**Michael Powell**

*Lies My Teacher Told Me* James W. Loewen, 2008 Criticizes the way history is presented in current textbooks, and suggests a more accurate approach to teaching American history.

**The True Story of the First Thanksgiving** Colleen Adams, 2008-07-15 Did you know the Pilgrim and Native American's feast lasted for three days and they may not have eaten turkey? In this book, readers will learn more about what may have really happened on the first Thanksgiving.

**The Pilgrims Didn't Celebrate the First Thanksgiving** Julia McDonnell, 2016-12-15 Every student grows up hearing about the first Thanksgiving, celebrated by the Pilgrims and Native Americans in 1621. However, that wasn't the first Thanksgiving! It wasn't even the first one celebrated by European settlers! This is just one myth debunked in this valuable look at colonial American history. Readers will feel like real historians unearthing the truth behind the legends. Beautiful images and fun fact boxes will add to their interest.

The First Thanksgiving Peter Mavrikis, 2021-08 Every November, the United States celebrates Thanksgiving Day. But what actually happened at the first Thanksgiving? And when did it happen? Discover the facts and find out the fiction surrounding one of America's favorite holidays.

**Lies My Teacher Told Me** James W. Loewen, 2018-07-17 Every teacher, every student of history, every citizen should read this book. It is both a refreshing antidote to what has passed for history in our educational system and a one-volume education in itself. —Howard Zinn A new edition of the national bestseller and American Book Award winner, with a new preface by the author Since its first publication in 1995, *Lies My Teacher Told Me* has become one of the most important—and successful—history books of our time. Having sold nearly two million copies, the book also won an American Book Award and the Oliver Cromwell Cox Award for Distinguished Anti-Racist Scholarship and was heralded on the front page of the *New York Times*. For this new edition, Loewen has added a new preface that shows how inadequate history courses in high school help produce adult Americans who think Donald Trump can solve their problems, and calls out academic historians for abandoning the concept of truth in a misguided effort to be objective. What started out as a survey of the twelve leading American history textbooks has ended up being what the *San Francisco Chronicle* calls an extremely convincing plea for truth in education. In *Lies My Teacher Told Me*, James W. Loewen brings history alive in all its complexity

and ambiguity. Beginning with pre-Columbian history and ranging over characters and events as diverse as Reconstruction, Helen Keller, the first Thanksgiving, the My Lai massacre, 9/11, and the Iraq War, Loewen offers an eye-opening critique of existing textbooks, and a wonderful retelling of American history as it should—and could—be taught to American students.

**Little White Lies** Curious Violet, 2016-02-21 A compilation of articles and comments regarding common lies told by the government and the history books about Native Americans. Edited by Curious Violet.

New Light on the Old Colony Jeremy Bangs, 2019-10-29 Colonial government, Pilgrims, the New England town, Native land, the background of religious toleration, and the changing memory recalling the Pilgrims – all are examined and stereotypical assumptions overturned in 15 essays by the foremost authority on the Pilgrims and Plymouth Colony. Thorough research revises the story of colonists and of the people they displaced. Bangs' book is required reading for the history of New England, Plymouth Colony, Massachusetts Natives, the Mennonite contribution to religious toleration in Europe and New England, and the history of commemoration, from paintings and pageants to living history and internet memes. If Pilgrims were radical, so is this book.

The First Thanksgiving Feast Joan Anderson, 1989-09 Recreates the first harvest feast celebrated by the Pilgrims in 1621 using the Pilgrim and Indian actors and the seventeenth-century setting of Plimoth Plantation, a living history museum in Plymouth, Massachusetts.

**The Truth about Baked Beans** Meg Muckenhoupt, 2015-09-25 The author of *Cabbage: A Global History* forages through New England's most famous foods for the truth behind the region's culinary myths. Meg Muckenhoupt begins with a simple question: When did Bostonians start making Boston Baked Beans? You may have heard that the Pilgrims learned the dish from Native Americans, but the recipe was actually the result of a conscious effort in the late nineteenth century to create New England foods. New England foods were selected and resourcefully reinvented from fanciful stories about what English colonists cooked prior to the American revolution—while pointedly ignoring the foods cooked by contemporary New Englanders, especially the large immigrant populations who were powering industry and taking over farms around the region. *The Truth About Baked Beans* explores New England's culinary myths and reality through some of the region's most famous foods: baked beans, brown bread, clams, cod and lobster, maple syrup, pies, and Yankee pot roast. From 1870 to 1920, the idea of New England food was carefully constructed in magazines, newspapers, and cookbooks, often through fictitious and sometimes bizarre origin stories touted as time-honored American legends. This toothsome volume reveals the effort that went into the creation of these foods, and lets us begin to reclaim the culinary heritage of immigrant New England—the French Canadians, Irish, Italians, Portuguese, Polish, Indigenous people, African-Americans, and other New Englanders whose culinary contributions were erased from this version of New England food. Complete with historic and

contemporary recipes, *The Truth About Baked Beans* delves into the surprising history of this curious cuisine, explaining why and how “New England food” actually came to be.

