Gemini Joanna Martine Woolfolk, 2011-11-16 Your Sun sign (often referred to simply as your sign) is the zodiac sign the Sun was traveling through at the time of your birth. Your Sun sign is the most important and pervasive influence in your horoscope and in many ways determines how others see you. It governs your individuality, your distinctive style, and your drive to fulfill your goals. It symbolizes the role you are given to play in this life. It's as if at the moment of your birth you were pushed onstage into a drama called This Is My Life. In this drama, you are the starring actor—and your sign is the character you play. This elegant little volume is packed with what your Sun sign tells you about you. You'll read about your many positive qualities as well as your negative issues and inclinations. You'll find insights into your power, potentials, and pitfalls; advice about relationships, love, and sex; clarification on erogenous zones and how you combine romantically with other signs; guidance regarding career, health, and diet; and information about myriads of objects, places, concepts, and things to which you're attached. You'll also find topics not usually included in other astrology books—such as how you fit in with Chinese astrology and with numerology.

A Modern Guide to Astrology Mikesmith, 2019-12-27 ===Buy the Paperback Version of this Book and Get the Kindle eBook Version included for FREE=== Astrology is one of the most complex and exciting things in the world. After all, who does not want to know what their future holds for them? If you are interested in astrology, this book is sure to help you understand it and use it in your day-to-day life. Astrology can be defined as the study of the influence of heavenly objects on our lives. These celestial objects include the stars, planets, asteroids, satellites, etc. The positions of these elements at the time of an individual's birth (and not their conception) determines a lot of things about them and their lives. For instance, astrology can be used to understand a person's personality, his or her attitude and aptitude, their feelings, and their emotions as well. It can also show their romantic relationships and can predict certain things, including financial and professional life. Many people know of astrology thanks to the 'horoscope', which has become a fixture in many magazines and dailies. They also know their zodiac signs and the traits associated with them. This is sun sign astrology on which most of

these newspaper horoscopes are based. It is the most straightforward and easy to understand any form of astrology, but it is also the most limited form. The results and predictions of this form of astrology are often confusing and may prove to be wrong, as well. Its simplistic nature has made popular, but due to its problems, many people now believe that astrology is fake. This book will only focus on Western astrology, as it is the most widely practiced type. This book will try to answer all your queries regarding this subject. Now let us enter the world of astrology and zodiac!
