Bouncing Forwards Patrick Regan,2024-07-18 'Nobody is immune from the storms of life. Patrick's book is a lifeboat while the waves are crashing but it is much more than that: Bouncing Forwards is a guide that helps us to navigate through tricky waters so that we become better equipped for the journey of life. It's an honest, wise and practical handbook for growing in resilience. I can't recommend it highly enough.' CATHY MADAVAN, AUTHOR OF IRREPRESSIBLE Bouncing Forwards offers hope to those who're facing battles such as mental or physical health challenges, bereavement, the loss of cherished dreams or recovery from trauma. Patrick Regan reveals his vulnerability as he shares that making peace with his own ongoing anxiety only came after a period of intense physical, emotional and spiritual pain. There is always the temptation to wait for the day when all will be well. Yet becoming preoccupied with the future may well mean missing out on what's happening in our lives in the here and now. Is it possible to be OK even when life isn't? Can we thrive, not just once we've come through adversity, but right there in the midst of it? Exploring resilience, acceptance and emotional agility, Patrick encourages us to believe we can find meaning in some of life's toughest moments - and the faith to journey on.

Literary Studies and Human Flourishing James F. English,Heather Love,2023 The Humanities and Human Flourishing series publishes edited volumes that explore the role of human flourishing in the central disciplines of the humanities, and whether and how the humanities can increase human happiness. The contributors to this volume of essays investigate the question: what do literary scholars contribute to social scientific research on human happiness and flourishing? Of all humanities disciplines, none is more resistant to the program of positive psychology or the prevailing discourse of human flourishing than literary studies. The approach taken in this volume of essays is neither to gloss over that antagonism nor to launch a series of blasts against positive psychology and the happiness industry. Rather, the contributors reflect on how their literary research--work to which they are personally committed--might become part of an interdisciplinary conversation about human flourishing. The contributors' areas of research are wide ranging, covering literary aesthetics, book history, digital

humanities, and reader reception, as well as the important inter-disciplines of gender and sexuality studies, disability studies, and black studies-fields in which issues of stigma and exclusion are paramount, and which have critiqued the discourse of human flourishing for its failure to grapple with structural inequality and human difference. Literary scholars are drawn more readily to the problematic than to the decidable, but by dwelling on the trouble spots in a field of inquiry still largely confined to the sciences, Literary Studies and Human Flourishing provides the groundwork for new and more productive forms of interdisciplinary collaboration and exchange.

Intentional Women Inspiring Others Lillé McGhee Queen,2016-09-28 Intentional Women Inspiring Others will be one of the most interesting books that you read during your lifetime. The author takes you on a personal life journey from the East Coast to the West Coast and then back to North Carolina, her place of birth. Along the way, she expresses her unique life experiences through thought-provoking poems, quotes, essays, and art. As a professional artist/painter, Lilles vibrant abstract paintings promote energy, excitement, and conversation. Many of the selected poems were influenced by her abstract paintings, which can be viewed at www.pbase.com/lille_mcghee. The contributing authors write compelling stories about their respective lives. One writer comes to the United States as a young child and finds his passion and voice as an artist and singer. Another writer develops an appreciation for teas as a result of being in the company of her mother and grandmother during childhood days in the South. And one writer expresses initial mixed emotions she felt in leaving home for the first time to begin a successful career in the United States Navy. Intentional Women Inspiring Others is designed to build self-confidence in a new area of life; challenge the readers current way of thinking; stretch the imagination to a new level; encourage readers to trust their instincts and take moderate risks; tap into the readers inner voice; make acts of kindness a daily habit; develop a greater appreciation for the arts and literary works; and engage in conversations with confidence. The purpose of Intentional Women Inspiring Others is to allow each reader to think about his or her own personal life story. Everybody has a short story; the author contends that no story should go untold because everyone grows when sharing different life experiences.

Historias antieconómicas Carlos Taibo,2020-07-15 Este libro recopila un centenar de historias, de relatos breves, de anécdotas, de chistes, de apreciaciones, que mal que bien rompen con la lógica económica dominante. Esas historias

procuran colocar lo colectivo por encima de lo individual, rehúyen la identificación entre consumo y bienestar, otorgan más relieve al tiempo que al dinero, recelan de las virtudes del trabajo que nos imponen, llaman la atención sobre las discriminaciones que padecen tantas mujeres, subrayan el escenario tétrico que sufren tantos animales, se interesan por prácticas de solidaridad y apoyo mutuo, o recuerdan las miserias que rodean a nuestro muy precario conocimiento del lugar en el que estamos. Si unas veces beben de la perspectiva del decrecimiento y en otras ocasiones se alimentan de culturas campesinas que se niegan a morir, tras ellas se aprecia con claridad el designio de cuestionar la lógica del capitalismo en todas sus dimensiones.

The Existence of God Richard Swinburne, 2004-03-25 Richard Swinburne presents a substantially rewritten and updated edition of his most celebrated book. No other work has made a more powerful case for the probability of the existence of God. Swinburne gives a rigorous and penetrating analysis of the most important arguments for theism: the cosmological argument; arguments from the existence of laws of nature and the 'fine-tuning' of the universe; from the occurrence of consciousness and moral awareness; and from miracles and religious experience. He claims that while none of these arguments are deductively valid, they do give inductive support to theism and that, even when the argument from evil is weighed against them, taken together they offer good grounds to support the probability that there is a God. The overall structure of the discussion and its conclusion have been retained for this new edition, but much has been changed in order to strengthen the argumentation and to take account of Swinburne's subsequent work on the nature of consciousness and the problem of evil, and of the latest philosophical and scientific writing, especially in respect of the laws of nature and the argument from fine-tuning. This is now the definitive version of a classic in the philosophy of religion.

The War Against Ourselves Jacklyn Cock, 2007 For many people nature means wilderness and wild animals. It is experienced indirectly through magazines and television programs or through visiting the highly managed environments of national parks. Nature, however, is not external, separate from the world of people--we live in nature and interact with it daily. In this book, Jacklyn Cock describes how these intricate and complex interconnections, seen and unseen, are often ignored. Each of the ten chapters examines an aspect of our relationship with nature. *The War Against Ourselves* compels us to reexamine our relationship with nature, to change our practices and dissolve present binary divisions such as people vs. animals, economic growth vs. environmental protection, nature vs. culture. It demonstrates the need for an inclusive politics which brings together peace, social, and environmental justice activists who believe that another world is both possible and necessary. -- Book cover.

Fathers' Wit Rosemarie Jarski, 2005 *Fathers' Wit* collects some of the funniest observations ever made on the august institution of fatherhood. Every phase is up for comment--from conception to diaper-changing, family holidays to first dates, weddings to bankruptcy. Pearls of wit and wisdom are offered up by fathers who have been there, done that, and had the drool-stained T-shirt. But dads don't have all the say: the paternal view is carefully balanced by pithy commentary from the family members who put up with them. Fathers old and new will be royally entertained; and if the rest of the family can pry the book out of his hands, they'll gain valuable insights into workings of dear old dad.

Removing the Barriers to Global Health Equity Theodore H. MacDonald, Rashmin Tamnhe, 2016-07-06 Medical research and global awareness of health inequalities continue to grow apace. This passionately-argued book presents answers that will be essential reading for everyone interested in global health, public health, public policy and economics. Policy makers in global communities and government, political activists and all those with an interest in equality in healthcare will find stimulating, well-supported analyses of the interaction between neoliberal