**Maroons and the Marooned** Richard Bodek, Joseph Kelly, 2020-04-20 Contributions by Richard Bodek, Claire P. Curtis, Joseph Kelly, Simon Lewis, Steve Mentz, J. Brent Morris, Peter Sands, Edward Shore, and James O'Neil Spady Commonly, the word maroon refers to someone cast away on an island. One becomes marooned, usually, through a storm at sea or by a captain as a method of punishment. But the term originally denoted escaped slaves. Though being marooned came to be associated mostly with white European castaways, the etymology invites comparison between true maroons (escaped slaves establishing new lives in the wilderness) and people who were marooned (through maritime disaster). This volume brings together literary scholars with historians, encompassing both literal maroons such as in Brazil and South Carolina as well as metaphoric scenarios in time-travel novels and postapocalyptic narratives. Included are examples from *The Tempest*; Margaret Atwood's *MaddAddam* trilogy; *A Connecticut Yankee in King Arthur's Court*; and Octavia Butler's *Kindred*. Both runaways and castaways formed new societies in the wilderness. But true maroons, escaped slaves, were not cast away; they chose to fly towards the uncertainties of the wild in pursuit of freedom. In effect, this volume gives these maroons proper credit, at the very heart of American history.

**American Indian Stereotypes in the World of Children** Arlene B. Hirschfelder, Paulette Fairbanks Molin, Yvonne Wakim, 1999 Presents a collection of challenging articles detailing uses and abuses of Native American symbols, images, ideas, and stories that are directed at youth in the mass media. Toys, cartoons, textbooks, general reading, media portrayals, sports logos, nicknames, and more are discussed in standalone articles.

*Rethinking Life* Shane Claiborne, 2023-02-07 Drawing on Scripture, church history, and his own story, Shane Claiborne explores how a passion for social justice issues surrounding life and death--such as war, gun ownership, the death penalty, racial injustice, abortion, poverty, and the environment--intersects with our faith as we advocate for life in its totality. Many of us wonder how to think about and act on issues of life and death beyond abortion and the death penalty--yet the heated debates in our churches and the confusion of our own hearts sometimes feel overwhelming. What does a balanced, Christian view of what it means to be pro-life really look like? Combining stories, theological reflection, and a little wit with a Southern accent, activist Shane Claiborne explores the battle between life and death that goes back to the Garden of Eden. Shane draws on his childhood growing up in the Bible Belt, his own change of perspective on how to advocate for life, and his years of working on behalf of all people to help us: Learn from the Bible and the early church about valuing life Deepen our understanding of what a pro-life stance can look like Discover ways to discuss topics that are dividing our culture and churches Find encouragement when we feel politically homeless Renew our hope that there is a good way forward, even in difficult times We need a new movement that stands up for life--without exceptions. This moving and incredibly timely book

creates a larger framework for thinking about God's love and our faith as we embrace a consistent ethic that values human life from womb to tomb.

**Lies You Learned at School** Michael Powell,2011-04-12 Everyone knows that you shouldn't believe everything you read in the newspapers, hear on TV, or find on the Internet, but you don't expect the same advice to apply to what you learned at school. Well, think again, because you can guarantee there's heaps of stuff in your head that you've been taught that just isn't true, or it if is, has been dumbed down so much as to be just plain wrong. And that's before you even begin to consider the political bias that may have been added to your schooling. If you don't believe us, read this book and you'll discover how much dodgy information you've been carrying around in your noodle all these years.Two plus two doesnt always equal fourHenry VIII only had two wivesNapoleon wasnt FrenchMirrors dont reverse everythingCold isnt the opposite of hotClouds are heavyGravity is weak, and theres plenty of it in spaceBen Franklins kite wasnt hit by lightningElectrons travel slowlyNothing in the universe is really uniqueThe big bang wasnt big or a bangThe U.S. isnt a democracy (its a constitutional republic)
