scientific computing by michael heath which has some great exercises but no solutions is there a site with exercises and solutions related to topics like linear systems of equations lu decomposition iterative methods overdetermined systems linear algebra reference request numerical methods [scientific computing department of computer science](#) - Jul 26 2022
 web computing condition number definition of condition number involves matrix inverse so nontrivial to compute computing condition number from definition would require much more work than computing solution whose accuracy to be assessed in practice condition number estimated inexpressively as byproduct of solution process
