Printed Poison Jeffrey K. Sawyer, 2023-11-15 Combining a broad analysis of political culture with a particular focus on rhetoric and strategy, Jeffrey Sawyer analyzes the role of pamphlets in the political arena in seventeenth-century France. During the years 1614-1617 a series of conflicts occurred in France, resulting from the struggle for domination of Louis XIII's government. In response more than 1200 pamphlets—some printed in as many as eighteen editions—were produced and distributed. These pamphlets constituted the political press of the period, offering the only significant published source of news and commentary. Sawyer examines key aspects of the impact of pamphleteering: the composition of the targeted public and the ways in which pamphlets were designed to affect its various segments, the interaction of pamphlet printing and political action at the court and provincial levels, and the strong connection between pamphlet content and assumptions on the one hand and the evolution of the French state on the other. His analysis provides new and valuable insights into the rhetoric and practice of politics. Sawyer concludes that French political culture was shaped by the efforts of royal ministers to control political communication. The resulting distortions of public discourse facilitated a spectacular growth of royal power and monarchist ideology and influenced the subsequent history of French politics well into the Revolutionary era. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1990.

The Crime of Poison in the Middle Ages Franck Collard, 2008-09-30 This book will lead readers into a medieval culture of ambition, greed, and jealousy that motivated men and women to take the lives of individuals who trusted them. Collard examines the perception of the crime of poisoning in the West in medieval times, from about 500 to 1500 AD, exploring the ways the alleged crime was perceived in contemporary minds. His primary sources are chronicles that cover the entire

medieval period and legal texts that are limited to the late medieval centuries. In order to portray the culture of murder by poisoning in the West, it was necessary to take into account Byzantine and Islamic documents as well as ancient texts such as the Scriptures and the writings of Roman historians, both of which were widely known in the Middle Ages. This book will lead readers into a medieval culture of ambition, greed, and jealousy that motivated men and women to take the lives of individuals who trusted them. In these pages, French medievalist Franck Collard examines the perception of the crime of poisoning in the West from about 500 to 1500. His primary sources of information are chronicles that cover the entire medieval period and legal texts that are limited to the late medieval centuries. In order to portray the culture of murder by poisoning in the West, he takes into account Byzantine and Islamic documents, as well as ancient texts such as the Scriptures and the writings of Roman historians, both of which were widely known in the Middle Ages. The resulting volume is concerned with the criminal actions that involve poison and not poison as such. Poisonous substances as such are described only when necessary for an understanding of a crime. What is important here is an examination of the ways the alleged crime was perceived in contemporary minds. Poisoning avoids the use of violence. It was committed without a drawn weapon or bloodshed in a world in which wounds, swords, knives, and clubs represented aggression and in which the flow of blood determined the gravity of the crime. Necessarily involving preparation and secrecy, it was often perpetrated treacherously during a meal, a particularly heinous act in a universe that was united by the companionship of a meal and the sociability of drinking. The special horror associated with poisoning resulted from the treachery of those close to the victim-and a sudden death that prevented a final confession of sins.
