, which remains one of the major Zen sects today. The discourse record translated in this volume represents a unique form of religious literature. Drawn from the dialogues of ninth-century and tenth-century Ch'an masters who lived mostly in the mountains and rural areas in and around modern Kiangsu Province, the discourse records present the reader not with philosophy or doctrine but rather with word portraits of some of China's more influential Ch'an masters. They allow us to glimpse the personalities and teaching styles of figures believed to be capable of manifesting the "pure mind" in their simplest words and actions. Few early Ch'an masters appear to have committed their teachings to writing, so that the discourse records are virtually the only tangible traces that remain of these seminal figures of Ch'an history.

Women and the Environment Irwin Altman,Arza Churchman,2013-06-29 This thirteenth volume in the series addresses an increasingly salient worldwide research, design, and policy issue-women and physical environments. We live in an era of worldwide social change. Some nation-states are fracturing or disintegrating, migrations are resulting from political upheavals and economic opportunities, some ethnic and national animosities are resurfacing, and global and national economic systems are under stress. Furthermore, the variability of interpersonal and familial forms is increasing, and cultural subgroups-minorities, women, the physically challenged, gays, and lesbians-are vigorously demanding their rights in societies and are becoming significant economic and political forces. Although these social-system changes affect many people, their impact on women is especially salient. Women are at the center of most forms of family life. Whether in traditional or contemporary cultures, women's roles in child rearing, home management, and community relations have and will continue to be central, regardless of emerging and changing family structures. And, because of necessity and opportunity, women are increasingly engaged in paid work in and outside the home (women in most cultures have historically always worked, but often not for pay). Their influence in cultures and societies is also mounting in the social, political, and economic spheres. In technological societies, women are playing higher-level roles, though still in small numbers, in economic and policy domains. This trend is likely to accelerate in the twenty-first century.

The Routledge Handbook of Contemporary Existentialism Kevin Aho,Megan Altman,Hans Pedersen,2024-04-18 Of the philosophical movements of the twentieth century existentialism is one of the most powerful and thought-provoking. Its engagement with the themes of authenticity, freedom, bad faith, nihilism, and the death of God captured the imagination of millions. However, in the twenty-first century existentialism is grappling with fresh questions and debates that move far beyond traditional existential preoccupations, ranging from the lived experience of the embodied self, intersectionality, and feminist theory to comparative philosophy, digital existentialism, disability studies, and philosophy of race. The Routledge Handbook of Contemporary Existentialism explores these topics and more, connecting the ideas and insights of existentialism with some of the most urgent debates and challenges in philosophy today. Eight clear sections explore the following topics: methodology and technology social and political perspectives environment and place affectivity and emotion death and freedom value existentialism and Asian philosophy aging and disability. As well as chapters on key figures such as Kierkegaard, Nietzsche, Heidegger, Sartre, and Beauvoir, the Handbook includes chapters on topics as diverse as Chicana feminism, ecophilosophy and the environment, Latina existentialism, Black nihilism, the Kyoto school and southeast Asian existentialism, and the experiences of aging, disability, and death. Essential reading for students and researchers in the areas of existentialism and phenomenology, *The Routledge Handbook of Contemporary Existentialism* will also be of interest to those studying ethics, philosophy and gender, philosophy of race, the emotions and philosophical issues in health and illness as well as related disciplines such as Literature, Sociology, and Political Theory.

The Change Germaine Greer, 2018-05-17 'A brilliant, gutsy, exhilarating, exasperating fury of a book' New York Times 'Germaine Greer has given women just the book they need for this time of their lives. Read it, pass it on, talk about it, disagree with it, keep the circle going' Washington Post The seminal, ground-breaking and controversial feminist text on the menopause, revised and updated When The Change was published in 1991, 'menopause' was a word of fear. Then, as now, expensive magazines advertised even more expensive anti-ageing preparations, none of which worked. Big pharma was pushing replacement hormones, but doctors were dragging their feet. Some women told horror stories of their experiences with replacement hormones; others called them lifesavers. Nobody knew why some women went through this change of life without difficulty. What was working for them, when other women were tormented almost to madness? It seemed that we were close to an answer to that question, but that was before large-scale studies revealed that the protective effects of hormone replacement had been vastly exaggerated; given the perceived increase in the risk of life-threatening disease, the studies had to be called off. Now more than ever, amid the clamour of online chatrooms and promotions for a vast array of alternative therapies, the individual woman has to manage her passage through menopause for herself. In The Change, Germaine Greer provides a common-sense guide to a very interesting and important stage of women's lives.

Mapping South American Latina/o Literature in the United States Juanita Heredia, 2018-03-13 This collection of interviews demonstrates that U.S. Latinas/os of South American background have contributed pioneering work to U.S. Latina/o literature and culture in the twenty-first century. In conversation with twelve significant authors of South American descent in the United States, Juanita Heredia reveals that, through their transnational experiences, they have developed multicultural identities throughout different regions and cities across the country. However, these authors' works also exemplify a return to their heritage in South America through memory and travel, often showing that they maintain strong cultural and literary ties across national borders. As such, they have created a new chapter in trans-American history by finding new ways of imagining South America from their formation and influences in the U.S.

A Tale of Two Lives Carin Renton, 2016-02-19 A book about the experience of arriving in a new country, beginning a family, and coping with the ups and downs of everyday living. Then in midlife, a complete upheaval and change.
